Fate on Strange Career

The Paris courts report one of the most curious series of incidents yet laid before legal students in the case of a Paris woman who, on the occasion of two previous weddings, had lost her husband in an auto accident while en route home from the wedding ceremony. She recently married a third time and as the burial car was speeding home it collided with a vehicle and the third husband was killed in a manner almost identical with the fate of the first two. The courts took cognizance of the series of strange mishaps, because in the case of the second husband's death the woman asked damages.

This One Doesn't Pucker

Persimmons are scheduled for a rise in popularity. At last a persimmon has been found which will not pucker the mouth no matter how green it is when eaten. It is the Fuyu persimmon, which the United States Department of Agriculture has introduced from Japan and predicts will become one of our leading varieties. The Fuyu has a beautiful golden orange color, is ideal for shipping and, what is more to the taste, is never astringent and can be eaten with enjoyment even when still hard.
