CHURCH OF CHRIST

REV. G. W. SPRINGER, Pastor
The winter months are over and

the Sunday School far exceeded the goal of attendance set for these months. The total attendance for the entire school was 79 while the average attendance passed the hundred mark. This is a record to be proud of. Now that the contest is over don't let the interest die down but with the Spring months and Easter very near, let us all boost the attendance record over the top. In the class contest between the lady's and men's classes the ladies are several points ahead. There were twenty-seven present in that class last Sunday. Mr. Harris is to

be complimented on the splendid manner in which he has been conducting the Sunday School recently. Next Sunday morning the sermon topic will be "Two Ways of Living." The evening topic will be "God Almighty." There was an addition last Sunday evening and will be baptismal services next Sunday evening.

FORD COMFORT

Every new Ford is equipped with four Houdaille double-acting hydraulic shock absorbers

ONE of the fine things about driving the new Ford is the way it takes you over the miles without strain or fatigue. No matter how long the trip, you know it will bring you safely, quickly, comfortably to the journey's end.

The seats are generously wide, deeply cushioned and carefully designed to conform to the curves of the body. Every new Ford has specially designed springs and four Houdaille double-acting hydraulic shock absorbers. These work both ways—up and down. They absorb the force of road shocks and also provide a cushion against the rebound of the springs.

Other features that make the new Ford a value far above the price are the Triplex shatter-proof glass windshield, silent, fully enclosed four-wheel brakes, more than twenty ball and roller bearings, extensive use of fine steel forgings, aluminum pistons, chrome silicon alloy valves, torque-tube drive, Rustless Steel and unusual accuracy in manufacturing.

In addition, you save many dollars because of the low first cost of the new Ford, low cost of operation and up-keep, and low yearly depreciation.

Performance, too, proves Chevrolet the Great American Value

The new Chevrolet Six is a fine performer. It maintains high road speeds at a low, easy-working engine speed. Its 50-horsepower engine operates with unsurpassed economy. Six cylinders enable you to creep along, accelerate, climb hills, go fast—and do it all smoothly, quietly—with little shifting of gears. Step into a Chevrolet and drive. Let performance, too, prove Chevrolet the Great American Value.
