

# APPEAL MADE FOR DONATIONS TO STUDENT LOAN FUND

University of Oregon, Eugene, Feb. 5.—Many worthy students of the University of Oregon will be forced to leave school this term, and many others will not be able to return next term unless generous-minded citizens of the state add to the student loan fund here. A direct appeal for gifts to aid this fund was issued today by Dr. Arnold Bennett Hall, university president, when informed by Virgil D. Earl that the loan fund would be exhausted before the end of the term.

This year, due to economic conditions, it has been hard for students to find work during the school year, while many were unable to earn substantial sums last summer. As a result the available loan funds on hand have been exhausted early each term. During the term just past the number of students forced to leave school because of finances was 72, while already 12 have left

this term, which is but three weeks old. Since the opening of school this year a total of \$11,510 has been loaned to 89 students, the average loan being \$129.00. With funds on hand and estimated collections, it is estimated that \$4,495 will be available during the next few weeks. Of this amount loans in transit and applications total \$4,400, leaving but \$90 available for students who have not yet made their needs known, it is stated.

"At this time it is particularly desirable that students be kept in the university if it is at all possible," Dr. Hall said. "It is difficult for them to find employment elsewhere, and furthermore, should they go out and get jobs, they would be taking positions badly needed by men who have dependents to support. It is also much better for students not to have their studies interrupted in the middle of the year, for it will make it much harder for them to return later and pick up where they have left off. For these reasons I want to appeal to the people of Oregon who have some funds on hand to donate it to

## Copeland Lumber Co.

Located at Multnomah, Have a Large Stock of Lumber and Building Supplies of Every Description—Is Building Supplies Headquarters—They Will be Glad to Talk Over Your Building Needs with You and Submit An Estimate—Under the Able Management of R. E. Banton. Phone ATwater 1935.

With a vision of a greater community always in mind this popular firm which operates one of the best lumber and supply establishments in this section of the state has become an important factor in the development of this section.

While it has ever been their object to obtain a fair and honest profit from their extensive dealing in lumber and building material, the guiding influence of this company has always been the determination to furnish the highest grade goods at prices so reasonable that the extension and beautification of the town and community could progress rapidly and in great leaps and bounds.

There is no establishment in this section that has a greater influence for the better upon the building industry. Many contractors have come to know that whatever they desire in the line carried can be secured from this firm with a knowledge that it will be the highest grade consistent with the price.

Lumber and builders' supplies of excellent quality are furnished by this progressive firm. By purchasing to advantage when the market is right and employing only the most experienced help they are able to offer the high grade of

goods at prices so reasonable as to encourage the beautification and extension of homes and enterprises.

In the way of all kinds of builders' supplies they have very complete lines that are secured direct from the factory in car load lots and which are sold at low prices consistent with the quality.

They keep right abreast of the times in the trade and secure the distribution of all new products that have been tried and found satisfactory in the way of everything in the supplies.

They are at all times pleased to be of practical assistance to home-builders. They invite you to talk over with them your building problems—their long building experience enables them to furnish useful information and sound counsel.

The Copeland Lumber Company has grown with the community. They always give the best of service and their large trucks can be seen all over this part of the state in the delivery of orders. Just phone them and the material will be on the job and no one will lose any time as they pay particular attention to this feature of the service.

this cause and send it to us to add to this sadly depleted loan fund.

Students who borrow from the loan fund are required to furnish signatures of two responsible persons, and pay for the use of the money at the rate of six per cent. Borrowers have been unusually reliable and prompt in repayment of funds, and no money has ever been lost on these notes issued to students, it is stated. The student

## 4th Oregon Man Wins Automobile

WILLIAM H. SAUB, 442 Almsworth Avenue, Portland, has been notified that he won the 1931 automobile in the daily nation-wide Cremo contest announced each week-day night over the Columbia network. He is the fourth in Oregon to win an automobile in this contest. Mr. Saub is 42 years old and was born in Portland. He is employed in a shoe factory, is married and has a ten-year-old daughter. He has the choice of a Ford, Chevrolet or Plymouth automobile as a reward for writing his winning statement.

Medical Arts Pharmacy is one of the most popular stores in Portland

The prescription department is under able management and the most careful attention is given to this end of the business, for all branches of a drug store this is one of the most important because of the fact that the lives of many people are dependent on the compounds.

They have a full line of drugs, chemicals, druggists sundries and practically every proprietary medicine known. These are all secured from the best houses and are pure and tested. The fact that the management had a thorough training in the profession makes them careful in the filling of all prescriptions to see that the compounding is correctly done. Proper directions are attached and everything is highly recommended by the

physicians and well patronized by people from miles around.

The first requisite of any successful business must be courtesy, then quality at the right price must be offered. This has been the above firm's policy. They have directed their efforts to the end that their store might be the headquarters for anything in the apothecary line.

Every department of the Medical Arts Pharmacy is most complete and the wants of the people are taken care of in a manner that is to be commended by all who have had business dealings with them.

We feature a 14 number full course breakfast for 25c 35c full course lunch is served all day 11 a. m. to 9 p. m. Special full course dinners 50c

## "PIE-NAPPLES"

"OTHER, may I have a pip-pip...?" lisped the little girl excitedly. "Perhaps, dear, if you'll tell me what it is."

"A pip-pip-pip..." "Are you pretending to be a little bird?"

"No, mother. A pip-pip-pip..." "Spell it, dear."

"Pie-napple" "That doesn't spell anything."

"Yet it doth, mother," lisped the little girl, her tongue finally loosened. "It spell pie made out of pineapple."

There are many pies made out of pineapple from which this little girl's mother might choose. Here are the recipes for some of them.

### With Other Fruits

**Pineapple-Cranberry Crisscross Pie:** Cook one cup cranberries, one-half cup seeded raisins and one-half cup water until the berries burst open. Add two-thirds cup sugar, the contents of one 8-ounce can of crushed Hawaiian pineapple, two tablespoons bread crumbs and one slightly-beaten egg. Pour into a pastry-lined pie tin, and lay narrow strips of pastry over the top, crisscross fashion. Bake in a hot, 450° oven for twenty or twenty-five minutes. This makes one large pie.

**Pineapple-Lemon Souffle Pie:** Add the juice and grated rind of two lemons to one-fourth cup water and the contents of one 8-ounce can of crushed pineapple, heat to boiling, and add three-eighths cup sugar mixed with two tablespoons corn-

starch. Cook until thick in a double boiler, add two slightly-beaten egg yolks (first heating eggs by adding a little of the hot mixture) and cook a few minutes longer. Cool slightly. Beat two egg whites stiff, add four tablespoons sugar, and fold into the first mixture. Pour into a baked pie crust and place in a slow, 300° oven for fifteen minutes, or until set and brown on top. One large pie.

### With Crackers and Milk

**Pineapple Pie in Graham Cracker Crusts:** Melt one-half cup butter, add one-half cup brown sugar, and cook for a minute. Add one and one-half cups graham cracker crumbs. Take out two tablespoons of crumbs for the top and to the rest add one beaten egg white. Press mixture into a large pie tin using fingers dusted with flour, until it fits like pastry. Fill with filling given below, sprinkle with the reserved crumbs, and bake in a moderate, 350° oven for fifteen to twenty minutes, or till set. One large pie.

**Filling:** Beat four egg yolks, add one cup condensed milk, then the contents of an 8-ounce can of crushed Hawaiian pineapple, slightly drained. Add three tablespoons lemon juice and a little grated rind, and fold in three stiffly-beaten whites.

**Pineapple Caramel Pie:** Make caramelized milk by boiling a can of condensed milk in water for two hours. It can then be kept for weeks. If too thick, simply add a

few drops of cream. Spread three-fourths cup of this caramel over the bottom of one large baked pastry shell, lay in the drained contents of two 8-ounce cans of pineapple tidbits, and pile sweetened whipped cream thickly on top. Sprinkle chopped nuts over all. One large pie.

### Envelopes and Tarts

**Pineapple-Raspberry Envelopes:** Cook together until thick the contents of an 8-ounce can of crushed Hawaiian pineapple, one-third cup raspberry jam and three tablespoons sugar. Roll pastry thin, and cut in four-inch squares. Put a large spoonful of the fruit in center of each square, bringing corners together, and either pinch together or hold with a toothpick. Sprinkle with sugar and bake in a hot oven for fifteen or twenty minutes. This makes eight envelopes.

**Lemon Tarts:** Beat one cup cream. Soften one-half teaspoon gelatin in two tablespoons cold water, and dissolve in four tablespoons boiling apricot syrup from a No. 2 can of apricots. Add to whipped cream, chill and pour into baked pastry shells till they are about half full. Let chill and harden. Drain the apricots and the contents of a No. 2 can of crushed pineapple, and press the apricots through a sieve. Spread a layer of apricot purée over the cream, then a layer of pineapple. Melt a little currant or quince jelly and spread over the pineapple, making a glaze. Makes ten fairly large or twelve medium sized tarts.
