BILLS PRESENTED TO AMEND ELECTION STATUTES

Salem, Oregon—Twelve bills, intended to amend the present election statutes, will simplify and harmonize state and county election laws if passed declared Representative Charles W. Robinson, of Astoria, who introduced the bills. "These amendments were recommended by the legislative committee of the county clerks' association at its meeting in Portland last month."

"At the present time there is an eight-day discrepancy between time specified for the preparation of ballots and the time in which an absent voter's ballot may be obtained. One of the proposed amendments states that county clerks shall prepare the ballots not more than 40 or less than 35 days before election. This raises the time limit from the present law which gives not more than 22 or less than 19 days. If the amendment passes, harmony with the absent voter's law will be achieved, since it now states that an absent voter's ballot may be obtained not more than 30 days nor less than six days before the elections," he said.

Candidates for state offices are required to file certificates of nomination 45 days instead of 40, under the provisions of house bill No. 200 introduced, thereby harmonizing with the absent voter's law. The Secretary of State and cities of 200 or more population are required to send arranged ballots to county clerks, not more than 45 days nor less than 40 days in the provisions of house bill No. 208, Representative Robinson stated.

Discontinuance of the use of small ballot boxes for state and district ballots is asked in house bill No. 210. The presence of more than one ballot box is said to be confusing, he said.

Mrs. E. B. Nedry received a telegram Sunday night that her father, Mr. Boydell, of Nyssa, Oregon was very ill. She left Monday morning, taking her son Ward with her. Her sister Miss Eva Boydell joined her at The Dalles.

PRESENT BILL TO ANNUL SCHOOL HOLIDAY

Salem, Oregon—Holidays have reached their zenith, especially school holidays, said Representative James H. Hazlett, of Hood River county, when questioned concerning a bill he introduced into the House during the current legislative session. His bill proposes to amend an Oregon law to do away with Washington's birthday as a school holiday.

Representative Hazlett pointed out that under the present law it is necessary for school to be called for at least an hour and a half before dismissal for the holiday. In rural districts where it is necessary to transport the pupils to and from school, the day is not only disrupted but there is a needless expense to the district.

It is the opinion of Representative Hazlett that holidays have increased beyond reason, both for the schools and the business world. Banks, he said, are beginning to protest at the number of legal holidays which interfere with their regular business.
