### Beavers and Sundodgers Tussle Homecoming Day

Oregon Agricultural College, Corvallis, October 24.—Beavers vs. Washington University "Sundodgers" is the big bill that will be put on for the college alumni, Oregon newspaper men and other attendants at the homecoming, Saturday, November 3. The Rook-Soph bag rush, varsity "O" procession, cafeteria lunch and annual ball are other events already scheduled.

The Beavers are credited by L. H. Gregory, Oregon sports writer who visited the campus and gave the team the once over, with being unusually strong in the line and very hard to score on. R. B. Rutherford, coach, is putting in hard licks just now to develop a fast, hard-hitting back field. If the raw material develops according to promise the Beavers should have a slight edge on their rivals. All hands agree that it will be a pretty game, well worth going far to see.

Oregon editors have been specially invited by Carl Lodell, manager of student activities, and Sigma Delta Chi, journalistic fraternity, to be guests of the college for the day. At homecoming last year nearly 100 Oregon newspaper writers and publishers gathered to see the sports and look the college over.

Campus roadways have been broadened and improved until it will be possible to handle the crowds with less confusion. Bell field is in good condition now, and both grandstand and much of the bleacher section are rain-proof.

The Waldo co-eds agreed to vacate Waldo hall for the day to provide the alumni and the editors the best place on the campus for cafeteria and friendly chat. Most guests know what it means to eat at Waldo with Miss Sybilla Hawden, director of dormitories, in charge.

Some sixteen Luther Leaguers from Christ Church, Aurora, went to Salem last Sunday to meet with the young people of Rev. Koehler's congregation. The Salem Luther Leaguers entertained the Aurora Luther Leaguers with a splendid program. The topic for discussion was, "The Fruits of the Reformation."

## \$540,731,000 Worth of Livestock

THE remarkable growth of livestock raising in Pacific Northwest [including California] is best exemplified by the astounding figures representing the capital investment of over a HALF-BILLION DOLLARS in dairy and beef cattle, hogs, sheep and horses. Nor does this include the turn-over in production each year.

Seldom, if ever, do varied livestock communities feel the pinch of price or production adversity, as do one-crop or one-stock producing sections. Balanced production, like balanced rations, equalize the good elements and counteract the bad.

Naturally, there is no place more interested in well developed and well sustained agricultural prosperity than the First National Bank of Aurora, and wherever we can give encouragement to and assistance in bettering or balancing production, we are ready and willing.

The center 'round which livestock development is taking place in the West is the Pacific International Live Stock Exposition in Portland, which this year will be held November 3 to 10. This has become the largest show of the kind in America, gathering together the principal breeders and more than 3,800 head of purebred dairy and beef cattle, sheep, hogs, goats and horses; also 2,500 chickens and rabbits. The Night Horse Show is unequalled outside of New York City. Why not give yourself the pleasure and opportunity of attending?
