Ignis-Fatuus.

The ignis-fatuus is a pale-bluish flame which appears after sunset floating about two feet above the ground, sometimes remaining fixed and sometimes traveling. Some authorities think it is due to the presence of phosphorated hydrogen gas, others, to the combustion of methane. It is seen most frequently in northern Germany, in the swamps and moorland districts of northwestern England, and in the lowlands of Scotland.

Mother's Cook Book

The things that never happen are often as much realities to us in their effects as those that are accomplished.—David Copperfield.
"The price of the milk of human kindness has not been advanced. It is still free, but not always to be had."
FOOD FOR THE FAMILY.

SOUP WHICH IS NOT USUAL BUT VERY GOOD

may be prepared as follows: Cook turkey giblets until tender in a small amount of water. Chop them and force through a coarse sieve. Thicken the liquor in which the giblets were cooked, season, add cream, the strained giblets and brown stock to make up the quantity desired.

Pumpkin Pie in Cups.

For those who like the filling but cannot eat pastry fill custard cups with the pumpkin mixture, put a rim of pastry around the top of the cup and bake as usual.

Cranberry Ice.

Cook the cranberries as for sauce, strain them and add an equal amount of sugar sirup and freeze. Make the sugar sirup by boiling two cupfuls of sugar with a half cupful of water until thick; when cool use. Serve when frozen in tall glasses.

Chestnut Stuffing.

Blanch a pound of Italian chestnuts, boil until tender and put through a ricer. Add one cup of bread crumbs, one-half cupful of shortening, one tablespoonful and a half of poultry seasoning, one-half cupful of raisins, with salt, pepper, celery salt, sugar and cayenne to taste.

Tomato Jelly with Celery Salad.

Cook two and one-half cupfuls of canned tomatoes, two slices of onion, three cloves, a stalk of celery, three sprays of parsley, a small bit of bay leaf 15 minutes. Strain and add one-fourth of a package of gelatin softened in one-fourth of a cupful of water; stir until the gelatin is dissolved then turn into a border mold. When ready to serve dip in tepid water, wipe, turn in the hand to make sure that the jelly is free from the mold and unmold on a chilled dish. Fill the center with tender bits of celery mixed with mayonnaise.

Eggs Marchesa.

Butter muffin tins and set upon the range to warm. In the bottom of each put a teaspoonful of soft bread crumbs, add a dessert spoonful of milk, then an egg carefully broken in, season with salt, pepper and paprika. Over this pour a dessert spoon of milk and drop a small lump of butter, a few more bread crumbs and a little grated cheese—parmesan is good because always grated—a mixture of any cheese may be used. Bake in a moderate oven ten minutes. They should be a golden brown and when a knife is run around the edge and they are turned out on a hot platter they look like brown puff balls and melt in one's mouth.

THE GIRL ON THE JOB

How to Succeed—How to Get Ahead—How to Make Good
By JESSIE ROBERTS
ADVERTISING BUREAUS

WOMEN are making successful ventures in various advertising businesses.

One of the methods that have proved to work well is that of organizing an advertising bureau. This is the way one successful firm manages: There are three young women in the firm, who have incorporated under a certain firm name. One of these is the business manager. The second is the seeker after necessary material, whether data or photographs. She hunts up the material required by a writer for a certain story, the illustrations needed to go with such an article, she makes sure of important details that are to be used in press stories. The third partner finds the people who are to do the actual work, the writing, the illustrating. She plans work ahead, sees those who want publicity, arranges interviews, and attends to all the social side of the business. One of them worked for a year as a reporter on a great daily. She learned a lot about publicity there, and how to tell a good story, a news story, when she saw it. The other girls had been employed in business offices. But they had taken these positions simply with a view of getting required training. "I always meant to get into business for myself, and so did my associates," one of them told me. "A girl needs to get into a good office and keep her eyes open and her wits alive, before she tackles something of her own. But I believe that any girl who is intelligent and ambitious, and who is willing to spend a year or two of hard business training, is sure to make good in a business of her own. And she will be much more likely to make real money and to have a chance to make the very best of herself in a business of her own than in any salaried job." But I shouldn't advise any girl who doesn't like hard work to follow such an example, for you don't count hours or effort where it's your own firm. (Copyright.)

WITHIN THE REACH of every woman—health and strength. They're brought to you by Dr. Pierce's Favorite Prescription. Take this medicine, and there's a safe and certain benefit for the chronic weaknesses, derangements and diseases peculiar to women. It will build up, strengthen, and invigorate "run-down" or delicate women. It regulates and assists. At some period in her life, a woman requires a special tonic and nerve.

If you're a tired or afflicted woman turn to "Favorite Prescription" you will find it seldom fails to benefit.

Hard to Estimate One's Powers.

It is just as hard for a man to estimate his own powers, except by performance, as it is for him to estimate those of another. The feeling of power seems to be no guide at all. The world is full of egotistical fools who seem to feel genuinely sure that they were born to high destiny, while many great men can scarcely believe in their own powers, even after they have discovered them.—Exchange.

Pike's Peak Conquered.

July 15, 1820, Dr. Frank James astonished the world by climbing to the top of Pike's peak, 14,109 feet above the sea. In April, 1919, a government war tank attempted to climb the peak, but was blocked by snowdrifts. A month later a caterpillar tractor made the ascent. Thousands of tourists now ascend the peak every year by autos, on foot and by rail.

Ostrich's Feelings Hurt.

The finest ostrich feathers are the forty or more white ones which come off the wings. The birds seem to feel very keenly the disgrace of having their feathers plucked. They go about hanging their heads and showing chagrin very plainly. A more bedraggled forlorn-looking creature than the freshly plucked ostrich does not exist.

The Dog Watch.

"Dog-watch" is a corruption of "dodge-watch." On board ship there are two sorts of watches—the "long-watch" of four hours, and the "dog-watch" of two hours, but, strictly speaking, a watch means four hours. The dog-watches are two short watches, one from 4 to 6 in the morning and the other from 6 to 8 in the evening, introduced to "dodge" the routine, or prevent the same men always keeping watch at the same time.

Prolific Hen Honored.

Some time ago a public funeral was accorded by the villagers of Zofingen, Switzerland, to a hen that died immediately after laying its thousandth egg; and a granite tombstone was afterward erected by them over its grave.

Garfield Tea was your Grandmother's Remedy for every stomach and intestinal ill.

This good old-fashioned herb home remedy for constipation, stomach ills and other derangements of the system so prevalent these days is in even greater favor as a family medicine than in your grandmother's day.—Adv.
