Even Robert N. Stanfield can not refrain from announcing in his statement of candidacy for the United States Senate, "I am a native son of Oregon." There may be plenty of good reasons why he should be sent to Washington as a member of the "millionaire's club" but the circumstance that made him an Oregonian is not one of them. In the past Oregon has been accused of being more partial to Missourians than to Oregonians.

For State Treasurer we have quite an assortment to choose from. Senator E. D. Cusick, a successful business man and banker of Albany has entered the race for the republican nomination, also Wm. Adams, City Treasurer of Portland and O. M. Plummer of that city, are ambitious to succeed Thos. Kay the present incumbent. Ben West our county assessor has been favorably mentioned for the place but evidently is taking the matter under consideration. T. F. Ryan who holds a lucrative job in the Treasurer's office is carrying on a gum-shoe campaign with the assistance of his Boss and the Weight & Measure Department to get things thoroughly organized before springing his candidacy for Treasurer. These shrewd and crafty politicians of the old school no doubt realize that they have a man's job putting it over this time. Anyway it will require a large investment in postage stamps and overhead expense, to land Mr. Ryan on the Board of Control.—Tribune.

Before long we expect to hear that Gov. Withycombe has reluctantly yielded to the vociferous demand of the vox populi to enter the race for a second term. Thus far he has kept us in fearful suspense. Other aspirants for this office are frequently mentioned with more or less seriousness, and it is generally conceded that the real home-run

FOR RENT—I will rent some of my onion land for cash or share rent, and will give good terms for clearing onion land for the crop.—M. J. Olson, Woodburn, Oregon. 17-2t.

Miss Marie Smith, the primary teacher in the Aurora public school was operated upon at the Portland hospital for appendicitis the first of the week. She is getting along nicely after a successful operation.

IMPATIENCE.

In all evils which admit a remedy impatience should be avoided, because it wastes that time and attention in complaints which if properly applied might remove the cause.—Johnson.

ANNOUNCEMENT

January 15, 1918.
Having requests from all over the county to make the run for State Senator, I hereby announce my candidacy for Senator on the Republican ticket for State Senator, subject to the votes of the voters of Marion County. Having been a resident of this county for 58 years it is not necessary to tell the people about my past record and occupation, for I think they all know it, and that is the platform I am going to run on.
—A. M. LaFOLLETTE.

THOS. F. RYAN

On the Right Side.
"Wonderful mastery you have over these savage animals," said the admiring visitor to the lion tamer. "How do you manage it?"
"Easy enough, sir, if you keep on the right side of them."
"Ah, yes, but what is the right side of them?"
"Well," said the tamer, "I reckon it's the outside."

Bills are out announcing a wrestling match Saturday evening, January 19 at the Odd Fellows hall between John Walkinshaw of Eastern Oregon, and F. V. Epperson of Aurora. Both parties having previously been rendered a decision in two former matches, will no doubt make this an interesting contest.

At Butteville, Miss Esther Nelson, principal of the school, is encouraging her pupils to purchase Thrift-Stamps, by offering a stamp for excellence in school work. Miss Nelson has been very patriotic and enthusiastic in Red Cross work, in Y. M. C. A. aid, and in Liberty Bond matters, and has helped greatly in putting Butteville on the war-aid map.

Mrs. Diana Snyder, the Aurora postmaster, made a convincing talk to the pupils of the Aurora school upon the necessity for thrift, urging them to practice it through the purchase of thrift stamps and war saving stamps, for which she is a Federal Agent as postmaster. Mrs. Snyder has also visited the Union Hill and the Butteville schools on the same mission.

So far from keeping up the traditional strengthening of the cold with the lengthening of the Jan. 1918 has, till now, seemed like a premature spring time. Not only does the grass retain the emerald here of April or May, the rose-bushes are putting out their leaves, the daffodils are showing signs of bursting into bloom and the flowering greinse is gray with crimson flowers. Everywhere we are reminded that the great underground miracle of germination is going on in preparation for the world feeding which must necessarily fall upon our own United States. The almost continuous rain added to the melted snow brought down by the genial warmth from the Cascades, reep the Molalla and its tributaries at flood height. The bridges, however, owing to the substantial repair put upon them in the fall, are holding their own, while the roads, so far, are passable even for autos. The land clearing which usually occupies the interval between the harvest with the fall plowing and the time of spring planting is suspended now by the rain, thus giving more time for social duties and pleasures than can be afforded when the spring or autumn rush is on.

What They Meant.

A Scotch clergyman named Fraser claimed the title and estates of Lord Lovat. He tried on the trial of the case to establish his pedigree by producing an ancestral watch on which were engraved the letters S. F. The claimant alleged that these letters were the initials of his ancestor, the notorious Simon Fraser, Lord Lovat, beheaded in 1747 for supporting the young pretender. The letters, engraved under the regulator, were shown to stand for "Slow, Fast," and the case was laughed out of court.

Velie Values

There is not another car on the American market which embodies so many standard and high-priced features at a low price as the Velie!

TIMKEN! Continental! Remy! Velie!—four of the biggest names in the history of American industries. And the reputation behind each of these names is staked on the Velie Automobile.

TIMKEN AXLES, both front and rear, with extra large Timken Bearings all around. Nothing better can be bought.

CONTINENTAL MOTOR. The Six-cylinder Velie-Continental Motor is admitted to be the masterpiece of all motors ever made by this great corporation.

REMY STARTING, LIGHTING AND IGNITION. The name Remy has stood for the best in ignition and starting and lighting since before the automobile was born!

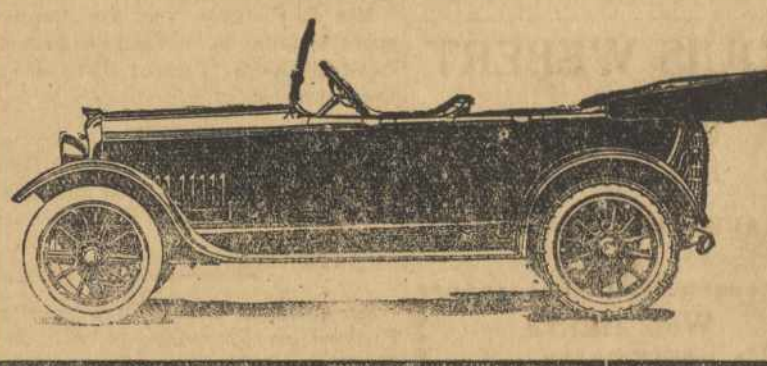

THE VELIE car would be an exceptional car if it excelled in these features alone. No other car at anywhere near the Velie price has them.

BUT THE VELIE is also far more elegant than most cars. Its mirror body finish is twenty coats deep, its lines are long and continuous, its smartly-tilting windshield, gently rounded body sides and plated upholstery make the car far better looking than most sixes.

THE VELIE is comfortable, roomy, easy-riding. You may choose from nine body styles, open and closed. Search far and wide. Study every car on the market. You will not find a value like that of the Velie at—**\$1340.00** for the touring car. F.O.B. Factory
