C. E. ALLEN, Agent

DURHAM.

Mrs. Charles Wilson has been en-
tertaining her niece from Idaho.

It is reported that the Barlow place
near the station has been sold.

The trains to Portland are being
well patronized by motorists who fear
the hazardous trip over the slippery
highways.

Sunday visitors at the Nokes home
were Mr. and Mrs. Voeller of Van-
couver and son Billy, Mrs. Stewart
and daughter Mary of Portland and
Mrs. Glenn Copeland of Keichikan,
Alaska. Mrs. Copeland plans to sail
for Alaska on the 24th.

Mr. Charles Sandberg, of Portland,
spent the week end with his sister,
Mrs. Paul Heden and family.

Mr. and Mrs. A. D. Clutter, of
Mulloy, called at the Dobson home
Sunday afternoon.

Mrs. C. A. Cabe and children took
their Sunday dinner at the home of
her brother, J. R. Dobson.

The entertainment sponsored by the
Community Club for the benefit of
the Boy Scouts has been postponed
until Friday evening, February 1st.

Dr. Poling, of New York, advoc-
ates that Congress pass a law au-
tomatically making our ex-presidents
U. S. Senators-at-large. This is a
good idea which should be urged up-
on Congress. There is no good rea-
son why the President of the U. S.
should step down from his high of-
ficial position to private life and the
country lose the benefit of his knowl-
edge and experience of a number of
years' service at the head of our
government. His wisdom and knowl-
edge of affairs should be of great
value to the Senate and the nation.

Mr. and Mrs. John Ochs are much
improved in health. Mr. Ochs is able
to be out while Mrs. Ochs is able
to be out of bed part of the time.

Ab Schechla has a new Chevrolet
sedan.

Mrs. Paul Regling and Mrs. C. H.
Myers were Portland visitors Friday.

The P. T. A. meeting last Friday
was well attended. The ladies are
making quilt blocks for the Parent-
Teacher Service Shop in Portland.

Wanda Sumoski has completed the
8th grade and successfully passed the
examination.

Sun Spots Solar Storms

The value and importance of the
observations carried on and discov-
eries made at the Mount Wilson ob-
servatory are so great that one can
scarcely name even the most important
of them in limited space, says Nature
Magazine. Hale's discovery of mag-
netic fields in sun spots, as well as the
fact that the sun itself is a magnet,
with its magnetic poles close to its
poles of rotation, and that sun spots
are great solar storms of cyclonic na-
ture, seem to stand out among the nu-
merous discoveries that have been
made regarding the nature of solar
phenomena.

Then the Fireworks

In an auction room a fur wrap was
being sold. A man near the auctioneer
was bent on possessing it; so also was
a woman standing on the outskirts of
the crowd.

There were no other bidders, and
they continued to bid against each
other, till at last the woman gave up.
The purchaser's name was called.
He was the woman's husband!
