NOTICE

Owing to changes being made in the Highway between Aurora and Canby, we are obliged to move a number of our electric light poles. This will necessitate shutting off the light and power for short intervals at this end of the system. We shall make the time of shutting off the light and power as short as possible each day, but it will require several days to do the work. Hence patrons should be patient, and the company will expedite matters as much as possible.—Molalla Electric Company.

In the Interest of Church-Going

A man by attending church draws with him his friends and his children, gives new courage to those doing the church work, and has that satisfaction which comes to a man when he does his duty.

WHAT "THEY SAY" AROUND BUTTEVILLE AS HEARD BY SCRIPSI

That Riley Scheurer lost \$600.00 last week by not buying ten thousand grain sacks.

That L. L. Sloper, the genial clericus of the Butteville Farmers' Fire Relief Association, is an expert on the purity of well-water.

That George Rosich—he of musical chicken fame—imagines that he has received a call to visit Europe on certain purely personal matters and that, being a bachelor, he may heed the call.

That, as in other parts of the State, now that threshing is under way, the usual class of candidates well qualified for admission to the "Ananias Club" is coming forward with wonderful stories of a great yield of grain.

That Henry Tautfest firmly believes that an automobile tire has a strong resemblance to a chicken, in that it finally comes home to roost, or rather, to run.

That Randolph Woolworth, President of the Butteville Chameleon Club, is preparing to set the Club in action as soon as the hot season has passed and that he has an entertaining program for the entire Fall and Winter. Should an extra session of the Oregon Legislature be held in the near future, Mr. Woolworth proposes to be on the scenes in the interest of his Club.

That Martin Dell Yergen, one of the few remaining eligibles of the Butteville Bachelor Club, showed symptoms of breaking into poetry while driving his self-binder in the harvest field one day last week; at least he was heard singing in a fine tenor voice the following stanzas—all impromptu:

"With cautious steps as we tread our way through

This intricate world as other folks do, May we always on our journey be able to view

The benevolent face of a dollar or two.

Would you read yourself out of the bachelor crew

And the hand of a pretty female pursue? You must always be ready the hand-some to do

Although it may cost you a dollar or two.

Love's arrows are tipped with a dollar or two

And attractions are gained with a dollar or two.

The best aid that you meet in advancing your suit

Is the eloquent chunk of a dollar or two."

NAME MEANS WHITE ISLAND

Probable Explanation of Why Island of Great Britain Has Been Called "Albion."

"Albion" is the oldest name by which the island of Great Britain was known to the Greeks and Romans. Great Britain and Ireland were known by the general appellation of the Britannic Islands, while the former was designated by that particular name of Albion or Alwion, and the latter by that of Ierne, Iouernia or Erin. Caesar does not use the word Albion; his name for England was Britannia. Pliny says: "The name of the island was 'Albion,' the whole set of islands being called Britannic." The word "Albion" is still the only name by which the Gaels of Scotland designate that country; and the word signifies in the Gaelic language, white or fair island. The word "alb" itself is not now in use in Gaelic, but is probably the same root that we find in the Latin adjective "al-bus," and in the word "Alps." The name of Albion was probably given to England by the Gaels of the opposite coast, who could not fall to be struck by the chalky cliffs that characterized the nearest part of Kent. Some authors derive it from Albion, son of Neptune by Abhrilite, who according to the fabulous story went into Britain, established a kingdom and first introduced astrology and the art of building ships. He was killed at the mouth of the Rhone with stones thrown by Jupiter, because he opposed the passage of Hercules.

Cruelty in Training Birds.

Performing birds are often taught by starvation. How many are aware that the pretty doves that fly when released to the bespangled artists, and form themselves into geometrical patterns on her head and outstretched arms, are often the sole survivors of hundreds which have been starved and then only fed when they perched upon an exact spot on the owner's arms.

HUBBARD NOTES

Mrs. A. J. Moore of Portland is visiting in Hubbard. On Wednesday Mrs. Moore and Mrs. Coyle spent the day with friends at Aurora.

A four and a half pound boy was born to Mr. and Mrs. J. A. Fosmark, of Yoder, Wednesday night at 9:30. Both doing well at this time.

It is understood that Mr. and Mrs. Percy Calvert are soon to return to Hubbard and have taken the living rooms over Trout's Confectionery.

Dr. deLespinasse and family have spent the past two weeks somewhere in the shade and along fishing streams, but announces he will be in his office to meet his patrons next Tuesday, August 5.

Guy Weaver is substituting at the Hubbard State Bank during the absence of Miss Ruth Calvert. Later Mr. Beckman expects to be gone on a trip East and Mr. Weaver will officiate in his absence.

Nineteen Guernseys arrived by express last Friday, as the result of the trip east of Messrs O. Voget and J. T. Whalley. The gentlemen went as far as Massachusetts in their quest, though most of the stock was bought in the middle states. The cows were driven to the Voget place.

Cree Wonderful Canoeists.

"The Ojibway, the Cree and the Montagnais are the most wonderful canoeists in the world," says S. E. Sangster, writing of "The Woods Indian" in Boys' Life. "They possess a sixth sense in rapid-running and if they say 'run it' you can safely lay a bet at odds that they will run it and come through dry—even through water the mere glimpse of which makes your hair stand up and sends chills chasing up and down your spine."
