Dr. R. A. Phillips

With offices Located Suite 902-907 Broadway Building in Portland is One of the Prominent Professional Men of this Locality and Enjoys a Large Clientele from the City and Adjacent Territory Dean of the Northwest Rectal and Colon Clinic.

The practice of Dr. Phillips has increased by rapid strides until he is today considered one of the leading professional men of this section and is often consulted by many engaged in the same line of work, because of his years of experience in his profession.

Science has made great strides in the last few years, and many of the old-fashioned ideas have been discarded for the new results of science. Ninety per cent of all constitutional diseases originates in the large intestine. Dr. Phillips method of treatment are based upon the most advanced technique—without surgery, confinement or loss of time from work or business.

Dr. Phillips' practice is not confined to his home city but many people from the surrounding territory consult him weekly and the work he is doing in the relief of the suffering is phenomenal. Exceptional accommodations are made for out-of-town patients. Dr. Phillips' patients come from the very best class of people—people of standing in the community in which they live.

We are pleased in this review to compliment Dr. Phillips upon the merited success he is making and upon his excellent standing in the professional world and assure our readers at his office they will receive the very best examination and treatment.

CROWN MILLS

Located at 353 Oak St., in Portland, are Large Buyers of Grain and All-Red Lines, Paying the Top of the Market at All Times: Featuring "Crown Flour" Which has met with Universal Popularity Because of Uniform Good Quality.

The city that provides the farmers in the surrounding country with a market for their grain is the one that will attain the greatest measure of popularity and prosperity. The fact that the Crown Mills pays the highest market prices at all times brings thousands of dollars' worth of business to Portland and vicinity and aids in no small degree in making a live and prosperous city.

They maintain a modern mill in which the popular Crown Brand of Flour is manufactured and its uniform good quality makes it genuinely popular with housewives.

The Crown Mills are modernly equipped with the latest milling devices for the production of the best flour. Every known precaution is taken and the flour they produce is without a peer.

The Crown Mills have recently completed a new \$100,000 feed plant and they are offering to the Poultry

raiser and Dairymen of this territory Feeds of the highest nutritive values. Their line of feeds are equal in quality to their Crown Flour.

In this review of our industrial progress it is essential that prominent mention be made of this enterprise, which has been one of the vital factors in the development of this section. The Crown Mills has stood as a commercial barometer in the community for many years. As quite a great deal of their business is transacted out of the county, one might think that such a concern would take little interest in the affairs of Portland and Oregon. The years have proven, however, it is one of the most important features in local commercial affairs and that its management is at all times actively interested in the progress of Portland and vicinity. The Crown mills have for a long time operate on a 24 hour day basis and their pay roll means much to the territory.

MANY CANDIDATES FOR DIFFERENT OFFICES

Drive a Chevrolet Six!

—so Delightful to Drive!
The Chevrolet Six delivers its power with that smooth, even, velvety flow which characterizes the truly fine automobile. At every speed, you travel without the slightest annoyance from vibration. Equally delightful are its comfort and handling ease. Four long semi-elliptic shock absorber springs provide the road balance found in the finest cars. And the steering gear is equipped throughout with friction-free ball bearings.

—so Economical to Own!
Many people still do not appreciate how little it costs to own a Chevrolet Six. You can actually secure a Chevrolet Six for practically the same cash and monthly payments you would expect to make for any low-priced car. Furthermore, it is unusually economical to operate—better than 20 miles to the gallon of gasoline, with unusually low oil consumption. Come in for a demonstration today!

—so Durable and Dependable!
The Chevrolet Six is built to the world's highest standards. Its design represents more than four years' development and testing. Materials are carefully selected. Highly skilled workmen perform every manufacturing operation. And inspection is rigorous and continuous. The result is quality so high that you can confidently look forward to thousands upon thousands of care-free, dependable miles!
