Joy the Tailor

Whose Main Shop at 104 4th St., in Portland and with 12 Others Shops in Portland have Very Modern Tailor Shops and Features High Grade Clothes—They enjoy a Large Patronage from a Wide Territory.

In these days when prices are so high it behoves every man to see that he is getting the greatest returns for his money when he invests in a new suit. The modern tailor is indispensable to any community. That is why we are glad to refer you to Joy the Tailor, who always take a great interest in every suit they make and stands behind their garments to the limit.

These shops afford the men in this and surrounding sections an opportunity to get suits and overcoats that are distinctive in fit, style and workmanship. Here the individuality, which all men seek and so few find, is easily obtainable and at prices that are most consistent in comparison with other garments that are offered, but do not give the wearer all he likes.

A specialty is always made of seeing that your suit fits you properly, and even though you be out of proportion in some ways, yet if Joy's expert cutters and fitters designs and fits your suit you will be surprised at the results they obtain.

The proprietor is a prominent business man and it is a pleasure for him to meet all old customers and show new ones his establishments and what they have to offer.

He is always connected with propositions that are for the good of the community and in this edition we are glad to give him the place he deserves in the business life of this section.

This popular tailor has always made it his policy to give the patrons full value for their money. The new fall and winter patterns are in and the new quality is higher than it has been for several years. With the increase in quality of the cloth the price has been reduced and the workmanship improved in suits for less money than at any time in the past years.

Joy the Tailor has a cleaning plant that has been equipped with the latest machinery so that they can handle all classes of dry cleaning in the most satisfactory manner. Every garment left with them is given their best attention and this fact has caused them to build a reputation that covers a wide territory. No work is too difficult to handle and they make a specialty of ladies' garments, while they also have a list of men for whom they do work that includes men who realize that proper cleaning of suits and overcoats will mean longer life in addition to give prompt attention to parcel post business.

Notice of Final Settlement

Notice is Hereby Given that John Huber, the duly appointed, qualified and acting Administrator of the Estate of Martina Huber, deceased, has filed his Final Account in the County Court of the State of Oregon for Washington County, and that said Court has fixed Tuesday, the 14th day of January, A. D. 1930, at ten o'clock A. M. in the forenoon of said day in the County Court Room in the County Court House in the City of Hillsboro, Washington County, Oregon, as the time and place for hearing said Final Account and all objections thereto and for the Final Settlement of said Estate.

Dated this 11th day of December, A. D. 1929.

JOHN HUBER, Administrator of the Estate of Martina Huber, Deceased.

Wm. Bernard Creitz, Attorney for Administrator. Post office address 411 Abington Bldg., Portland Oregon.

Durant Official Speaks Over Radio

Since Norman deVaux, president and general manager of the Durant Motor Company of California, returned from a 10-day conference with sales and production executives of the eastern Durant organization in Detroit, he has been receiving the congratulations of many of the outstanding industrial leaders of the Pacific Coast on his talk which he broadcast over the network of the National Broadcasting company while in Detroit.

It was while he was conferring with eastern Durant officials and arranging for the 1930 manufacturing and merchandising program that he was invited to speak over the network.

The western motor car executive's radio message of progress and prosperity swept the nation from the Atlantic to the Pacific Coast and from the Canadian line to the Rio Grande. While he paid a high tribute to the group of executives who are responsible for placing Durant in the enviable position it now occupies in the east, DeVaux did not hesitate to tell of the great success this product has made in the vast territory west of the Rockies, under the jurisdiction of the western Durant factory.

J. L. Turner drove to Hillsboro Monday to visit with his brother-in-law, Fred Stansell, who is confined to a hospital with a broken arm. The injured man was injured while working in a logging camp near North Plains.

Tigard to Decorate Christmas Tree

A number of the merchants of Tigard have united in an attempt to decorate a municipal Christmas tree. According to present plans, the tree is to be set up in the lot just south of the Johnson Building, on Main street. The tree will be procured and trucked to the place of decoration by the Tigard Lumber Company and the tenants of the Johnson building have agreed to set the tree in place. Decorations will be supplied by various local merchants, and the "juice" for the lights will be donated by the electric company.

TURKEY GIVEN AWAY WITH EACH CAR PURCHASED

Many people do not realize that the automobile merchant is compelled to sell one or more used cars such a condition confronts us when he sells a new car, but this is true, according to the observation of Charles C. Casey, general manager of the Portland Motor Company.

This concern distributes Hudson and Essex cars for the Oregon territory and in the process of selling thousands of these makes of cars,

finds itself in possession of just as many and sometimes more, used automobiles, which in turn have to be sold.

"The situation is just this" said Mr. Casey recently. "If the used cars fail to sell, we have to take steps to move them for if they remain on our hands, they tie up capital, cost money for storage insurance etc., and retards new car sales."

disregard former cost to us and cut prices. It is better to give the customer the benefit and move the cars than to sustain a like loss and probably more by keeping them longer in our stock.

At this time of the year, after a full summer season of big sales we find our inventory of used cars is topheavy, hence our determination to move them.

In addition we have made arrangements with a prominent firm of produce merchants to supply us with turkeys of the very finest quality and we will give one each to every buyer of a used car between now and Christmas, if they present or mention the display advertisement in this issue, where we quote a few special prices as samples. As the firm is old and well known for its square dealings, the buyer of a used car from us is sure of satisfaction".
