CITY COUNCIL IN SESSION MONDAY

WATER DEPT. SHOWS PROFIT

Wisdom of Changing Source of Water Supply Last Year is now being Realized

At a meeting of the city council held Monday, June 4, at the city hall, there were present Mayor Erickson, Councilmen Wilson, Manning, Alexander and Recorder Thyng.

The minutes of the previous meeting were read and approved.

The following claims against the city were presented and referred to a committee on finance:

E. P. May	\$135.00
Tualatin Valley Water Co. May	364.48
A. E. Story, salary and labor	10.00
A. E. Story, meter reading	21.00
Gen. Thyng, water clerk	50.00
Gen. Thyng, recorder	25.00
Forest Syndicate, June	97.65
H. Bixby, sewer	28.00
Brobaugh, repair work	1.50
W. H. Hunter, placing tile	12.00
Bank of Beaverton, Interest P.	
E. P. warrants	5.03

A letter was received from Multnomah county commissioners in regard to condition of pipe along the Bertha-Beaverton highway. Mayor Erickson appointed a committee consisting of Harry Alexander and W. M. Manning to confer with Mr. Buck, Multnomah county road master.

The recorder was ordered to advertise for bids for cleaning to grade and laying of 707 lineal feet of ditch and laying of tile therein, and filling in dirt, on Lombard street, south from Second street. The property owners affected by this are: C. C. Beach, L. Lasswell, W. H. Engelke, Hattie Suver and C. T. Timmons, who agree to furnish tile and fill ditch to street level.

Mr. Davis of Watts airport, appeared before the council and asked to have the wires at the east end of the field placed underground so as to make a safe landing place for airplanes. The runway is not long enough for planes to get elevation to clear these wires as they are and likewise they are a menace to pilots on landing. Messrs. Raynard and Erickson were appointed on a committee to meet with the Oregon Telephone Co. and Portland Electric Power Co. in regard to laying an underground cable and report at the next meeting Monday night.

Elmer Stipe presented a contract for water which was taken under advisement.

The recorder was asked to write the fire marshal regarding the old starch factory, which is a fire hazard, and see if it could not be either torn down or locked up so that the building could not be entered.

The recorder reported that 122,340 cubic feet of water was sold during May and 202,000 cubic feet purchased. The loss of 80,000 cubic feet or about 40 per cent shows that the mains are in a bad condition. Nevertheless the water department showed a profit last month of nearly \$400, a continuance of which will be very gratifying to all concerned. Meeting was adjourned until next Monday, June 11.

Your child should drink at least a quart of milk a day. Phone Aloha Dairy—Adv.

My vote in your county was gratifying to me, and I know full well that I should not have found so many friends had it not been for the endorsement of your newspaper.

As secretary of state it will be my objective to give the people of this state a clean, conscientious administration of their affairs, free from politics and showing every courtesy possible.

Very truly yours,
HAL E. HOSS,

WINDOW DISPLAY UNIQUE

Portland Gas & Coke Company Shows Scenes in Holland

Scenes in Holland are elaborately and attractively reproduced in a display in the salesrooms of the Portland Gas & Coke company, Sixth and Salmon streets.

This reproduction, which is realistic, those who have been in Holland say, is the idea of John H. Hartog, gas company sales manager, who is a native of that country.

The Holland setting was erected under his direction with the aid of S. B. Benson, in charge of displays; W. A. Milbury of the advertising department, and others connected with the company.

In the scene is the typical Dutch windmill in operation in the background, and the Dutch boy is acted by F. V. Burrill, professionally known as the king of dolls.—Oregon Journal

OLD LANDMARK BURNED WEDNESDAY

The old Mazzie house on Lombard street burned almost to the ground Wednesday at 12:30 p. m. The fire had gained considerable headway, which was due to a strong wind, before the alarm was turned in, but the fire was under control within ten minutes after the fire ladders arrived.

Two streams of water were soon playing on the old two-story building. Elmer Stipe took the hose cart to the scene with his wrecking car.

The house was occupied by L. Spalding and five children, the youngest an infant. They were sitting down to lunch when they heard the roar of the flames. They managed to carry most all their household goods out. The children were taken to the home of Joe Bernardini across the street.

Fire broke out again about 3 p. m. but was soon extinguished.

The house was nearly 50 years old and was built by George Mazzie. Lester Squires lived there with his parents when he first came to Beaverton.

It was owned by Umberto Prospero of Chicago.

APPORTIONMENT OF COUNTY FAIR FUND ANNOUNCED

The fund is available for use in support of any fair, land products show or livestock exhibition, or, in the event no such fair is held in any county, the money may be diverted to the road fund.

SUIT TO FORECLOSE MORTGAGE ON TUALATIN WTR. CO.

Elmer Stipe, through his attorney, T. H. Tongue, Jr., has filed suit to foreclose a mortgage given by the Tualatin Valley Water Co. on October 1, 1913, to secure a bond issue of \$40,000. Default in interest and redemption of bonds is alleged, and it is charged that records of the company have been either destroyed or removed from the state. The water service involved is the pipe line extending from the east Hillsboro limits to Beaverton, and until the latter city constructed a municipal plant was its sole source of water supply. Service was also given in territory between Hillsboro and Beaverton. Water was supplied from the Hillsboro mains by the different companies which have operated the system, but it is said that the supply may be possibly cut off by the company during the present season.—Hillsboro Independent.

Mrs. Clara French, who is in charge of the floral committee, would appreciate contributions of flowers. She urges all ladies interested in helping Beaverton win a prize to bring all the flowers possible and to consider themselves on her committee. She would like to have the flowers brought to Ericksons garage June 13.

Delphiniums, gladiolas, white roses, white peonies, Red Hot Poker, Day lilies, and St. Joseph's lilies are needed to carry out the color scheme.

Otto Erickson, who has donated a truck for this day, allowed the committee a space in his garage so they can trim their float there.

The finance committee may call on citizens for more donations as it may be necessary to purchase more flowers than those donated.

The different committees are delighted with the friendly cooperation of the citizens in making this float a success and believe that Beaverton will again carry off a prize.

FATE

By Verne Bright

The Jungfrau and the Matterhorn were no more
Than mole-hills to his stride, Mt. Everest
Had felt his alpine-mattock pierce her breast,
McKinley's summit was an open door.
Beyond strange harbors where Aurora flares
He'd drawn his seldges, straining at the yoke—
But fate must ever have her little joke,
He broke his leg climbing up a stairs.
