"Here's a Friendly Tip" says the Good Judge

Men who know tobacco, chew the best without it costing them any more. They take a little chew and it's amazing how the good taste stays in a rich, high grade chewing tobacco. For lasting tobacco satisfaction, there's nothing like a small chew of that rich-tasting tobacco.

Judge Bushey has announced that the Marion county paving plants will be set up next spring, one each at Mt. Angel, Salem and Aumsville. These places were chosen as they are the central points in the county paving sections. The cost of hauling will be less with the plants so located. In spite of the high cost of labor and materials, the county paving work done this season has fallen below \$15,000 per mile.

Nichrome Most Resistant of Metals.

Nichrome, a metal that is being used extensively for wires in electric heaters, is an alloy of nickel and chromium. It is now known that it can be cast, so crucibles and other utensils that must resist very high temperatures are being made of it. Its fusion point is 1,500 degrees Centigrade. With a wire of nichrome heated by an electric current it is possible to cut the heaviest and most resistant of chemical glasses as if they were of soap.

I'm Giving Them Both a Start

By C. C. BROWN

My little lad plays all the live-long day.
No pausing for rest needs he;
And out on the air peals his laughter gay
As he chortles with childish glee.

My little lass plays, too, from morn till night
Although not so full of noise;
But her face is beaming with smiles as bright
As she plays with her dolls and toys.

It seems only right, little lad and lass,
That your Daddy should do his part.
And so as the days of your childhood pass,
I'm giving you both a start.

The time will come when this grim old world
Will turn you from play to work;
Against life's real problems you will be hurled
With many a jolt and jerk.

Now you could spend each nickel and dime
For pleasure, and that is well;
Alas, all too soon will come the time
You must face old H. C. L.

So now, little lass, and now, little lad,
Your Daddy's saving for you.
And it's with a feeling, half glad, half sad,
He knows you must soon save too.

For the going is rough on the road of life,
And nothing to you I gave
Would help you to win in the bitter strife
Unless you, too, learn to save.

So Daddy is saving and in your name
War Savings Stamps is buying,
And when you are older you'll find the game
Of saving is well worth trying.

It seems only right, little lad and lass,
That your Daddy should do his part,
And so as the days of your childhood pass,
I'm giving you both a start.

Begin saving today.

Cornerstones.
It has always been customary to place the cornerstone at the northeast corner of a building, and this is the practice today whenever possible. The cornerstones of municipal buildings are commonly receptacles for copies of current newspapers and historical documents.
