The Sathers family of Eastern Oregon spent the weekend with his brother, Ernest Sathers.
C. F. Williams is building a barn on his property in the Wilshire Acres.

HAIR DRESSING ACCORDING TO TYPE

Darwin Jones of the French Beauty Shoppe in Portland has spent many years studying the various modes of hair dressing most suitable to different types.
A study of the contour of the head and features enables Mr. Jones to suggest the best method of cutting the hair and waving, which will prove the most attractive, and his method is being received with delight by numbers of enthusiastic ladies.
Recently Mr. Jones installed a new permanent wave machine of the latest type, which is proving a remarkable success—giving a wave which brings words of praise for its naturalness.

The Advertisements in this paper have been passed by the highest authority—the buying public.

NEW DE LUXE CHAIR CARS

but still—**\$24** Portland to Los Angeles

Here is an unusual opportunity to save money. This ticket is good for travel on day coaches and in tourist sleeping cars. Take advantage of this low fare and plan your trip to Los Angeles now.

Enjoy Greater Speed and Comfort

Reclining chairs in day coaches provide maximum comfort. There's always plenty of room on the train to rest and walk about. Tourist sleepers give still greater comfort, yet they are economical. You save time, too.

\$15 Portland to San Francisco

Victoriously Proved

... in performance, economy and value

during ESSEX Challenger week

SAFETY

Essex four-wheel brakes are far more efficient than required by law. In tests supervised by the police department, with newspaper men as observers, a new Essex performed as follows:

Essex Running at—	Stopped at—	Law Says You Should Stop—
20 miles an hour	15 feet 7 inches	22 feet 2 inches
25 miles an hour	20 feet	34 feet 7 inches
30 miles an hour	27 feet 4 inches	50 feet
35 miles an hour	39 feet 3 inches	68 feet 2 inches

ACCELERATION—FAST GET AWAY

Essex starting and ending in high gear reached 100 feet in 7 seconds.
Essex starting and ending in second gear reached 100 feet in 5 seconds.
Essex starting and ending in low gear reached 100 feet in 6 seconds.

POWER—RELIABILITY

Stock Essex reached half-way mark on grade of 35 per cent on Rocky Butte, the sensational motorcycle hill climb. This record with little traction because of grass-covered muddy ground.

ECONOMY

Essex averaged 26.05 miles to gallon in run from Grants Pass to Galice—over almost impassable mountain roads.

Prove What Every Essex Can Do

Come take a ride yourself. Know by personal experience what this brilliant New Essex Challenger can do. Its exploits of Challenger Week have swept the country. Essex owners led the demonstration. They were so widely followed and aided by public participation that we are continuing the invitation to Ride—Ride—Ride!

Every locality now knows Essex for the accomplishment of some great feat. Hills seldom attempted in any car

were climbed by Essex in high gear. Remarkable economy proofs were established. New acceleration marks were made.

Most important of all—Challenger Week convinced motorists everywhere that Essex represents the greatest dollar for dollar value in car satisfaction that the industry offers. We will gladly give you a personal demonstration of any of these proofs which Essex has established.
