It's wise to choose a SIX!

It is wise to choose a six-cylinder motor—the only way to get six-cylinder smoothness. Six-cylinder smoothness takes out vibration and roughness. This saves motor, chassis, body, passengers, and driver.

The Chevrolet is a six. Yet it sells at a price that anyone can afford to pay. And it lasts longer, because of fine materials, oversize parts and a big, smooth, 50-horsepower six-cylinder engine that always "takes it easy."

With all its six-cylinder smoothness and power the New Chevrolet Six saves gasoline and oil, through modern efficiency—overhead valves—high compression power—latest carburetor—long-wearing pistons—crankcase ventilation—air cleaner. Thus Chevrolet brings truly modern transportation within reach of all who can afford any car. Chevrolet economy also means sincerity in manufacture. To illustrate:

Chevrolet valves are adjustable—to save replacing. Chevrolet molded brakelining greatly reduces brake upkeep. The rear axle inspection plate on the Chevrolet means accessibility.

The whole car is full of such evidence that true economy comes from advancement and refinement. There are four extra-long, chrome-vanadium springs controlled

by hydraulic shock absorbers. They are mounted lengthwise, in the direction of car travel, with self-adjusting spring shackles to maintain quiet.

Modern low suspension and extra wheelbase give the Chevrolet Six good proportions. The front view is distinguished by the honeycomb radiator. The gasoline tank is at the rear for safety and finer appearance.

Chevrolet beauty instantly says "Body by Fisher"—style, quiet, safety—Fisher composite steel-and-wood construction—non-glare windshield—adjustable driver's seat—deeper cushions—greater leg room—clearer vision—finer fabrics and fittings.

There is just as much extra value throughout. BY ANY STANDARD the Chevrolet Six is the wisest choice in the low-price field . . . with its six-cylinder valve-in-head motor . . . with full scientific equipment . . . with Body by Fisher . . . with four long semi-elliptic springs, long wheelbase, low suspension, rear-mounted gasoline tank, honeycomb radiator and all the other features of this day and age.

ROADSTER OR PHAETON See your nearest Chevrolet dealer today and drive this six. Ten minutes at the wheel will show you what a difference six cylinders make.

CALL FOR BONDS.

NOTICE IS HEREBY GIVEN THAT the Town of Beaverton will redeem the following local improvement bonds as follows:

Bond No. 2 of Local Improvement district No. 9, issued on January 15, 1925, and Bond No. 3, of Local Improvement District No. 10, issued October 1, 1925.

The above described bonds will be paid by the Town of Beaverton on presentation at the Bank of Beaverton or at the Fiscal Agency of the State of Oregon in New York City, on the first day of May 1930, and after this date interest on each and every one of the bonds hereby called shall cease.

Given under my hand and seal this ninth day of April, 1930.

Otto Erickson, Mayor.

Frank J. Dietsch, Recorder-Treasurer

The Better Plate

ITECO

ITECO—the newest development in dentistry—is the ideal and only known material which assures a life-like reproduction of the natural gums.

Self-consciousness and embarrassment suffered by countless people because of the artificial appearance of dentures is absolutely unnecessary with the discovery of ITECO.

I can fit you correctly and satisfactorily with ITECO plates. Drop in and let me explain more fully to you.

Your teeth out in the morning, no home at night with new ones.

I specialize in bridges, inlays and extracting teeth without pain.

The courtesy of a charge account is extended to responsible parties.
