FOOT STOPPED

PAINS INSTANTLY

No more tired, aching or burning feet. Aches and pains in the heel, instep or forward part of the foot as well as the ankle, calf or knee quickly disappear.

Cramped toes and callouses are promptly relieved. Dull aches in the calf of the leg, knee or thigh are quickly overcome. Shoes cease to feel uncomfortable. That tired, broken-down feeling vanishes.

Investigate our method of foot correction, it is different.

Your child is probably getting enough sleep if he is well grown, has firm muscles, rounded outlines, erect posture, rosy skin, clear eyes, with no circles under them, a happy disposition and a good appetite.

The chirp of the cricket is sup- posed to be cheerful, but the pleas- ure is all theirs when they are spend- ing a merry winter in the closet eating holes in your best clothes. To get rid of them, dissolve one tablet of bichloride of mercury in ½ cup of water, add ½ cup of flour and stir into a paste, into which mix a piece of bama skin. Spread small quantities on cardboard and place about the room. This is poi- son, and must never be left where children or pets can get it.

The old idea that a week of agony is necessary to "break in" a new pair of shoes is passe. The modern way is to have the shoes fit cor- rectly in the beginning.

A reliable shoe salesman fits the shoes with the entire weight of the body on the feet, as the feet are at their largest while you are standing. There should be a good half-inch of empty space beyond your toes, and more if the toes are pointed, says clothing specialists of Oregon State college.

Members of the family probably have healthy coats of tan to remind them of the summer camping trip, but mother has something else—some dirty quilts. Soak them half an hour or so in a generous suds made of pure soap and warm water, says the home economics department of Oregon State college. Sousing and squeezing in fresh suds will remove the rest of the dirt. Don't rub them. Rinse them in two more waters of the same temperature and hang

Your child is probably getting enough sleep if he is well grown, has firm muscles, rounded outlines, erect posture, rosy skin, clear eyes, with no circles under them, a happy disposition and a good appetite.

The chirp of the cricket is sup- posed to be cheerful, but the pleas- ure is all theirs when they are spend- ing a merry winter in the closet eating holes in your best clothes. To get rid of them, dissolve one tablet of bichloride of mercury in ½ cup of water, add ½ cup of flour and stir into a paste, into which mix a piece of bama skin. Spread small quantities on cardboard and place about the room. This is poi- son, and must never be left where children or pets can get it.

The old idea that a week of agony is necessary to "break in" a new pair of shoes is passe. The modern way is to have the shoes fit cor- rectly in the beginning.

A reliable shoe salesman fits the shoes with the entire weight of the body on the feet, as the feet are at their largest while you are standing. There should be a good half-inch of empty space beyond your toes, and more if the toes are pointed, says clothing specialists of Oregon State college.

Members of the family probably have healthy coats of tan to remind them of the summer camping trip, but mother has something else—some dirty quilts. Soak them half an hour or so in a generous suds made of pure soap and warm water, says the home economics department of Oregon State college. Sousing and squeezing in fresh suds will remove the rest of the dirt. Don't rub them. Rinse them in two more waters of the same temperature and hang
