BEAVERTON ENTERPRISE CELEBRATES SECOND ANNIVERSARY

Last weeks paper marked the close of our second successful year in this community and with this issue we embark again on the mission of helping the growth and development of the town.

The Enterprise was established two years ago on St. Patricks Day, March 17, 1927. We are indeed grateful for the hearty welcome and loyalty extended to us.

In our short time here we find the chief pride to be the schools which are well equipped and a credit to the town. The business houses have shown an increase of most a third in number, while there is no better or richer farming area in the state. We are blessed with paved roads and streets to any part we might wish to go.

Even though the great agricultural and horticultural development has not kept pace with times, there are numerous prosperous dairying farms and pure bred stock in this vicinity.

The social, religious and educational atmosphere of the town and surrounding country has proven very congenial and to be keeping in line with the modern advancements. In fact everyone has taken a step forward and this paper is proud to be among the business houses with a direct or indirect influence on the community's welfare and appreciates the whole hearted support given it both in the city and country.

We trust that the next mile of our journey will have great things in store for this vast valley in which we live.

KEEP WINDOWS LIGHTED

Many dealers do not believe that it is necessary to keep their windows lighted at night. This is wrong. As many, or more, people go window shopping at night as do in the daytime. In a dark window one cannot see the articles the merchants are trying to display, and this often causes them to lose sales. Every merchant, no matter what kind of a store he is running, ought to keep his windows lighted until at least eleven o'clock every night.
