The Commonwealth Trust and Title Co. has attained a well merited reputation as being one of the most efficient and well-versed organizations in this special field of endeavor in this section of the state, and they have a large clientele. In the first days of the settlement of all communities the question of a title of property always causes a certain amount of confusion. While this community has its inuring at this feature of settlement, today this has all been done away with through the efficient service of modern abstract and title insurance companies that specialize in this business. They have at their command all of the data and information on the various tracts of land from the early days down to the present time.

With access to all information at hand this organization has placed the practical operation of the concern in able and competent hands. These people are peculiarly endowed with the analysis and caretaking attainments that render them safe and

conservative in making up their abstracts and issuing title insurance policies. There is no detail that is not given the most painstaking attention, while the history of their business operation shows that they have always been so. People desiring to purchase a home can consult no more competent and reliable authority upon the title of their proposed purchases than the Commonwealth Trust & Title Co., which is one of the foremost concerns of this character and get title insurance.

In making this review of the on-ward progress in this section we wish to recommend the Commonwealth Trust & Title Co. to all our readers when they may be in need of service of the highest character. They are well known and reliable business men and progressive people upon whose information advice and service you can depend and they are loyal supporters of all propositions that promote the progress and expansion of the city and county.

REAL ESTATE

Offices in the Title & Trust Bldg., 89 4th Street, Portland, Oregon

This is headquarters for anything in the real estate line and also enjoys the patronage and confidence from all surrounding territory.

In this day and age when conservative men are constantly seeking investments where they are not only assured a permanent source of income but a reasonable certainty of increasing in value, the real estate dealer is doing more than his share to meet the demands of such men. This locality is indeed fortunate in having in its midst such a firm as this well known agency.

This institution has been closely identified with the growth and expansion of this section and has made a close study of real estate conditions so that they could offer both the buying and selling public the very best service. They have on their books a large list of most de-

sirable properties for sale, both town and country at prices that cannot fail to be attractive to the intending purchaser, and have made many important deals in this section.

This place has made it a point not to list property for sale for more than its value, this is where their close study of local conditions renders them an authority on values. In all transactions their word is as good as their bond, and people have come to look for them when seeking a desirable medium through which they may dispose of their property.

We take pleasure in this review in referring this up-to-date place to all our readers and assure them when ever they have property of any kind to offer they can locate the best buyer by listing their property with them. Such men as these aid materially in the growth and expansion of the entire community.

The science of chiropractic is founded upon the principal of spinal adjustments, as the spine is the index to your health and removes causes by relieving pressure on the nerves, according to Dr. LaValley.

The slogan is: "If the spine is right the man is right."

Griffin's Cafeteria is fortunate in having at its head a man who knows the cafeteria field and who is rapidly making it the leading cafeteria in this section.

This cafeteria is a center for autoists, the local and the traveling public and has taken a prominent place in the social and business life of this section.

Mr. Griffin personally sees that the people of this part of the country are not only given the healthiest of foods but also that the best of service is always given regardless of the size of the order. They have provided the very latest of equipment in the kitchen and everything is in the best of condition and appetizing when served to the guests. Here you walk past the most appetizing of dishes and you can make your own selection of foods and get just exactly what you want.

The fact that everyone leaves with a smile is an indication of the satisfaction obtained from pure food, good and accommodating service.

It is appointed most excellently, the ventilating and lighting arrangements are the best that can be secured and all sanitary precautions are taken for the health of the people. Here amidst comfortable surroundings you enjoy your food and while the service is rapid for those desiring it, yet there is no indication of hurry and you are given all the time desired.
