**Change of Ownership**

This is the last issue of the Observer under the present ownership. After this date it passes into the hands of Paul Robinson, of Banks, Oregon, who knows the newspaper business thoroughly. Mr. Robinson is a young and active man who will give this section a good live newspaper.

His efforts at Banks have been of great benefit to that town. Almost single handed he brought about the incorporation of that town, he secured the establishment of a creamery there, he organized a live commercial club, and was largely instrumental in the organization of a union high school district with a fine building at Banks.

The school has been opened just a few months. His record at Banks is evidence enough that Aurora will have a good newspaper with a live wire editor. He will boast Aurora just as strongly as his former home town. He is the kind of man any town needs. Whatever good will the Observer has acquired should pass to the new owner, whose efforts and activity should receive the unanimous support of the people of this vicinity.

The undersigned appreciates the patronage that has been accorded the Observer. Only the opportunity to enter a wider field induces him to sever the ties of business and of friendship that have made life pleasant here the last ten years.

—N. C. WESCOTT.

Peter Tumbledown says it is all bosh about a poor, uneducated boy being able to get to the White House. He says a man has to have a college education before he can be President. Asked how he figured that out he said, "Don't he have to go through the electoral college?" Peter hasn't had enough education to distinguish between a barber college and a school of flying fish.
