The municipal election is safely over and the city is saved for another year. The "administration" was re-elected.

"Bath-house Will" Purdy, who made such a stir in Oregon Democratic circles at the San Francisco convention, is now running a bath house in Salem. Prepared to wash dirty political linen?

Many country newspapers of Eastern Washington have fixed their subscription price at \$4.00 per year. Nearly all of them were \$1.00 per year before the war. The subscription price of practically all country newspapers is about one-fourth the cost of production. Other sources of income cover the remaining cost.

And you will find how much more satisfaction a little of this Real Tobacco gives you than you ever got from a big chew of the ordinary kind.

The good, rich, real tobacco taste lasts so long you don't need a fresh chew nearly as often. So it costs you less.

HEALTH CENTERS AID ALL COMMUNITY LIFE

Home Service Work Broadens to Include Civilian Families.

By DR. J. E. CRICHTON
Manager Northwestern Division
American Red Cross

An integral part of the great health program of the American Red Cross, undertaken after the suspension of many of the war activities of the organization, is the establishment of Health Centers—which now are being installed in many communities throughout the northwest. It is a movement of compelling interest to the citizens of this part of the country.

The health center as organized by the Red Cross is proving the greatest preventive medicine known, as well as protection of great value in times of widespread illness or epidemic. From health centers radiate all kinds of healthful influences from the giving of proper advice and the furnishing of competent nursing, medical and surgical aid, to the inauguration of many forms of beneficial exercises such as community singing, athletics and outdoor games. From health centers go the visiting nurses. There are held the teaching classes for home nursing, children's clinics and proper welfare work.

The Red Cross says that no longer shall curable physical deformities curse the lives of our children. It believes the time is past when tuberculosis should be allowed without hindrance to fasten itself upon the tender bodies of our little ones. It

believes that through health centers established in every considerable community throughout the United States, health can be safeguarded and therefrom greater happiness be brought to our people.

Ignorance of diseases, ignorance as to what are the best means to pursue in combatting them, ignorance as to the standing and competency of certain medical men—these today are responsible for a vast number of deaths in the world. Quacks prey upon our people with their glaring and lying advertisements and in hundreds of thousands of cases individuals absolutely deceived by their pretensions pass beyond the days when their infirmities might be cured. For these perils the Red Cross health center forms a safeguard.

The health centers being established become the people's clubs, with memberships designed to reach vast numbers of the population since membership costs but \$1 a year—the annual Red Cross dues.

Another phase of the peace-time program of the organization which rapidly is becoming of paramount value in the northwest is comprised in the Home Service activities. Designed originally for the benefit solely of disabled service men and their families, it has grown to occupy a far broader field. Red Cross welfare workers look to the interests of former soldiers and sailors in hospitals and schools; maintain personal contact with the disabled who are at home. Home Service forms the connecting link between the disabled man in hospital or school and his family.

But Home Service has grown beyond this. In nearly 40 of the 106 chapters of the Northwestern Division experienced social workers are employed, and the service is being extended to civilian families. In some chapters information stations for the benefit of the general public have been established. In Raymond, Washington, the Home Service department maintains an office close to the railway stations and hotels where any day may be seen the visitor inquiring for the residence of a friend, or the genial traveling man asking the location of the business house upon which he wants to call.

Social Service extends down through the chapters to the branches and auxiliaries. Several Northwestern chapters have branches which maintain local Home Service operatives, their activities being financed through small revolving funds from the chapter treasuries.

Fifty cents of every dollar of membership fees stays in the community in which it has been contributed. It is that fifty cents which aids in this important Home Service development.
