## AROUND the HOUSE

Items of Interest to the Housewife

**Prepare for Spring.**—Now is a good time to collect cigar boxes or make flats for planting seeds indoors.

**For the Garden.**—Begin collecting stakes for the garden. There will never be enough of them when you want them.

**Covering Chairs.**—When making loose covers for easy chairs or settees, make extra slips fitted with patent fasteners to cover the arms, which get most wear and

soil quickly. These strips can be removed and washed when necessary.

**Peanut Butter Drops.**—One cup peanut butter, one and one-half cups powdered sugar, four egg whites (unbeaten). Cream together and drop mixture in small spoonfuls on parchment paper. Bake in moderate oven for 20 minutes.

**Sandpaper-Wax Cure.**—To remedy furniture drawers which stick sandpaper and wax their edges.

## Famous Food Expert To Conduct Feature

**BEGINNING** with this issue this paper is pleased to announce a new series of articles which we believe to be the most original and up to date food department in the country.

We wanted to offer a food department that was live—interesting—different. We wanted to get away from the usual "recipe column." We believe the women of this community are primarily interested in food in its relation to health, in its effect on growing children. Information of this sort has usually been too scientific to be understood by the average person, but in this series it is presented in clear, understandable language and applied so that it will fit the average household. C. Houston Goudiss, famous author, lecturer, and radio personality, will conduct this department each week. Many housewives will want to make scrapbooks of these articles. Don't miss a single issue.

### Reading Speeds

Some discoveries through the ophthalmograph, a device for taking motion pictures of a reader's eye movements:

An untrained adult reads 200 words a minute, pauses 120 times, goes back twenty-three times per 100 words.

An average college student, who can read 325 words a minute, pauses only eighty times, goes back ten times per 100 words.

In one office where tests were made the best paid stenographer read 461 words.

Fastest reader ever tested, an eighteen-year-old high school boy who evidently had an unusually large macula (a yellow spot in the retina, most sensitive point of vision), in one test read 2,202 words a minute with excellent comprehension.—Time Magazine.

## "FIVE Minus TWO Leaves FOUR"

WRONG? Well, yes—and no. The arithmetic of your school days taught that "If Mary had five dollars and spent two . . ." three dollars remained. But that is mathematics—not shopping! In managing a home . . . guarding a limited family income . . . we've simply got to do better than Mary did. We must sharpen our buying wits . . . ascertain where the dollars of extra value lurk . . . take five dollars to town and get much more for the money spent. Fortunately, there are ever-willing guides right at hand—the advertisements in this newspaper. Advertiser merchandise is often exceptional value merchandise. It makes dollars S-T-R-E-T-C-H.
