## Views Upon Americanization

By GEORGE G. BINGHAM  
Judge of the Circuit Court

My views, briefly expressed, are that every foreign born resident should within five years if he desires to remain in the United States, qualify himself for citizenship. This does not necessarily mean that he shall attempt to become a citizen, but that he familiarize himself with the principles of Americanism. Briefly, he should learn to speak and read the English language, have a knowledge of the grievances against Great Britain which brought about the Revolutionary War, should read and understand the Declaration of Independence and the Constitution of the United States so as to have a knowledge of the principles of our government, self government and community life; should know the part people are entitled to exercise respecting the selecting of our officers and the individual's responsibility for good government.

We have today the most just and liberal government on the face of the earth. My firm belief is that foreign born persons who are making trouble do not understand the privileges they are entitled to, but if they do they are undesirable and should be deported. The average alien, I take it, is honest, and where he is making trouble it is because he is misled by crafty and designing persons. This can be largely overcome by compulsory education.

If after a knowledge of our free institutions a person wants to destroy them he should not be permitted to remain. If the American people are satisfied, the foreign born should let us alone. All adult aliens should have the advantage of a public education; the speaking of a foreign language in the home should be discouraged, the wife should be treated as an equal, children should be required to attend school and be taught to obey those in legal authority.

Every alien should take and read at least one local English printed newspaper, for that keeps him informed of current events, should be a contributor to some religious society, for while others MAY BE, churchmen ARE ALWAYS good citizens.

## WASTED LIVES

Tuberculosis kills producers—chiefly men and women between the ages of 15 and 45.

It claims workers—active men and women in the homes, the office and the shop.

It causes 150,000 deaths in the United States every year.

It costs the United States in economic waste alone about \$500,000,000 annually.

More than 1,000,000 persons in this country are suffering from active tuberculosis right now.

It menaces every community, every home and every individual.

And yet tuberculosis is curable and preventable.

It is spread largely by ignorance, carelessness and neglect.

The National Tuberculosis Association and its 1000 affiliated state and local organizations wage a continuous, warring war on tuberculosis.

The work of these organizations is financed chiefly by the sale of Red Cross Christmas Seals.

Drive the menace of tuberculosis from your door. Buy and use Red Cross Christmas Seals!

Only by temporarily sacrificing our desires for luxuries, and by saving wealth and money to stimulate production of necessities, can prices be brought back to something like normal. Stability of labor, stability of business, and even the stability of government itself rests upon the willingness of every person in this country to work and to save. This is every man's own personal problem, and it is the duty of every man, woman and child in America to do their best in solving it.

## IMMIGRATION AND ILLITERACY

Oregon has 120,000 people of foreign birth. Every sixth person was born outside America. Of these 17,000 are unable to speak English and 8,000 cannot read or write in any language. Portland has 50,000 foreign born. Over 5000 of these speak no English. Big foreign settlements exist in 10 counties. The necessity for "Americanization" is plain.

Americanism means "getting together". Americanism is in the interest of the foreigner as well as the country. During the last ten years only a small part of the immigrants who come to America have become citizens. They remain aliens subject to any sort of propaganda that comes along. The vital interests of the country demand a policy that will banish illiteracy from every community, and will require the naturalization of every immigrant who makes his home here.

## HABIT

"Ben Franklin is our great example of thrift. He wrote more on it and wrote it better than any other man we know. He began practicing thrift when he was 12 years of age, and he practiced it and wrote on it all his life. He became the richest man in America in his day, richest not only in money but in health, brains, sanity, good cheer, influence. He was a scientist, a business man, a linguist, a diplomat and a philosopher. He always paid his way. He founded the University of Pennsylvania, founded the first public library in America, organized an insurance company, pretty nearly captured the lightnings, invented spectacles, manufactured the first cook stove, went to France and borrowed money on which Washington fought the War of the Revolution; and the basis of all the strength and excellence of Benjamin Franklin lay in the fact that very early in life he acquired the habit of thrift.

"Thrift is a habit. A habit is a thing you do unconsciously or automatically without thought. We are ruled by our habits. When habits are young they are like lion cubs, soft, fluffy, funny, frolicsome little animals. They grow day by day. Eventually they rule you. Choose ye this day the habit ye would have rule over you. The habit of thrift is simple; the habit which dictates that you shall earn more than you spend. In other words, thrift is the habit that provides that you spend less than you earn. Take your choice."—Elbert Hubbard. Start now. Buy W. S. S.

In one year 17,011 adults died in New York county. Of these, 23,051, or 83.3 per cent, left no estate at all. Save.

Of the widows in the United States over 65 years of age, 31 per cent pass without many of the necessities of life, 50 per cent without the comforts of life. Save.
