Entered as second class matter March 28, 1911, at the postoffice at Aurora Oregon, under the Act of March 3, 1879.

I pledge allegiance to my flag and the republic for which it stands, one Nation, indivisible, with liberty and justice to all.

In twenty years the Philippines, under American government, has made wonderful progress—politically, educationally and economically. Two million natives now speak English, 700,000 children are attending the public schools where only English is taught. The government there operates the railways at a profit of 1,000,000 pesos a year more than under private ownership. The government has built 7,000 miles of the finest roads in the world, Philippine provincial governments are about to take over and operate the coal mines, and Philippine cities are assuming control of the street railways, gas, and electric plants. The Insular government has operated at Manila for years the biggest ice plant in the world. The telegraph and telephone lines have been owned and operated by the government ever since American occupation. A magnificent system of government docks has been constructed at Manila, Cebu and Ilo-Ilo and other ports. It is true that the Filipinos had little part in these activities up to five or six years ago and even now are either largely under American supervision or are carrying out American-made plans. Yet the successful and efficient operation of the vast and varied enterprises at a profit form a striking contrast with our own highly unsatisfactory government control of the railroads, telegraphs, cables and telephones.

The proposed Roosevelt Highway along the Oregon coast will open up an almost virgin field for business, home and employment opportunities. Oregon needs more money and more men to develop her natural resources. But we must not expect either to come uninvited and without inducement to do this developing for us. The Coast section is a large, rich but undeveloped portion of Oregon. It is cut off from the interior by the Coast range which has only four or five available passes. Through these passes the Highway commission has already planned roads to connect the coast with the Willamette, Umpqua, and Rogue River Valleys. But without the north and south road (the Roosevelt Highway), the whole coast territory cannot be made accessible nor can it be developed into the great, rich and populous section it should become during the next decade or two. With the building of the Roosevelt Highway the interior valleys—Willamette, Umpqua and Rogue River—will benefit marvelously. Such a Highway, together with those already laid out, will put every interior community in close touch with the Pacific and its great present and future harbors.

May 4 is "Employment Sunday" and practically every church in America has promised to unite in an effort to assist the U. S. Employment service in securing work for returning soldiers, sailors and war workers. On that day clergymen and special speakers will urge employers to keep all employment openings listed with the nearest U. S. Employment Service office. No subject is of more importance today, throughout the nation, than that of employment and industrial reconstruction. "In the day of victory we can make no better offering than that of service to the men and women who have won the victory."

The level of prices paid producers of the United States for the principal crops increased 5 1/2 per cent during the month of March. But on April 1 the index figure of prices was 6 per cent lower than April 1918, though still 20 per cent higher than April 1, 1917, and 70 per cent higher than the average for the past 10 years.
