**TIGARD.**

Professor Fowler of the Tigard Union High School strained a tendon in his left leg last Thursday while coaching the basketball team. It is very painful.

Will the party who was small enough to take a purse off the counter of one of the stores in Tigard Saturday evening please return the purse and contents and keep the money if it will help their Christmas shopping. My name is on my bus tickets.

Alois Schlecht has been appointed administrator of the estate of his mother, Mary Schlecht, who died December 5 at Tigard. It consists of real property appraised at \$6000.

Mrs. N. Boyd of Carlton was visiting Tigard friends this week.

G. B. Davis and family spent Sunday with her sister, Mrs. J. C. Jessup at Newberg.

Born—to Mr. and Mrs. A. W. Chase of Durhan, Saturday, a son.

Miss Helen Reber, a Tualatin high school girl was operated on by Dr. Bissett last week and her appendix removed. She is at St. Vincent hospital.

J. W. Holden of Portland was arrested Monday by J. J. McMahon for speeding 45 to 50 miles an hour. He paid a fine of \$15.

Mr. and Mrs. P. E. Lewis and family and Frank Allen were dinner guests at the Mt. Hood Country Club last week.

Mrs. F. R. Sibley, who went to the hospital last week expecting to be operated on, returned home because she had a very bad cold. As soon as she is well she will return to the hospital.

George Schwister left last week for Milwaukee, Wisconsin to join his wife and baby.

The Tigard Grange met last week Tuesday for a short business session and an interesting program was given.

Dixon G. Trenholm of Seattle is visiting his uncle, R. H. Grandy and family.

The fence around the Zweiner home has been removed.

The Ladies Aid of the M. E. church held a very interesting meeting at the home of Mrs. Whitwell. A mysterious grab bag added to the enjoyment of the afternoon.

Esther Strom lost a valuable pocket book Saturday while shopping in Tigard.

Harry Leedy and family spent Sunday with his mother, Mrs. B. G. Leedy.

Tigard Grange meets next Thursday for an all day session.

**LEASED 23 ACRE PLACE FOR A YEAR**

W. M. Lewis and A. C. Holton, of LaCenter, Washington, have leased the 23 acre Abby Labbie Clark place at the end of Walnut avenue for a period of 1 year. C. W. Noyes made the deal. They will take possession at once and are making extensive plans for farming the place.

**Moved All Ports Inland**

In ancient times so terribly did the sea rovers infest the Chinese coast that one emperor with a stroke of his vermilion brush solved the problem by ordering all seaports to move inland 20 miles. Vast populations and great cities were moved from the mouths of rivers by this one act. Old walls and dwellings were abandoned; new walls and properties were set up.

The old sites were used as observation points, and fortresses were located near them, so that it was no longer possible for a fleet to descend without warning upon the inhabitants of an unsuspecting city. This is why today there are no ports on the actual seacoast of China.

**Loss of Food Animals**

The annual loss of food animals in the United States, through disease and neglect, is estimated to be in excess of \$200,000,000. It is likely that this estimate on the part of government officials is far below the actual loss.

The indirect loss defies calculation, because we cannot possibly estimate its effect upon the cost of living for both the rural and the urban population. A great variety of maladies afflict nearly all animals which are used for food. They are not only affected with as many diseases as attack mankind, but many young animals die from neglect.—Thrift Magazine.

**Music Not Sports**

In a small Scottish town there had been a musical recital that afternoon at the town hall by a well-known Edinburgh pianist. The audience and the performer had departed, and the caretaker was locking up, when the telephone bell rang.

"Hello!" said a voice. "Is that the town hall?"  
 "Aye."  
 "Has Mr. Bruce Ferguson been there this afternoon?"  
 "Aye."  
 "Did he play Bach?"  
 "Awa wi' ye, mon. This is a town hall, no' a fitba' field."—Musical Mirror.

**Significant Number**

Forty is a number that has been regarded as peculiarly significant. The idea may have originated with readers of the Bible, who notice that Moses was 40 days on the mount, Elijah was fed 40 days by the ravens, the rain of the flood fell 40 days, another 40 days elapsed before Noah opened the window of the ark, 40 days was the period of embalming, Jonah gave Ninevah 40 days to repent, the Lord fasted 40 days, and He was seen 40 days after His resurrection. Old English law also featured many 40-day periods.

**Ancient America**

Recent discoveries in the Isthmus of Panama lead to the conclusion that the region probably was the most populous in the ancient world. Many large cities have been discovered in ruins in the jungles.
