Took 12 Innings For Ball Game.

Oswego, the Portland Cement Co. ball team, came to Aurora last Sunday to cross bats with Aurora boys. It was a long game. A game that in stages was punk, rotten and dragging, and at stages good, exciting and "real ball." The visiting team is fairly good in field work and in "playing together." They are also exceptionally good at chin work. Our boys did some good batting and rotter field work, over-throws etc. and acted like they had been up all night the night before. The seventh inning livened things up some when three or four runs were brought in. At the ninth inning the score was 15-15. Also the 10th and eleventh and part of the 12th inning. They played ball the last three innings and in the 12th the visitors got their inning score. The Aurora battery was exceptionally clever and the Bakers played their own game. Notwithstanding several errors, we believe we can pronounce it a good game. The crowd got considerable "kick" out of it and the ball boys got some practice.

Farm Pointers

SOLUTION OF CABBAGE MAGGOTS

Corrosive sublimate 1 to 1000—that is, 1 ounce to 12 gallons of water—applied at the rate of one-half cup about the base of cabbage, cauliflower and similar plants will give effective control for root maggots. Three applications should be made at 10 day intervals.

DODDER KILLED BY BURNING

Dodder patches in alfalfa fields should be carefully cut out before haymaking time as the mower sickle often carries the dodder to new places in the field. After cutting, the patch may be sprinkled with kerosene and burned, as that is the best way to make sure of the death of the parasites.

TIME FOR 30 DAY SPRAY

Because of the rapid advance of the season since the arrival of warm weather, the 30-day spray for codling moth will be due in the Willamette valley about June 5 to 12. In many instances it will be possible to combine the usual 15-day spray with the 30-day application and save one spraying.

ARSENATE GETS THE SAW-FLY

A spray of arsenate of lead, 2 pounds to 100 gallons, on the foliage of loganberries and raspberries is needed now where saw-flies are prevalent. An angle nozzle is necessary in order to reach the under surfaces of the leaves. To determine if the pest is present before considerable damage results, examine the newer foliage now for small shot like holes in the leaves. A careful examination of such leaves will show a small, light green, spiny, caterpillar, rather hard to detect when young.—O. A. C. Experiment Station,

SUNDAY SERVICE

Rev. Clive M. Saiz of Portland, will occupy the pulpit at Aurora Presbyterian Church this Sunday morning at 11 o'clock.

Aurora Lutheran Church

The open air service last Sunday was very pleasant and enjoyed by young and old. The attendance was very good, the weather couldn't have been better, and Mr. Brunn had arranged everything in first class style. We shall go out again on the first Sunday in July, when the children will give a good program.

Next Sunday the Sunday-school opens at 10 a. m. and the service, which is in German this time, at eleven o'clock. The program for the Luther League at 8 o'clock in the evening is as follows:

1. Geo. Pardy, leader. 2. Question Box: (a) Explain Christ's threefold office. Karl Hoffman. (b) What is Christ's state of humiliation? Otto Lorenz. (c) What is Christ's state of exaltation? Fred Keil. 3. Anthem by the choir. 4. Talk by the pastor: "Christ's Office." A cordial invitation is extended to everybody.

WM. SCHOELER.

ADVERTISERS

We admire the business pep of Oregon City merchants. This week one Oregon City paper carries 16 pages of home advertising in double page ads, and another paper there this week has 8 full pages of ads. They say it is paying them too. It's proven the world over from hamlet to metropolis.

FOR SALE—Fresh Jersey cow. Fred Bochart, Aurora, Rt. 2. 6-8

The public schools of Aurora after dismissing for the summer, held a picnic last Friday.

Gardens, some gardens, are as pretty in Aurora, as you can find in any garden spot in the world. We know of one fine garden that we got in Monday night. The owner was there—in fact he invited us in and watched us to see that we got all the radishes we could carry home. Passing the A. W. Kraus home, Arthur told us to come in and get some of their garden truck, and it was certainly a splendid treat.

ANNUAL SCHOOL MEETING

The Annual school meeting will be held at Aurora school house, June 19, at 1:30 o'clock. At this meeting there is to be elected one director for three year term, one director for one year and a clerk.

Great reduction on all trimmed and untrimmed hats, Celia Goldsmith, Oregon City, Oregon. 6-8

Mr. and Mrs. Jesse Johnston and family, who spent the winter at the Diana Snyder home, have left for their term up in the Big Elk country. Ezra Hurst took Mr. Johnston and the boys over Saturday and Mrs. Johnston and the baby left Sunday by train.

Sunday School Problems.
Bert Fowler, sheriff of Grant county, has a daughter who teaches a class of little children in a Marion Sunday school, relates the Indianapolis News. Recently the young woman told the children the Bible story of Noah and the ark, elaborating as much as she could on the description of the flood and the manner in which the animals made their way into the house of refuge.

After she had finished the story she was amused as well as amazed when a little boy asked: "But, teacher, who guided the thing?"

MAY REDUCE COST OF SILK

Italian Expert Said to Have Perfect Machine That Has Possibilities of Importance.

Silk has always been considered an article of luxury on account of its high cost in comparison with other textile materials, writes United States Commercial Attache H. C. MacLean from Rome. This has been due in large degree to the labor necessary in handling the cocoons and preparing the thread for spinning. Consequently the silk industry has flourished only in countries where cheap labor is available.

After soaking the cocoons in water the thread has always been unreeling by hand, which is a work of great delicacy, but one for which it has not been possible to pay high wages. Thus, while silk weaving in Italy has been making progress the preparation of the raw silk has shown a decline. It is now reported that an Italian silk expert has succeeded in perfecting a machine which will perform the operation of unreeling the thread mechanically. A new company has recently been formed, which has taken over the patents covering the invention and will manufacture the machines.

If the invention succeeds commercially as well as it has in the experiments that have been made it bids fair to revolutionize the silk industry, and, according to the inventor, the cost of silk may be reduced to such an extent that it will be able to compete with cotton and linen.

GOT HUBBY AT A BARGAIN

Most Girls Would Consider Transaction Worth the Expenditure Involved in the Case.

A business man who wanted a book-keeper stated his need in an advertisement. The notice was seen by a young woman who was out of work and who had searched for employment day after day without success. She had just one cent left. This she spent for a postal card, on which she wrote a reply to the advertisement and dropped the card in a street letter box.

Her application impressed the business man favorably, and he wrote to her asking her to call at his office. She did so and secured the position.

Her modesty and worth, no less than her capability, so won her employer that before many months had passed he offered her his heart and hand, and she accepted and became his wife.

"And to think," he said one day during the honeymoon, "that it all came from your spending your last cent for a postal card and mailing it at a street corner!"

"Yes," she replied with a smile and a blush, "I dropped a penny in the slot and got a husband."—Pittsburgh Dispatch.

IMPROVES APPEARANCES

Buildings and homes in Aurora are being "dressed up" and the improvements make a big difference in appearance, as well as the lasting benefits. The Andy Miller new home is nicely painted and the grounds leveled for a lawn; the Elmer Smucker home is improved with new and attractive paint; the Louis Webert home and buildings are all newly painted; the beautiful Zimmerman home is made more beautiful by new paint just spread; the new residence of Albert Ehlen's is going up, foundation being finished this week; the roses, flowers and lawns all over town cause comment for their splendid arrangements, and many more residents announce their intention of painting up as soon as possible.

J. W. Sadler of Aurora, was elected State Committeeman for the Democratic Party.

BASEBALL SUNDAY

Aurora fans are promised a better game Sunday.

Come out and pull for our home team. Get in the game and make it snappy. The much talked of crack team of Tualatin vs. Aurora on Aurora home grounds Sunday, June 11.

Who Remembers "Butter Daisies?"

A government clerk was heard bemoaning those lost dainties of his youth.

"I have eaten all the modern candies," he said. "Yes, sir, all the chocolates, and the milk chocolate, and the fudges, and the nut candies, and the sort with a cherry to jump out at you and all that."

"They are very nice, but none of them approaches the delicious flavor of the old butter daisies. I remember how I used to get a nickel, run to the corner store and invest in a bag of butter daisies."

"Small yellow cones they were, that melted in your mouth, much as the fabled nectar of the gods was supposed to do. No, sir, I haven't tasted a butter daisy in 20 years."—Washington Star.

Service Is Our Slogan
Safety Is Our Watchword

You are not being Fair to your boy

Unless you teach him habits of thrift while he is young.

If you do this, and begin now, he will be assured of a good home in later life, a comfortable old age and an honored place in the community.

A safe, sound, conservative bank like ours is a good place for him to begin.

Bring him in and help him get started today.
