ON THE WAY

Our Aims

The Motto, Slogan and favorable policy of the Aurora State Bank is "Service". We believe in service as the source and means by which vigor, vitality and growth may be attained, and as the chief justification for the existence of any business. Our constant aim is to render most efficient, careful service--all the time. Moreover, we pledge ourselves to a policy of progress in the promotion of better conditions, better business, and greater prosperity for this section the coming year.

GREETINGS

The Aurora State Bank joins in the spirit of the Holiday Season and extends its most sincere Christmas Greetings to its Friends and Patrons, both actual and prospective, wishing them good cheer and unbounded success and prosperity throughout the year 1921.

Because of our modern methods, our efficient service, absolute security, our conservative, experienced and successful management, we feel that we are fully justified in soliciting the business of the people of this section. We ask the confidence, the support, and the accounts of the people of this territory, because we know that the service we render our patrons is not surpassed by any banking institution.
