Geo. H. Burr Conrad & Broom, Inc.

With Offices at 86 6th St., Portland, Maintain a Large Organization Developed to Give Trained Counsel and Complete Service in all Matters Pertaining to Investment Securities, Serving a Large Clientele in the Entire Northwest.

Individuals can look to Geo. H. Burr, Conrad & Broom, Inc., for help as to the most desirable bonds, for the disposal of the bonds they now own, for information relative to issues in which they are interested, or for any service which long experience and complete facilities enables them to render.

Investment advice like legal advice, should be based on a study of each individual case. Before Geo. H. Burr, Conrad & Broom, Inc., of any of its representatives sell a bond to a client, they endeavor to make sure that the investment is best suited to that individual requirements.

Not so many years ago bonds were almost unknown among investors. Old wealthy New England and New York families, banks and insurance companies, had been buying them for generations because they knew they were the safest and most convenient of all investments. But their sale was confined almost entirely to the wealthy men and women and to the large institutions. For many years they were strictly a "rich man's investment."

The bond idea gradually worked westward and as it came west it grew from a mere idea into a definite

plan among the sellers of bonds to let all the people know what a few had known for years, that of all forms of investment none was better than bonds.

It is no longer necessary for an investor to have \$1000.00 saved before he can invest in a good bond. \$500.00 an \$100.00 bonds are issued and sold in large numbers. A few years ago the man who bought bonds was the exception. Today it would be hard to say just who are bond buyers because every class, age and condition of people invest in these most safe and popular investments.

We wish to compliment Geo. H. Burr, Conrad & Broom, Inc., upon the very valued service they are rendering the public and wish to say that this service is most essential and is rendered in an efficient and conscientious manner. Factory Motor Car Co.

Located at 14th and Everett sts., in Portland, is one of the Most Modern Machine Shops in this Section, Specializing in Cylinder Grinding, Crankshaft Grinding, and Trueing.

It is a well known fact that there is no institution in the community that has met with greater favor with the motoring public than this well-known establishment. By reason of the fact that the management has had wide experience in every feature of the machine shop business and knowledge of every branch of the trade, this establishment has continued to witness the increase in the number of patrons.

By close microscopic examination it has been found that grinding of cylinders is far better than reaming. What is cylinder grinding? It is a highly perfected method of making cylinders round. Regrinding cylinders has a desirable effect on the power, in that it restores the motor to its normal condition. A regrinding job gives the owner a seasoned motor not obtainable in a new car or tractor. Reground cylinders are better than new ones, not just as good.

The leading auto, tractor and commercial car manufacturers of this country and Europe use the process. To prevent the loss of power, to

have gasoline economy, and a quiet humming motor is the aim and desire of every owner of a car. The engine is the heart of the automobile and when it gets out of trim it requires work of a specialist. Many garages and shops are not equipped mechanically and do not employ men except for adjustment of cars. The Factory Motor Car Co. has able automotive engineers with ears and eyes able to detect all knocks and causes of trouble.

Motor engineers are employed at The Factory Motor Car Co. who understand all types of motors from the simple one-cylinder stationary engine to the four-cylinder, the six eight and twelve, and no matter what kind of a motor you have, you will find that when it goes out of this shop it will be sparking on all cylinders.
