CHAPTER XIII

And so the first winter of the war came to Hamstead. The mail that brought letters from Jaqueline, nursing in a convalescents' home in Brittany; from David, operating in a field bospital directly behind the firinglines; from Austin, driving his ambulance over shell-shot roads; from Paul, "somewhere in France;" from Jack and Thomas and Philip at Camp Devens-all as yet, unharmed and

There was a ball, and a banquet, and "comfort kits" for all the boys. There was the preparation of Christmas packages. There was the careful searching of the newspapers for accounts of the unsatisfactory conditions existing at Camp Devens. . .

Then, suddenly, the first blow fell.

A telegram came for Blanche. And Sol Daniels, instead of telephoning it up to the house, as he had telephoned so many times, wrote it down slowly with his stubby pencil. and locking up the station, walked down the road through the deep snow with it in his pocket, blowing his nose hard on his red bandana handkerchief as he went along.

To his intense relief, it was Mary, in those days, who answered the knocker at Carte Blanche. Sol handed the grimy paper to her without a word as she opened the door, and cleared his throat.

"For Blanche?" asked Mary in a startled voice.

"Yes-it's a que le shame. You better open it first, and then tell her what's in it."

"No-I want 't myself, please." Mary and Sol turned quickly. Blanche was standing on the tiny winding staircase, holding out her

hand. She, too, had heard the knocker. "I've been-been expecting it ever since Philip was home for his fur-

lough. Take Sol in where it's warm, Mary, and give him some coffee. It was awfully kind of you, Sol, to bring it yourself." "I'd a-rather ben licked than to

a-brung it."

"I know-please." She opened it slowly, almost carefully. It was from one of the doctors, and it was rather long. Philip had been stricken, very suddenly, with pneumonia. The entire illness had been a matter of only thirty-six hours. The doctor was obliged, with the deepest regret, to inform her if she would telegraph her wishes, they would of course, be complied with in-

sofar as possible-The yellow sheet crackled in ner hand. For a moment she shut her eyes, swaying, and Mary started towards her but she put out her hand as if to keep her back. Not even Mary could help her through this moment; she wanted to meet it alone. Then she came slowly down the stairs, and going to the window where the service flag hung, she took it down and stood for a long time with it in her arms, her lips quivering. At last she gathered it up, and crossing the

room with it, she hung it, as if it had been an emblem of victory, over the portrait of the little French countess. Then she faced her cousin and her old

"I'll have a new one, with a gold star, in the window," she said quietly. "but that one belongs there. Can you have the express stopped at Hamstead for me, Sol?-You'll go with me, Mary, of course? Please tell mother and Cousin Jane. I'd like to be alone a little while, I think- But I'll be ready to start in an hour."

There was no time to waste in "breaking the news gently." Mary found the two older women together and, without a single unnecessary word, told them what had happened. Violet, horribly stunned and shocked, broke into angry and rebellious grief which prostrated her completely. But when Jane had done all she could to relieve her and the frailer woman had recovered somewhat and they had taken the necessary steps to send Blanche and Mary to bring Philip home and to prepare Hamstead for its tears rolling down her grim, plain
