About "Good" Parents and "Bad" Children

Very often when bad boys or girls are discussed we hear some one in the crowd remark "and he had such good parents." I sometimes wonder if most of them did have such good parents and if so just exactly what we mean by that.

Some people think that mothers and fathers are "good to their children when they give them everything they want, whereas that is very often about the worst thing they can do for them. Nothing tends to make children so selfish or such law breakers as to give them everything they desire or to let them always do as they please. It is very poor training for them when they begin to battle the world and have to learn to give up to other people after they have become accustomed to having their own way for so long a time.

And then there is the parent who absolutely does all of the thinking for her children. She fights all

their battles and arranges all of their social affairs. They are helpless without her. Other folks think of her as a wonderful mother but on the contrary she does her children unmeasurable harm by teaching them to be dependent on other folks and not to be able to look out for themselves.

A great majority of the young law breakers do have mothers and fathers who have neglected them—who have not cared enough about them to train them properly or love them enough to make fine men and women of them.

But these "good" parents of bad children are usually not so good but rather indulgent, spineless or misguided. A great many of them would like to be good but are just too lazy to require obedience and good behavior. To do this may take much patience and trouble right at first but it pays great dividends in the end.

Yours,  
LOUISA

### Freight Increase O. K'd.

Salem, Jan. 8—Increases in railroad rates between points in the state of Oregon were allowed by Judge Charles M. Thomas public utilities commissioner.

The new rates to go into effect January 4 contemporaneously with increases ordered by the interstate commerce commission.

Commissioner Thomas' order does not provide increases for wheat, flour, grain, hay, apples, potatoes, livestock, fuel wood, railroad ties, berries and grapes.

It does present increases of 6 cents a ton for commodity rates on ores, gravel, and sand, mine products, pulp wood; 12 cents a ton on poles and pilings, lumber, lath, shingles, boxing, crates, coopers material and 20 cents a ton on citrus fruit, cantaloupes, melons, cab-

bage, onions, tomatoes, fresh fruit and vegetables, dried and evaporated.

### Laughable in the Extreme

Isn't it funny  
That some business men  
Will get up in the morning  
Shave with an advertised razor  
And advertised soap  
Put on advertised underwear  
Seat themselves at the table  
And eat advertised breakfast food  
Drink advertised coffee or substitutes  
Put on an advertised hat  
Light an advertised cigar  
Go to their places of business in an advertised car  
And turn down an advertised proposition  
On the ground that  
Advertising doesn't pay?

## Perfection Bedding Co.

Located at 273, 3rd St., and 1045 Division St., Portland, Oregon, They are Manufacturers of High Grade Mattresses and Feature a Complete Renovating Service. Phone ATwater 4842.

There is no company more worthy of extended mention in this review than this well known concern.

Under direction of men thoroughly conversant with every feature of the business, it is not strange that it has become one of the most important industrial assets of the community.

In the mattress department they are prepared for the manufacture and will make to order any kind of a mattress you desire. They have a large trade in this department as they excel in the making of some of the finest mattresses of the day. They can duplicate anything you may have or build one to suit your special liking. Renovating by the most sanitary and modern process is also a feature of this department.

To the public they wish to explain the way they use the word Renovate and what they mean by it. They mean by "Renovate" to make new and sanitary your old bedding and "not just slip on a new tick" but put your own stock through a modern process, which gives you quality and a new product appearance at a

great saving. They can take your old bedding, any condition, and do this for you.

Real value at the most reasonable price possible has been the guiding influence and it has brought them trade from all the surrounding territory.

The management are men of practical experience in this business. They are thoroughly conversant with its every detail and are considered authority in all that pertains to the operation of a modern mattress company. They are of the foremost business men of the city and have aided in the development of this section.

We wish to compliment this firm and management upon the admirable manner in which the business of this valued institution is operated; upon its progressive and public spirited policies. We wish to refer the Perfection Bedding Co. to our readers as one of the distinctive features of the state and as headquarters for high grade mattresses. They call for and deliver the same day.

## Dr. B. E. Wright

Portland's Popular Priced Dental Office in the Raleigh Building, 327 Washington St., Phone AT. 1595

In extraction work he features the painless methods which eliminates all pain. His advice is always save your teeth if you possibly can. However if you have any teeth that should be extracted you should not hesitate.

It frequently happens that one suffers with ill health for a long time one doctor after another tried trips to health springs are made without avail and a single visit to the dentist will reveal the difficulty. It is well known that many people whose teeth look perfect are often the victims of hidden poison from the teeth that fears down health and shatters nerves. Just because your teeth do not hurt you is no reason you should neglect them. Tooth decay never makes itself known until after it has started. The sensible and economical thing to do is to have your teeth examined every six months or year and if there is a decay or some other imperfection it

can be immediately corrected and will eventually save an extraction or an expensive filling.

He is a specialist in making plates, bridges, crowns, and inserting fillings. When you have a plate or bridge made you want it to fit comfortably and naturally and you do not want to return again and again to your dentist with a complaint of unsatisfactory work. When you have your work done here you can rest assured you will receive the best service possible and the personal interest in each and every patron extends so far that you are given individual attention whether you are having a single tooth filled or work gone that extends over a period of months. Long experience in his profession fits him admirably for any dental work he is called upon to do.

We are very glad to recommend this dentist to all of our readers and are certain you will be highly satisfied with the services.
