## COMES OUT REGULARLY. DO YOU?

A newspaper can do a lot of good for a town; a town can do a lot of good for a newspaper.

A business can do a lot of good for a town; a town can do a lot of good for a business.

A community can do a lot of good for a citizen; a citizen can do a lot of good for a community.

Neither of these should wait for the other. Both should start doing good at once, and keep everlastingly at it. If one waits, both may wait and nothing would be done.

Well, this newspaper makes no claims it can not substantiate, but it at least comes out regularly. Do you?

## AUDITING CIVIC BUSINESS

The business of community development, from some angles, is the least scientific on earth, yet one of the most important businesses. In our private or civic life, as distinguished from that of local or of official government, the tendency sometimes is toward slipshod methods of carrying out projects which only unofficial action can best sponsor. Hit and miss activity, no matter how conscientiously intended or how faithfully attempted, will never build a community any faster than it would have grown without such activity. We must all get together and analyze ourselves and our situation. We must lay aside personal ambition or let it merge into the common welfare.

So many of us are not willing to take the judgment of others. This is not only a hindrance to progress, but it is a breeder of suspicion and mistrust. Such an attitude is also a semblance of conceit which, if not stemmed in time, will lead to such self-contained eminence of the individual as to spoil him for reaching higher positions in life. In law, medicine, science, art, theology, engineering and most of the trades, to a great extent we are content to leave those matters to experts in those particular fields of work. But when it comes to advancing the community as a whole, most of us become "experts" at once. In our self-contained egotism we become overnight city planners, engineers, lawyers, scientists, educators, doctors, ministers and community organizers. We all become "Gorges" and want to do it or especially say how and when it shall be done.

We must give credit where credit is due, but not sacrifice efficiency for personal or organizational glory of sponsorship.

What matters it, after all, WHO does it, so long as it's done?

## HANGING THEMSELVES

The old-time saloon killed itself in America because it abused its privileges. It was its own greatest enemy, just as the intemperate man was his own greatest enemy. Now we see the spectacle of another giant institution bringing on its own disaster by going too strong—the power and public utility trust. Though clothed with respectability, which is more than can be said of the saloon, the situations are at least comparable in one respect—self-destruction is the result of public exploitation.

When utility corporations place thousands of text books into the schools of America, with the secret purpose of impressing a theory of selfishness upon the young minds susceptible to doctrines first received, it is time the fathers and mothers—voters of America—take a hand in the situation.

This nation was conceived in liberty, whose birth was fraught with blood of men seeking freedom of action, freedom of government, and the unlimited right to work out humanity's highest destiny. Now a great problem rears its head and exposes itself. If the people do not curb and regulate the giant monopoly there is no limit to which it may go to attain its selfish purposes. It is bad enough to permit monopoly of public service, but when such monopolies seek in turn to monopolize HUMAN THOUGHT, there is time to call a halt and that time is NOW! For the sake of liberty, democracy and human freedom let us keep our public schools free of commercialized propaganda! Let them fool the voters if they can; let them bribe public officials if they will; but in the name of Justice and Decency let us not permit them to clutch our children in their giant grasp!

Speaking of rich uncles, how many of us have the "kin we love to touch?"

Money is no good to us unless we spent it; and the other fellow's money is no good to us unless he spends it with us. How's that philosophy?

## TUALATIN

Aimee Semple McPherson has come and gone. The big Portland dailies gave no space to her campaign and in Monday's papers after she spoke before thousands of people from all parts of the state—she was barely mentioned. One great daily merely stated that she was at Oaks park and won a three-pound box of candy. One compliment they designed to give her—that business increased 1000 per cent in three minutes when the crowd learned that the great evangelist was there. Oh, well, her influence and greatness was not lessened by the sarcasm of the Portland papers and whether she is genuine or not, she certainly makes the world better for being in it—and aren't we all small, very small, in comparison?

M. G. Lasky of Cornelius formerly of Junction City, with his wife and two children are now located in their new home, the 60-acre place known as the Fessler place, one mile south of Tualatin on the Wilsonville road. Mr. Lasky purchased the farm from the Stewart Livestock company of Portland and the consideration was around \$10,000. Many improvements are planned to the buildings and the place will be utilized for diversified farming with a tendency toward the nursery business.

Miss Vella Casteel has been engaged to teach the Corral Creek school near Wilsonville next year and will board in the home of N. O. Say.

Fred Wourms and family spent Memorial day with relatives in Oregon City.

Mr. and Mrs. J. W. Forney and son Fred were week-end visitors at the W. R. Hawhurst home from Hood River.

Mr. and Mrs. James La Cina and three daughters celebrated Sunday by visiting the Oaks park, hearing Aimee Semple McPherson and picnicing at Jantzen beach. At the latter place they enjoyed the clean modern swimming tanks where the service is unexcelled.

Mr. and Mrs. E. C. Richardson heard Leo Carrillo with the Henry Duffy players at the Heilig Sunday evening in his New York comedy success, "Lombardi, Ltd."

Memorial day, a party of 17, guests of Mr. and Mrs. M. A. Shuster, picniced at Jwigen's park and afterward went to the Shuster ranch and picked lots of berries to take home with them. They were Mr. and Mrs. John Kaiser of Pete's Mountain, Bruce Case and family, Frank Kiser and family of Ladd Hill, the families of A. S. and A. E. Ford, of Portland, Mr. and Mrs. Bill McDaniels of Touchet, Wash., Mrs. Jones of Milton, Wash., Mrs. George Andrews and Mr. and Mrs. Shuster.

Miss Cecil Nyberg won the third prize given in the recent drive for business by the Oswego paper—a six-tube Atwater-Kent radio, electrified.

Mr. and Mrs. John Say and daughter are visiting the John Nyberg home from Portland.

Charles Lasker with his wife and two children are now domiciled on their new place one mile south of the Tigard public school on the West Side Highway which they purchased of Emil Johnson of the Tigard Lumber company. A new dwelling and three and a half acres make up the home. Mr. Lasker is employed at Enke's.

Dr. and Mrs. Harry Harding have been visiting here from the U. S. navy yards at Bremerton, Wash.

Donald C. Parker, formerly of Tualatin, is now special event manager at Neptune beach, Alameda, Cal., justly called California's greatest amusement park, being easy to reach from both San Francisco and Oakland.
