Mr. and Mrs. C. W. Adams arrived home last Thursday after visiting friends and relatives in the east and in California.

INQUIRY LIST NO. 336

The following people have written to the Land Settlement Department asking for information on Oregon. We have answered these inquiries, sending general literature and they have returned signed questionnaires giving the following information:

These prospective settlers are all sufficiently financed for their needs:

21602—Mr. J. P. Sharp, Turnerville, Texas, is interested in western Oregon, and wants improved land suitable for sheep raising and general farming. Coming when he sells his property in Texas.

21604—Mr. J. A. Wright, 358 Superior Avenue, San Leandro, California, is planning to make a trip to Oregon next summer and wants about 50 acres in the Willamette Valley, especially the northern part, suitable for dairying. Is also interested in irrigated land.

21605—Mr. D. W. Reynolds, 814 Masgo Place, Venice California, wants a ranch of about 40 or 50 acres suitable for corn and small grain. Must be close to school. Might also be interested in renting a larger farm, equipped and stocked.

21606—Mr. W. D. Thatcher, Venice, California, wants from 2 to 4 acres suitable for poultry and fruit. Has house and lot in Venice, California valued at \$6,000 that he will exchange for Oregon property.

21607—Mr. Robert W. Fulton, 8762 Rosewood Avenue, Sherman, California, contemplates coming to Oregon and wants a small ranch that

would be suitable for wayside stand on main highway.

21612—Mr. J. P. Jensen, 420 South Ash Avenue, Inglewood, California, wants about 5 acres suitable for poultry raising.

21613—Mr. Harry Stickle, Box 7375 North Kansas City, Missouri, wants about 100 acres or more suitable for grazing and cultivation, and must be close to high schools and railroad. Has property in Kansas City that he would like to trade for Oregon property.

Oregon State Chamber of Commerce.

HOME POINTERS

To aid in ironing pleats in wash dresses vertical stitches may be made through the machine stitching in the hem with a needle and thread where the pleats are to be folded. These stitches may be used as a guide to avoid unevenness of line when folding the pleats.

If when wringing towels they are folded lengthwise and put through the wringer flat, they will dry almost as smooth as when ironed. Shears have many uses in the kitchen such as shredding lettuce and trimming off bacon rinds.

A square of ticking, the corners brought together and fastened to a large hook, make a good clothespin bag. The hook may be slipped over the line and slid along.

In choosing colors for dyeing, one need not be restricted to those found in dye packages, as a blend may be worked out to suit one's taste from combinations of red, blue and yellow.

A tar paper wrapping is excellent protection for use in putting away clothes, providing it does not get torn and there are no openings in the wrapping where moths can enter.

If when knitted underwear is purchased it is reinforced at the places receiving the most strain and wear, the additional strength at these places will help to prevent the appearance of holes.

The woman with brown eyes or red hair will find brown green or black most becoming and therefore most suitable.

Sale silks are seldom economical unless one can test a sample for adulteration. A weighted silk which has been in stock for some time will seldom wear long enough to pay for making up.

OREGON WEEKLY INDUSTRIAL REVIEW

Delake—Meeting held here to plan construction of Devils Lake road. **Clatskanie**—Columbia County Bankers Association recently met here to discuss taxation and sheep industry.

Ashland—Bagley Canning Co. canned 27,421 cases of apples this past season.

Eugene—Plans progressing for erection of airplane factory here which will employ about 100 men.

Forest Grove—Present quarters of Chamber of Commerce will be extensively remodeled.

Forest Grove—West Coast Telephone Co. expends \$125,000 for new building on College Way, and improvement of lines.

A Delicious Food

A food for protein; a food for mineral salts; for calcium and phosphorus; all the essential elements for health and strength are found in good cheese. And all the essential elements of good cheese are found in Kraft Cheese.

New Features of-
The Outstanding Chevrolet
of Chevrolet History
- a Six in the price range of the four!

The Outstanding Chevrolet has a marvelous new six-cylinder, valve-in-head engine whose perfected design represents over four years of development and testing on the part of Chevrolet and General Motors engineers. It has numerous advancements typified by a non-detonating, high-compression cylinder head — gasoline pump with filter, and automatic rocker arm lubrication. It provides performance the like of which was never before available in the low-price field—marvelous smoothness, tremendous reserve power, and sensationally swift acceleration—all with an economy averaging better than 20 miles to the gallon of gasoline!

Its marvelous new Fisher bodies display a new order of beauty, smartness and luxury. Additional new features by the score—each an impressive example of automotive progress—contribute to outstanding performance, quiet operation, long life, ease of control and economical ownership.
