 Cascara, 7c
 Lard, 20c
 Wheat, \$1.80
 Oats, 65c
 Onions lb, 14c
 Wool, 60c to 65c
 Mohair 60c
 Potatoes, nev., \$2.00

D J L P H WOOLWORTH

SCRIPSI SAYS NEW SIDE HILL PLOW AND FREE ENERGY WILL REJUVENATE BUTTEVILLE. IS WOOLWORTH THE INVENTOR, OR SUB ROSA CANDIDATE FOR STATE SENATE?

Randolph Woolworth, farmer, politician and philosopher is having a serious time with a piece of his farm adjoining Butteville. This particular piece lies on a hillside at an angle of about 45 degrees and as the "Willy Met" River cuts away some of the base occasionally the grade up the hill increases. Randolph says it is not safe to plow this ground either up hill or down hill. If he plow down hill, the team acquires such momentum that it is liable to be carried over all obstructions into the river. If he plow up hill, there is danger of the team falling over backward and crippling the driver.

The common side hill plow does not suit the case, says Mr. Woolworth, as too much time is consumed in making transfers or shifting gear at each end of the furrow, so he is studying diligently on a proposition of his own in the production of a side hill plow to which he can apply the principles of perpetual motion. Since Giragosian announced his invention, based on "free energy," that does away with boilers, furnaces, motors, coal steam and oil, Mr. Woolworth is very hopeful that something can be done for the side hill plow that will suit his case.

He says there is no place in the whole country more suitable for the development of "free energy," as proposed by Mr. Giragosian, than right here at Butteville, for the simple reason that most of the ordinary kind of energy seems to be moving off in the direction of Donald and Fargo. This is painful to an old timer like Randolph Woolworth who was one of the first incorporators of the City of Butteville and who has always taken an active interest in city affairs. Should he be successful with his side hill plow, either with or without the aid of perpetual motion, he proposes to establish a factory here for its manufacture, which, he thinks, will do much to restore the old time and kind of energy which kept Butteville on the map for many prosperous years.

Like all inventors, Mr. Woolworth is very reticent about his new side hill plow and takes no one into his confidence as to its construction. He keeps his forms and models under lock and key and

Youth Under Draft Age Should Be Sent to College

By Dr. WILLIAM H. CRAWFORD, President of Allegheny College

THERE are several reasons why young men under the draft age should go to college during wartime:

Because the high school graduates who under normal conditions would go to college are now called in an imperative way to take the places made vacant by the large number of college men who have gone to war.

Because the opportunities for well trained men in "the reconstruction period" after the war will far SURPASS ANY OPPORTUNITIES THAT HAVE FACED THE YOUNG MEN OF THIS COUNTRY.

Because the new opportunities in science and in civil and political leadership will demand the type of man the American college produces.

Because this generation must do its utmost to guarantee trained men for the next generation.

THE HERITAGE OF LEARNING AND SCIENTIFIC ACHIEVEMENT MUST BE HANDED ON TO THOSE WHO SHALL COME AFTER US.

Modern Priscilla, 2 years, \$1.50

Any one desiring trees for fall planting can secure some first class stock—apples, pears, peaches, prunes, etc., at greatly reduced rates by inquiring at the Observer Office, some having come into its possession in payment of bills due it. Ask about them.

STATEMENT OF OWNERSHIP, MANAGEMENT, CIRCULATION, ETC.

Of the Aurora Observer, published weekly at Aurora, Oregon, required by the Act of August 24, 1912.

Editor, N. C. Wescott, Aurora, Ore. Managing Editor, N. C. Wescott, Aurora, Oregon.

Business Manager, N. C. Wescott, Aurora, Oregon.

Publisher, N. C. Wescott, Aurora, Ore.

Owner, N. C. Wescott, Aurora, Ore.

Known bondholders, mortgages, and other security holders, holding 1 per cent or more of total amount of bonds, mortgages, or other securities: None.

(Signed) N. C. WESCOTT, Publisher.

Subscribed before me this day of Oct., 1917.

C. S. WESCOTT, Notary Public of Oregon. (My commission expires April 18, 1920.)

works in his shop with all the secretiveness of an Edison, knowing that an idea, like horses and automobiles, may be stolen.

Carrying the burden of such a great problem all alone and at the same time wrestling with the perpetual motion chimera has been the undoing of many men. Envious people say that all this worry over a sidehill plow to be run by some kind of a perpetual motion machine or one that generates unlimited free energy is all bunk on Mr. Woolworth's part; that he has his weather eye on a seat in the Oregon State Senate and takes this method of enlisting the farmers vote in his favor which is, of course, indignantly denied by the party of the first part. However, time will tell and in the meantime other candidates for a place in the upper house of the Oregon Legislature will do well to keep tab on Randolph Woolworth.

Town Topics

Fresh Cow for Sale—C. C. Oldfield, Aurora, Oregon, (Needy Phone.)

Ed Graves was among the well known Clackamas county farmers here on business this week.

The State Bank of Hubbard Wednesday reported Second Liberty Loan subscriptions to the amount of \$1450.

A decree was signed in circuit court Tuesday, at Oregon City, dissolving the marriage of Lilah and Phillip H. Tucker.

E. J. Snyder, L. I. Snyder, Louis Webert and R. H. Whitworth attended the "Doky Doings" at Portland this week.

FOUND—At the Sadler & Kraus store, two rings for girls or ladies. Owner may have same by identifying property and paying for this notice.

For Rent—9 acres of land, 4 acres good onion ground, beaverdam. A. Willbroad, Route 4, Aurora, Oregon. 30-5t.

Guy N. Hickok, cashier of the Aurora State Bank, went to Portland yesterday to attend the banquet tendered Secretary of the Treasury, McAdoo, by the bankers of the state.

W. H. Asquith is home from Myrtle Creek, bringing with him the hide of a bear shot by Otto Blosser, who, with Percy Catlett, is still rambling in the jungles of Douglas county—after deer.

The Observer force acknowledges a basket of fine Niagara gaapes from the H. L. Mills place. They were large-sized, beautiful green grapes of the finest flavor, and show in what perfection grapes grow in the Willamette valley, when given proper care.

The portrait of John Wesley is now in the possession of an art collector in Philadelphia. This picture is one of the finest that came from the brush of the famous George Romney. In this connection it is interesting to note that for the portrait, measuring 30 by 24 inches, and its frame the artist charged but \$40.

Macbeth and McKinley. Long before William McKinley became a national and international figure I made his acquaintance and won his friendship and good will, which ended only when he passed to eternal rest. We often met at his home in Canton, O., and at the house of a mutual friend, M. Rulman, the son-in-law of Rabbi Levinsky, the editor of the family and school Bible.

When he was elected a member of congress this intimacy continued, and many social and pleasant hours were passed in my home and in his rooms at the Ebbitt House, where he lived during his whole congressional career. He was at all times genial, and no matter what he had to do, either for his constituents or for his friends, he was ever the same patient, courteous and self-sacrificing gentleman. In due course of time he was elected governor of Ohio. I telegraphed him, "Thane of Cawdor, king that shall be," to which he promptly replied, "Thanks, but not yet."—Simon Wolf in American Hebrew.

First Aid For Fainters. Every member of the Washington police force carries when on duty in crowds a pill box full of tiny glass tubes of aromatic spirits of ammonia, according to the Popular Science Monthly. These are for reviving persons who faint in the street.

The tubes are about an inch long and slightly more than an eighth of an inch in diameter. Each has a wrapping of absorbent cotton and over this a silk gauze covering.

Slight pressure between the fingers is sufficient to break the tube. The ammonia is promptly absorbed by the cotton about it, which also serves to prevent the sharp particles of glass from doing any harm. Held beneath the nose of the person who has fainted, the fumes of the ammonia soon revive her. The tubes are stored in all the patrol boxes about the city and are carried in patrol wagons and police ambulances.

Speculation and Gambling. It has often been asked if a man can speculate in the stock market without any one losing in the event of his making a profit.

On the floor of the New York Stock Exchange I once traced 100 shares of Steel that passed through the hands of nineteen speculators in a single day. Each one of these nineteen bought and sold them, and each one made money. It is idle to say that some of these may have lost what they might have made, because that involves us in a double hypothesis. Actually each one profited, and actualities are what count in speculation as in every other form of legitimate business.

This incident illustrates one of seven reasons why speculation is not gambling—William C. Van Antwerp in New York Sun.

A Letter From Washington

The Food Administrator Writes Us:

"The use of baking powder breads made of corn and other coarse flours instead of patent wheat flour is recommended by the Conservation Division of the Food Administration. The wheat needed for export is thus conserved, and at the same time healthful food for our own people is provided. The circulation of recipes providing for these uses would be of assistance in carrying out our plans."

The following recipes for Corn Bread and Rye Rolls save wheat flour and make attractive and wholesome food for every day when made with

ROYAL BAKING POWDER

CORN BREAD
 1 1/2 cups corn meal
 1/2 cup flour
 4 level teaspoons Royal Baking Powder
 1 tablespoon sugar
 1 teaspoon salt
 1 1/2 cups milk
 2 tablespoons shortening

RYE ROLLS
 2 cups rye flour
 1/2 teaspoon salt
 1/2 level teaspoons Royal Baking Powder
 1/2 cup milk
 1/2 tablespoon shortening

Sift dry ingredients together, add milk and melted shortening. Knead on floured board; shape into rolls. Put into greased pans and allow to stand in warm place 20 to 25 minutes. Bake in moderate oven 25 to 30 minutes.

Our red, white and blue booklet "Best War Time Recipes" containing additional similar recipes sent free on request. Address Royal Baking Powder Company, Dept. H, 135 William Street, New York.

NEWSPAPER CHANGES

The Donald Record will be in charge of Mrs. H. E. Hodges hereafter. Mr. Hodges having taken a position with the Oregon City Enterprise. Mrs. Hodges will look after the Donald news and advertising copy and send same to Oregon City where it will be put in type and the paper printed and returned to Donald for distribution. This plan was made necessary, according to the Record, on account of lack of support for the paper.

M. J. Lee has rented the Clackamas County News at Canby to Chas. S. Clark, who has been in the employ of the News for several months. Mr. Lee has taken the agency for the Cleveland tractor and it is reported that he will move to Portland to live.

Taming an Elephant.

In Ceylon the natives capture wild elephants by lassoing them and tying their hind legs to trees. Thus tied, they are left to struggle for four or five days. If the ropes be well secured and knotted the animals struggle in vain, for they are unable to exert their full strength toward getting free. When they have grown tired of the fruitless fight they are tied by the neck between two tame elephants and marched off to the tea plantations or the railroad, where they are put to work. Under the tuition of tame elephants they learn rapidly to perform the labor that is required of them and soon are able to lay railroad ties accurately.

Football Results.

A store in a certain district displayed in one of its windows this notice: "Football results received here." Into this haven one Saturday evening a man entered, supporting a young man whose figure testified to the fact that he had been engaged in some deadly encounter. "Ye receive football results here, I see," said the former. "Yes; we do," replied the clerk. "Well, here's one from the football match. Ye might keep him till he comes to himself."—Exchange.

YODER.

Claude Yoder was an Oregon City visitor Saturday.

Alfred Olsen is enjoying a new Overland, recently purchased.

Mr. and Mrs. C. E. Dugan were in Portland the first of the week.

Mr. and Mrs. A. G. Yoder were visitors in Portland a couple of days this week.

Mrs. T. H. Sconce and Mrs. L. B. Yoder were shopping in Portland Saturday.

Clarence Yoder came up from California for a visit with his parents Mr. and Mrs. Will Yoder.

Mr. and Mrs. Chas. Cooper and family and Richard Lampman have returned from a three weeks trip to the coast.

The addition to the farmer's warehouse is nearly completed. The capacity has been doubled and from the way potatoes are turning out in this vicinity all the space will be needed.

MERIDIAN

Ross Hilliard was in Meridian visiting friends a few days ago.

C. E. Watts was a visitor at the home of James McGill Saturday.

J. Victor Anderson has bought a bunch of sheep, having disposed of a number of his dairy cows.

Mr. and Mrs. A. B. Donaldson of Barlow were visitors Sunday at the home of Mr. and Mrs. Frank Albee.

Mrs. T. A. Campau has returned

from Portland where she was in the hospital for nearly three weeks.

Among the Meridian people in Portland Saturday were Albert Pratt, Carl Potwin, and Harvey Yoder.

Mat Ban recently purchased a new horse in Portland, Albert has purchased a new Republic one and a half ton truck.

Fred Yohan is building a new silo, and is excavating for same—going to have a silo in the earth instead of on top.

Harvey Yoder has his onion crop under cover. C. E. Watts, Christ Trost, Willie Trost and Frank

Bradbury were helping him.

Carl Hilton of Needy was here Friday and Saturday with his ensilage cutter, filling silos for C. C. Oldfield and Chris Trost.

George Watts, who has been at Cove Orchard for several months, has been visiting her brother here several days, but has now gone to Portland to look up a job for the winter.

John Bradbury and family who have been visiting at the Pratt home have returned to Toledo, Lincoln county where they have purchased a farm, not far from the farm they sold there a few weeks ago.

AURORA, OREGON

There was a day when any sort of a blacksmith printer could set up shop with a keg of type, a cider press, and a pail of lamp black—and do "job printing." With headquarters in a saloon, and his stock of paper in the express office (with charges unpaid), he was long on promise but short on performance. Hence his business career was brief. Many a business man has had some bitter experiences with such printers.
