### "BUY NOW" IS HELD SLOGAN TO BILK PUBLIC

Helena, Mont.—Denouncing what it terms misleading "buy now propaganda" and affirming that investigations have disclosed excessive profits, the Montana Trade Commission today made public a detailed statement showing percentage of profit charged in the state.

The commission finds the margins of gross profit range from 34 per cent on groceries to 67 per cent on women's clothing and shoes, 59 per cent on men's clothing and shoes, 62 per cent on dry goods, 60 per cent on children's apparel and 62 per cent on bedding.

The commission disputes the widely circulated assertions that prices are certain to rise. "This propaganda should be ignored," it says, "as prices are bound to decline."

Hold on to your dollars. Put them in War Savings Stamps now. They will be worth more later.
