LUCKY STRIKE CIGARETTE

Until this new "smoke",
was made you could never
have a real Burley tobacco
cigarette. It's the best yet.

IT'S TOASTED

The toasting brings out the
delicious flavor of that fine
old Kentucky Burley. You
never tasted anything so
agreeable—think what
roasting does for peanuts.

CORN WILL WIN DEMOCRACY'S WAR

America's Greatest Cereal Crop
Is Now Moving to
Market.

MAINSTAY IN NATION'S CRISIS.

Surplus Wheat of the United States
Has Been Sent to Famine Threat-
ened Europe.

America's great corn crop, exceed-
ing 3,000,000,000 bushels, will save the
world's food situation, officials of the
United States food administration be-
lieve.

Corn is the nation's best food cereal,
housewives are beginning to realize.
It contains all the elements needed to
keep the body in a state of health and
when used according to the scores of
tried recipes, especially when com-
bined with an added portion of oil or
fat, will sustain life indefinitely. In-
dian warriors in colonial days lived on
parched corn alone for many days at a
time, and at Valley Forge parched
corn was at times the sole ration of
the Continental soldiers.

Owing to transportation difficulties
caused by the war the corn crop moved
more slowly to market this year than
ever before. Now, however, the cereal
is reaching the millers and consumers.

Today there are approximately 30
bushels of corn for every American.
This quantity is greater by five bush-
els than in former years.

Corn has become the nation's main-
stay in the crisis of war.

Just as this cereal saved the first
American colonists from famine on
many occasions, just as it served as a
staple food during the War of the Rev-
olution and during the Civil War, King
Corn has again come to the front in
the nation's battle with autocracy.

Corn meal is finding greatly increas-
ed use in the making of ordinary white
bread. Hundreds of housewives and
many of the larger bakers are mixing
20 per cent. corn meal with wheat
flour to make leavened bread. This
kind of a mixture is worked and baked
in the same recipes and with the same
methods that apply to straight wheat
bread.

Corn bread—using corn meal entire-
ly—is gaining a greater popularity
than ever before. Housewives are
coming to realize that every pound of
wheat saved in America means a pound
of wheat released for shipment to the
nations with which America is associ-
ated in the war.

There are a score of corn products
that today possess unusual importance
for Americans. Corn syrup for sweet-
ening corn cakes and buckwheat cakes
and for use in the kitchen instead of
granulated sugar is one of the leading
products made from corn.

Corn oil, excellent for frying and for
every other purpose filled by salad oils,
is appearing on the market in large
quantities. It comes from the germ of
the corn.

Red Rice.
In Senegal red rice grows wild. The
fields in which it grows are inundated
regularly by the Senegal or by its af-
fluents, and in measure as the tide rises
the rice plant rises above the flood.
The grain is very red and very dry and
hard. It swells in the water and as it
swells loses some of its rich color. It
is very nourishing and requires no cul-
tivation.
