THE FARMER'S BEST WAY OUT.

Dean Russell of Wisconsin College of Agriculture says: "Two things have hit the farmer hard but the same things have hit business. They are increase in cost of production and decline in prices which latter has been more drastic in farm products than manufactured products. The farmer's political friends say salvation can be found through legislation. Our legislative doctors propose price control. The difficulty with this is price control always means price elevation which always produces expansion in production and if this occurs without expansion in consumption you have inevitable decline in prices. The remedy works to produce the very opposite result from that intended.

"Another legislative panacea would make it easier to borrow, as if running into debt was the solution of the difficulty. There are farmers who wish it had not been quite so easy to borrow because the inevitable day comes when they have to pay principal and interest. The third legislative remedy would make easier the pathway for cooperative endeavor. All you have to do is to wave the magic wand 'Cooperation' and all the farmer's difficulties will immediately disappear. I wonder if there is any

Still Belief in Witches

Belief in witches still exists in England today, stated a lecturer on witchcraft before a London society. She said in one village in Dorset a certain amount of the witches' organizations still remains. When I went down there, recently I asked one of the women about it. She said, "Witch Fanny is dead." I asked, "Who is witch now?" and she replied without hesitation, "Witch Bessie is witch now." The question of succession was easily and quickly arranged, but I could not find out how or when it was done.

Children attended school only one half day Tuesday, January 3, as a limb from one of the fir trees on the grounds laden with ice, broke about noon and fell on the power line tearing the wire loose and as a result there was no power and the fans of the circulation system were put out of commission. The pupils were very disappointed! But most of them had a good time playing in the snow the rest of the day.
