War Time Dishes.

A two-pound cut of short ribs cooked in a kettle as stew with a bunch of carrots put around it while cooking and about twenty minutes before meal drop in a few potatoes to cook, the meat seasons and flavors the carrot and the carrots sweeten the meat. The broth may be saved and used for soup, adding an onion, a tablespoonful of rice and egg noodles or any vegetables left over from a previous meal. Cut up a tablespoonful of parsley in the soup just before serving.

Bread Crumb Bread.

Take two pounds of left over bread, crusts, or rolls, soaked well in plenty of water then squeeze out and pass the mixture through a sieve to make it fine grained, add two tablespoonfuls of molasses, a half teaspoonful of salt, and a half cupful of home made yeast, knead in flour until well mixed, let rise, mold into loaves and bake.

Save sugar in cooking rhubarb, cranberries by adding the sugar after the cooking and using a little corn starch for thickening, cook well after adding the corn starch.

Save all fats, the reason they are so scarce and so necessary is that explosives are made of glycerine and glycerin is made of fats.

Save on butter, by using oleomargarine or any vegetable butter.

Nellie Maxwell

MACKSBURG.

Joe Gibson has bought the building formerly occupied by Geo. Sullivan as a store, and will take possession of the premises very soon.

A meeting to promote sale of the War Certificates was held in the Eby school house on the evening of Saturday, February 16th. Some stirring speeches were made resulting in the subscription to a creditable number of the Certificates. The youngest purchaser was George Hepler who thus set an example of patriotic thrift. It is to be hoped may be followed by many other boys of his age.

No one can forecast the influence their investment may exert over a boy's career. Surely self-respect—that most potent factor in shaping the destiny of the young—can in no way be diminished by the thought that he is a stockholder in the great Bank of the United States. His patriotism must receive added fervor from the reflection that he is helping his country to win the greatest war that history records. Habits of thrift will take shape in the desire to increase his account. Harmful amusements will be shunned for the depletion they make in his savings and the consciousness that he is doing his part in the struggle as truly as if he were in the military service will tend to broaden his views and elevate his purpose in life. When the war is ended and the great army of the nation's workers is called into action, what more likely than the selection of youthful workers will be from the ranks of the young patriots who did their part in upholding their country's finances while her struggle was on?

Far larger is the sum of money that must come into the hands of the rising generation now, than ever heretofore. With such numbers of our men at the front and with so many new spheres for women, much work must be left to the boys and girls.

In 1923, when these certificates mature, each of these young investors becomes a capitalist on a scale greater or smaller as he chooses for himself and immeasurably better will his capital be for him than if he had inherited it without effort of his own.

The great problem of world-feeding has taken possession of all the children large enough to do garden work. Not a rod of ground that can be planted will be allowed to go to waste. In pursuance of this, the boys are waging warfare on those subterranean malefactors, gophers, gray diggers and moles. Fur dealers are offering generous prices for the skin of the finer furbearers, thus giving additional inducement for their capture.

A second meeting in the interest of the War Certificates was held in the Mennonite Chapel on Sunday afternoon. August Rothenberg was the principal speaker. Considerable interest was awakened which will no doubt result in increased sale of the certificates.
