The Reveille

Bret Harte, 1861

Hark! I hear the tramp of thousands
And of armed men and hun;
Lo! a nation's hosts have gathered
Round the quick alarming drum—
Saying, 'Come
Freeman, come!
Ere your heritage be wasted' said the quick alarming drum.

'Let me of my heart take council;
War is not of life the sum;
Who shall stay and reap the harvest
When the autumn days shall come?'"
But the drum
Echoed, "Come!
Death shall reap the braver harvest", said the solemn sounding drum.

"But when won the coming battle,
What of profit springs therefrom?
What if conquest, subjugation,
Even greater ills become?"
But the drum
Answered, "Come!
You must do the sum to prove it," said the Yankee-answering drum.

"What if, 'mid the cannon's thunder
Whistling shot and bursting bomb,
When my brothers fall around me,
Should my heart grow cold and numb?"
But the drum
Answered, "Come!
Better there in death united than in life a recreant—come!"

Thus they answered—hoping, fearing,
Some in faith, and doubting some,
Till a trumpet voice proclaiming
Said, "My chosen people, come!"
Then the drum
Lo! was dumb,
For the great heart of the Nation, throbbing, answered, "Lord, we come!"

Independence is another town where the school board are encountering difficulty in securing a principal for their high school. It is said that the same conditions prevail in 40 or 50 towns in Oregon, and that there will be a concerted effort to induce the legislature to repeal the law which allows a teacher to resign, up to 30 days previous of the opening of school, but which does not allow the school boards to break a contract at any time except for cause.

Mr. and Mrs. Harry Bair of Canby have returned from a trip to Montana, where they visited the Glacier National Park. While bowling along the good road between Oregon City and Portland Friday night with a speedometer working just a little over-time, Mr. Bair encountered speed-cop Meads who requested him to appear in court to explain the 35 mile clip his car was making. O. M. Masey, E. Erickson, L. R. Smith, and C. H. Schilling, all of Portland were also driving to fast.

E. H. Fry has begun suit at Oregon City to collect \$595 on a judgment against Mat Wattawa, who claimed to be insolvent. Wattawa is the man who sold the old George Will farm on the Pacific Highway to E. E. Bradt. The complaint against Wattawa alleged that a note and mortgage for \$11,000 made by Mr. Bradt in favor of Wattawa has been assigned to the latter's daughter Pauline Stager with the express intention of defrauding Fry. The court is asked to decree the assignment of the note and mortgage invalid and to have the yearly payment of \$1000 on same turned over to the clerk of the court so that execution can be made upon it to satisfy Fry's judgment against Wattawa.

MILL READY FOR BUSINESS

Swan's Mill at Champog will be ready Monday, Aug. 5, to take in wheat and to do custom grinding on and after that date. 21-2tp.

HOP NOTES

Practically all hop contracts now contain a "prohibition clause", which provide that the agreement shall be null and void in case prohibition becomes effective. Should congress pass a prohibition law, it would annul practically all hop contracts.

When growers are undecided whether or not to pick their hops next month the announcement of Lane county contracts at 20c to 22c for the 1918 crops sounds almost too good to be true. Many growers regard it as "propaganda" to induce them to harvest the crop.

Business in hops is so completely upset that neither growers nor dealers can place themselves. There is practically no market. Prices quoted are purely nominal. The estimated crop of America is \$25,000 bales. The normal consumption is 250,000 bales, but congression action may reduce it to nothing. Hence the predicament in which growers, dealers and brewers find themselves.

DONALD PARAGRAPHS

Mrs. C. J. Espy and children have been spending a few days in Portland with relatives.

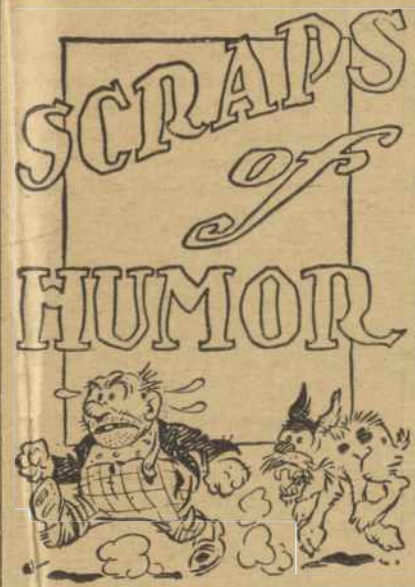

Ben Quinn has sold his business to the M. W. Johnson Co. and has gone to Portland where he has a position.

Williams Bros., were the first to thresh their grain in this vicinity. The A. E. Feller thresher began work there.

Mrs. M. W. Johnson has returned from a 10-day trip to South Bend and Ocean Park. Many people are spending their vacation at the Washington Beaches.

The Donald cheese factory has closed again for the present. The falling off in milk production has greatly reduced the amount available for the factories all over the state.

Mrs. Jesse Mays and children of Hillsboro have been the guests of Mrs. Jess Johnston several days. Mrs. Mays will visit relatives near Eugene before returning home. She is engaged in teaching near Hillsboro.

One Reason.

"I make it a rule," declared a friend of ours, yesterday, "never to spend a cent that I don't record, and to practice the strictest economy both in my home and in my office."
"Is this war conservation," we asked, "or did you always economize that way?"
"No, I didn't always economize," he answered. "Of course not. If I had always done so, I wouldn't have to do it now. Silly question!"

The Point of Pain.

Three-year-old Sydney had the measles, and was a real sick little boy. His anxious grandmother bent over him and asked sympathetically:
"Can't you tell grandmamma where you feel bad?"
Without a moment's hesitation little Sydney answered:
"Right here in bed."

Domestic Diplomacy.

"Have you any objection to my marrying your daughter?"
"No, sir," replied Mr. Cumrox. "I'm not saying a word. I know mother and the girls. If I let them find out that I don't approve of you, they'll make Gladys accept you just to defy my authority."

36 Farmers wrote this Advertisement for PLYMOUTH TWINE

FOR over twenty years I have been a user of Plymouth Twine. When I ran out of Plymouth I used other twine. This gave more or less trouble, but I have always found Plymouth Twine of uniform thickness. In the thousands of pounds I have used I have never found a poor ball. It works equally well in a corn or wheat binder. Plymouth Twine is free from knots and snarls. It stands up in the twine ball until all used up. It never gets tangled. It will bind more straw per pound than other twine. It is the best in the long run. The most economical twine the farmer can use.
36 TWINE USERS.

EVERY statement in this advertisement was taken from letters written by actual users of Plymouth Twine—by men who are up against the same difficulties that you meet. They find that Plymouth helps them. It will help you.
