Mrs. H. L. Bents Passes

Agnes Augusta Bents, daughter of John F. and Hannah J. Smith. Born January 27, 1864; died August 1, 1924. Age 60 years, 6 months, and 4 days.

The pioneer parents of Agnes Augusta Bents located on a tract of land about midway between Aurora and Hubbard, Oregon. Here John F. Smith hewed out for himself and family a good, comfortable home, and reared his children there.

The eldest daughter, Agnes, was brought up under the careful guidance and loving care of these good pioneer people. In due time she was wooed and won by Henry L. Bents, who at that time taught school in the White school district (Dec. 25, 1887). After their marriage, they settled on their farm near Fargo, Marion county, Oregon. They spent many happy years on this fine farm. Four children were born to them: Leita May Giesy, who now resides near Aurora; Velma Ione Shimmin, of Aberdeen, Wash.; Henry L. Bents, Jr., who lives near Aurora; and Kenneth Thurston Bents, who is yet at home.

Mr. and Mrs. Bents moved to Aurora in the fall of 1907, where they have resided since that time. Here Mrs. Bents was widely known and made a host of friends, who remember her kind and loving disposition, and her influence for all that was fine, good and true.

Agnes Augusta Bents was a loving wife, a fine, tender mother, a loyal friend and a patriotic American woman. She never shirked life's duties. She has fulfilled her mission. Her life, in the main, was a happy, contented one. She has now gone to her reward.

Her sorrowing husband and children feel they know that—

"A glorious future cheers the human race;
Unending progress has no resting place;
While all our hopes exultant rise,
To reach the land where sorrow only dies;
To meet our happy ones who went before,
Who will gladly greet us as we near the shore."

Ernest Hilliere Dies

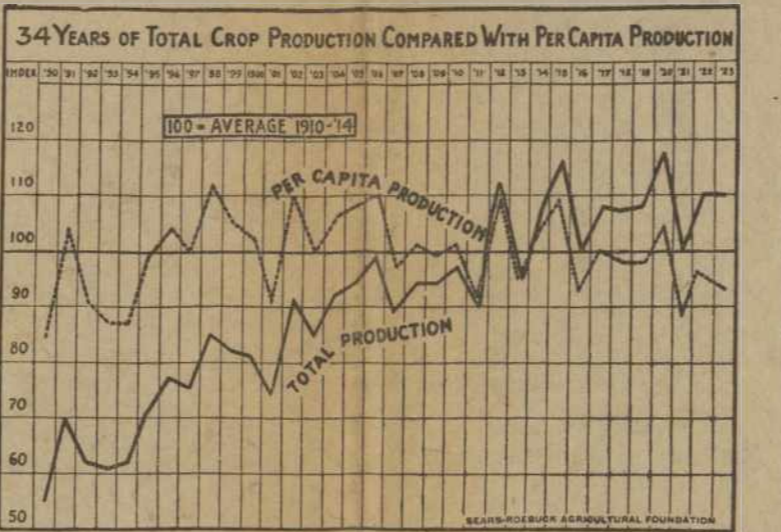

Ernest Hilliere, who has made his home in Aurora died on Friday morning from tuberculosis. Mr. Hilliere was a brother-in-law of W. M. Miller, of Aurora, with whom he had made his home for some time, and where his death took place. The remains were taken to Portland by S. A. Miller, Aurora undertaker, on Saturday.

Farm Production Falling Off

Population is gaining on crop production, according to a study made over a period of thirty-four years by the Sears-Roebuck Agricultural Foundation, based on figures of the United States Department of Agriculture. The accompanying chart shows crop production per capita is falling.

Taking the average of 1910 as 100, total crop production in the last three years averaged 106.3. Owing to the growth of population, per capita production has been only 92.3 when 100 represents the 1910-1914 average.

The chart shows index numbers of both total and per capita production of crops from 1890 to 1923. The production record is based on the total yield of 10 crops—corn, wheat, oats, barley, rye, buckwheat, potatoes, hay, tobacco and cotton, which include more than 95 per cent of the total acreage of all crops. Since yields are expressed in various units, bushels, bales, tons and pounds, the crops are combined by applying a constant average price to the yearly production of each crop.

Evidently production, consumption and feed prices, all play an important part in regulating butter prices in a tariff-protected market like the United States. The cost of feed may require in the long run, but over periods of a few years it has little to do with the selling price of butter.

Young Man Suffers Serious Injuries in Accident at Hubbard

Albert Emmert, 22 year old son of Mr. and Mrs. Ben Emmert of Hubbard, is in the Salem hospital, where attending physicians hold little hope for his recovery from serious internal injuries and three lower ribs torn and broken, received when he was struck by an automobile on the highway about a mile south of Hubbard Tuesday noon.

Emmert had just arrived on the highway and gone to a threshing machine which also stood near the road. As he stepped from the machine upon the highway, he was struck by a Buick six car, going at about 20 miles an hour. Two wheels passed over the lower part of his body, and the fall rendered him unconscious immediately. He was rushed to Dr. Weaver's office at Hubbard, where after an examination, the Doctor ordered him to be taken to the Salem hospital. He reached the hospital at about 2 o'clock in the afternoon in an ambulance.

An examination there showed his injuries to be more serious than had at first been anticipated, and the doctors announced that there was only a slight hope for his recovery.

Emmert has lived around Hubbard for a number of years, and is well and favorably known in this vicinity.—Exchange.

This is their third trip in nine years, and they are planning on coming back next year.
