While digging for a water main, a part of the water system of the city of Pompeii, Italy, which was buried beneath lava from Mt. Vesuvius, 1,800 years ago, was uncovered by a workman. Further excavations revealed the entire system which consisted of an artesian well 110 feet deep from which pipes led in every direction throughout the ancient city. Water, to the depth of 30 feet was still in the well.

Unclean persons found on the streets of Mexico City Mexico, are arrested.
