EASTER PROGRAM PROVES VERY APPROPRIATE

Easter Sunday was fittingly observed in the various services of the Bethel Congregational church which had been beautifully decorated with Oregon grape, laurel, daffodils and Easter lilies. The Sunday School Easter program committee, Mrs. R. C. Doty, Mrs. Floyd Teft and Mrs. L. W. Tucker, developed a most interesting program which was ably presented by the various participants to an appreciative congregation of 157.

The theme of the morning worship services was "The Eternal Life," which was the sermon subject. The musical program was given by the choir and Mrs. H. M. Barnes. Previous Bethel church attendance record were broken when 200 were present for the morning service.

Another large congregation of 175 were present for the evening service when the church choir sang their annual Easter Cantata "The King Triumphant". The composer Mrs. E. L. Ashford has linked the Easter Scriptural message with an appropriate musical setting which creates a spiritual atmosphere. The Cantata, which was given under the direction of W. L. Cady and Mrs. R. C. Doty as pianist and the choir is a beautiful musical interpretation of the Easter theme.

The amount of the special Easter Missionary offering in the Sunday School and church services was \$69 in addition to the regular current expense pledges which was dedicated to home and foreign missionary organizations.

The Minister of the Bethel church Rev. Donald M. MacNeil conducted the Easter Day services at the Mann Home for Aged People on Sunday Boulevard, on March 31st.

COUNTY AGENT NOTES

The county agent reserved 400 pounds of O. A. C. Minnesota No. 12 and 100 pounds of MacKay Yellow Dent field corn from O. A. C. Experiment Station for foundation seed stock for those of the county who wish the same at cost.

The MacKay Yellow Dent comes recommended for moist soils. The joint meeting of representative pure bred breeders and the Washington County Fair Board last week, which resulted in the ruling that all cattle exhibited at the fair, except calves under six months, must be tested for contagious abortion, should do much to encourage cattle exhibitors at the coming Washington County fair. One of the reasons given for failure to exhibit has been the fear of contracting diseases at the fair. Several breeders have already expressed their intention to show dairy cattle on account of this new ruling.

It is reported that the Washington County Fair Board is the first in the state, and probably the first in the United States, to require this test. Newspaper reports indicate that other Oregon fair managements are following this lead.

DID YOU EVER STOP TO THINK

That you should patronize the local store - some day you may need him. That the value of your property is increased because you live near a trading center, where people can buy necessities of life.

That the stores need all your support - don't buy only what you can not buy elsewhere, when you need something in a rush.

That the owners of stores here own their homes—that they have invested all their capital here and look to you for support.

That in our town there are many grocery stores yet a half truck load of groceries come out every day from the city and many other trucks loaded with commodities that could just as well have been purchased here.

How can a community grow if the local people don't support it?

Signed, A. D. A.

N. J. SKEE DRAWS FINE OF \$1000

The grand jury at Hillsboro fined N. J. Skee, of Aloha, \$1000 last week, on the count that he maliciously killed a dog. However the fine was reduced to \$150 and costs which he paid.

This affair has caused considerable discussion all over the county, not only on account of the size of the fine but the ruling made.

In Portland some effort is being made to curb the running at large of dogs, who disturb the neighbors at night and dig up the lawns and gardens and flowers. A complaint to the police will force the owner to tie up the dog or banish it if too noisy.

On the other hand lovers of dogs contend that as long as they pay a license their dog has a right to run at large and the damage they do is small.

The question is a serious one and will most likely be taken up at the next session of the legislature.

BEAVERTON HIGH NOTES

"Kempy"

The senior class play "Kempy" is to be given at the Beaverton high school on April 25 and 26. This play is based upon the American home and American family life. Cyrus, assistant county agent in charge of livestock and farm crops club work, held several meetings Thursday, Friday and Saturday, in the interest of club work. Films were shown at Banks and Scholls showing work that is actually being done by club boys and girls in Oregon.

Schools were visited at Kinton, Sherwood, Farmington, Metzger, Garden Home, Hillsboro and Cornelius. All those places, with the exception of Sherwood have club organizations. They are all planning to increase their 4-H club activities.

"We are not so much concerned with getting a large enrollment in club work as we are in getting a high percentage of completions," says Mr. Cyrus.

"We have selected some of the leading farm enterprises of the county and are enrolling boys and girls in these club projects who will be able to do credit to these leading sources of revenue in the county."

Calf club work in Washington county promises to be bigger this year according to Mr. Cyrus. Three clubs are actively at work and more are being formed. During March the Rock Creek Calf Club was organized with five boys enrolled. Mr. F. H. Jossy is the local leader of this club.
