MAKE EVERY CHILD HAPPY

The Christmas season of 1932 finds more Americans in financial trouble than ever before. It comes in a year that has seen bright hopes fade, and it finds children by the millions suffering with adults in a land that is literally flowing in abundance.

That these children should not lose the joy of the Christmas season is an opportunity that presents itself to the citizens of every community and city. In this community there are doubtless hundreds of individuals who are anxious to share, to a limited extent, that which they have with those who have not.

Lets see that the work is done thoroughly, that no child in this section goes through Christmas without some evidence of human love, and that no adult is forced to face the pangs of hunger on the occasion of Christian celebration.

LET EUROPE BUILD OUR WARSHIPS

The United States is falling far behind of its treaty strength Navy and in the interest of economy, a considerable curtailment of expenditures has been made at the expense of our fighting fleet.

Several foreign governments insist that they are unable to pay war debts owing to the United States in gold and economists point to the fact that trade barriers prevent payment in goods. Why not allow these debtor nations to building fighting ships for the American navy and bring it up to full strength without additional expense to American taxpayers.

For example the British might pay some of their debt by building cruisers and the French, who have recently commissioned several excellent submarines, might construct some on account. Even Italy whose shipyards have launched two of the largest liners on the seas, might be able to give us a few squadrons of destroyers.
