The Aurora Observer

Entered as second class matter March 28, 1911, at the postoffice at Aurora, Oregon, under the Act of March 3,1879.

Paul Robinson, Editor and Publisher

The country editor can't strike.

Why is flour so high when wheat is so low? Solve a few of these questions and the strike will take care of itself.

Take a long drive around Portland and adjacent country and note thousands of new buildings going up. Then don't talk hard times.

Another radical wrong- High R. R. officials receive saleries higher than our best government jobs. Cut these saleries 50 percent and money will be left to pay switchmen, firemen, ect,

We don't look for it, but if all railroad empleyes do strike; if all railroads are tied-up and stop running for a week or so; if no passengers, freight or express is carried. If all this takes place as is being threatened by the unions, then the shipper, wholesaler and retail er, big city store and country store alike will learn what service the railroads really give. The heavy auto truck that ruins our pavement will not be depedable. Perhaps the railroads will be appreciated after they stop opporating for a few days.

According to law you must NOT write your name on butter wrappers. Be cautious, go according to law; play safe. Law says butter wraps must be certain kind of paper, printed with regular butter wrapper ink, such as the Observer uses. We print them complete and furnish proper paper at \$1.50 per 100.

THE STORE OF MERIT

The live stock breeders of the East have been working to achieve perfection for nearly a century and they have secured remarkable results, but the pictures rhown above are not animals from the East and their type would not shame the skill of any breeder on earth. They have beautiful conformation, style and quality in every line, and would stand high in any dairy show in the world. One of these animals is the junior Holstein bull calf shown at the Pacific International last year. He came from Hollywood Farm, Hollywood, Washington, and won high honors. The other is a Jersey helfer calf from Iron Mine farm at Oswego, Oregon, also on show at the Pacific International. The quality of dairy animals of all breeds on the Pacific Coast is a source of perpetual

are almost limitless. There are markets both at home and abroad for many times the amount of cheese and butter now made. The difficulty has been largely due to the unprofitable cows. High quality of animals will do away with this.

There is no place east or west, north or south, where one interested in dairy cattle can find so many in one place and select such quality as at the Pacific International at North Portland, Nov. 5-12.

The dairy industry of the Pacific Coast has grown steadily since its in-

The railroad workers who would Phone Tabor 2559 strike, would strike against themselves; strike themselves out of a good job; strike to spend their savings, christmas money and winter dress money. Strike to please a walking delegate or union officers who's wages and "expense" money goes on during the idleness of the members who in many cases are the innocent sufferors. It's certainly a poor time to throw a million more men out of employment. But a fair exchange might be arranged by putting the present unemployed to work and let those clamoring for a lay-off take the park benches for the winter. R., R. boys are well paid as compared to other labor. The strike would win nothing: strikes never win—not even public approval.
