Thursday night at the Beaver theater at Beaverton the 32-piece China set was won by Mr. Coltour. The coming Thursday night will be surprise night. Instead of showing the prizes, each will be wrapped separately. When a number is drawn the person receiving the package must unwrap it and show the article to the audience. Suicide at Tualatin, Oregon

Henry V. Mason shot himself thru the head early Wednesday morning rather than be taken to jail, and passed away in a few minutes at Tualatin.

He and his wife had separated, she lived at Tualatin with her three grown daughter and he at Medford with a son. The wife secured a divorce last week and the husband heard of it and made threats against her life. The boy telegraphed his mother and she had been having several of the neighbors stay at the house at night and Tuesday night others came in. She was so nervous that no one slept at all. Early Wednesday morning at 5:20 a. m. they opened the door and looked around. Mason who had been hiding in the barn dropped down from the rafters and yelled to a neighbor to throw up his hands, instead of doing so, the man jumped behind a tree. Mason shot at him, but missed him and ran around the end of the barn. A shot rang out and the crowd rushed to the other side of the barn and found that Mason had laid down and shot himself through the ear. He lived only a few minutes.

Harry V. Mason was born in Iowa, October 2, 1872. W. E. Pegg had charge of the funeral.

Industrial Use of Gas Fuel Is Increasing

The Gas company will in the near future supply most of the fuel for industrial as well as domestic use, according to George B. Cortelyou, president of the Consolidated Gas company of New York.

In the past ten years the consumption of gas as industrial fuel has increased 1000 per cent, he says, and at the present time one-fourth of the country's total yearly production of 420,000,000 cubic feet is used in industry. The use of gas in homes, which is still the backbone of the gas utility business, continues to show a steady increase, says Mr. Cortelyou. "The remarkable evidence of the adaptability of gas to the uses of industry indicated one of the directions in which great future expansion may be expected; for, notwithstanding the large gains already recorded it is probable that as yet gas is carrying less than 10 per cent of the total industrial load available. Given favorable rate and service conditions, the use of gas as industrial fuel may easily take the lead over all its other uses."

New York state leads the country in consumption of manufactured gas, with a total in 1926 or more than one hundred billion cubic feet and a per capita yearly consumption of about 10,000 cubic feet. It is estimated that three-fourths of all the food prepared in the state is cooked on gas stoves.

CLEAN UP WEEK APRIL 24 TO 30

The week commencing April 25 has been designated by the "City Fathers" as "Clean up Week" and everyone in Beaverton should get behind this movement and beautify our town.

NOW is the time to clean up and increase the value of your property.

The housewives can help too, they know that clean and attractive homes and cities make better citizens.

A banker once said: "Before I make a loan on any property I always find out the owners' reputation for keeping his buildings in order. I can't put much trust in the man who deliberately neglects to take care of his own property."

Getting rubbish on the run, You can have a lot of fun. Making cleaner this clean town Will add a lot to its renown.

Out with rubbish, cut the weeds, Sow a lot of garden seeds. Soap and water, scrubbing brush, Chase the dirt out with a rush!

Swat the fly and oil the pool, Get out every garden tool. Seed the bare spots on the lawn. Get up early in the morn.

After you are thru with this, Cheerful smiles are not amiss, Don't forget it thru the year, Every day make full of cheer.

Scout Training Saves Boys Life

James, the 12-year-old son of Mr. and Mrs. Harvey Pinder, of Canyon road had the misfortune to cut his left forefinger while chopping wood Monday afternoon while playing at the home of Bert Hawkins. Somehow the ax slipped and struck the finger directly over the second joint cutting the bone.

James, who is a Boy Scout showed Miss Lucile Jones, who stays with the Hawkins children, how to make and apply a tourniquet which checked the profuse bleeding until he could reach Dr. Mason's office. It is feared James may always have a stiff finger.
