DO YOU SEND YOUR MONEY OUT OF TOWN

The mails in the local postoffice were unusually large this week due to the delivery of fall mail order catalogues to persons in this community. The problem is one for thinking merchants and property owners to ponder over.

A perusal of a number of catalogues brings out the fact that while the articles offered for sale are quoted at a seemingly low price, yet when the postage is added it brings the cost higher than if the article were purchased at home.

Another disadvantage in buying goods away from home is the fact that one does not see the article until after it is delivered.

Will people ever realize that the money sent out of town for goods is never returned to them? While if they made their purchases locally the money would be kept in circulation here.

THIRTEEN WESTERN BOYS CHOSEN FOR RIFLE MATCH

Thirteen outstanding Far Western boys, the pick of three thousand youthful residents of California, Washington, Oregon, Idaho, Montana, Wyoming, Utah and Nevada who attended this summer's Citizens' Military Training Camps, will uphold the

rifle shooting supremacy of the far west against crack shots from all parts of the United States at the National Rifle matches to be held August 26 to September 16 at camp Perry, Ohio.

Major-General John L. Hines, commanding the ninth corps area, U. S. Army, under whose supervision the C. M. T. camps were held, selected the thirteen as the choice among the three thousand, it was said at army headquarters, because of their "markedly good character, sense of responsibility and ability to become instructors in rifle practice."

Besides forming the ninth corps area C. M. T. C. rifle team which will meet C. M. T. C. teams from all over the country for the national rifle honors, the far western youths will toe the firing line with sharpshooters of the regular army, navy, Marine corps and civilian shooting clubs, many of them marksmen of international fame.
