Looking at Washington

CONVERSATIONS LAY THE GROUNDWORK PRESIDENT ASKS MORATORIUM ROOSEVELT'S INFLATION PROGRAM MANCHUKUO'S NEW TRADE POLICY U. S. WON'T INTERFERE

The conversations at Washington between President Roosevelt and Prime Minister MacDonald apparently laid the ground work for a comprehensive mobilization of the economic powers of the world in a combined frontal attack upon the depression.

The same breadth of vision that has characterized President Roosevelt's efforts to bring this nation to an economic improvement is seen in the possibility of a cooperative effort on the part of the nations of the world to follow the example of the United States in making a coordinated drive to increase the general level of commodity prices. Moreover, there is some prospect that the nations will engage in a general effort to stimulate business and provide employment through capital expenditures.

Emphasizing the fact that there are "no alliances or entanglements," Mr. MacDonald admitted that the meeting in Washington had been "fruitful in a way I hardly believed possible when I came." It is believed that President Roosevelt is equally pleased with the results thus far obtained in his various conversations.

In view of the fact that the proposed World Economic Conference meets in London on June 12 and that the war debt installment comes due three days later, on June 15th, the President is anxious to have a moratorium on war debt payments until after the conference as some of the issues to be handled are intimately connected with future debt payments. Moreover, it appears quite plain that President Roosevelt is anxious to have ample authority to make certain tariff changes. The scope of his conversations with Mr. MacDonald plainly exhibits the necessity for enlarged powers if the nations of the world are to get together on such a broad program.

Another interesting development involves the possibility that some concession may have to be given France along the line of security if Great Britain and the United States expect to have any success with their disarmament proposals. It is clear that so long as France maintains her reliance upon a system of alliances to protect her position in Europe, no real disarmament is possible for the world.

Because this is generally recognized, it is believed that the President thinks it possible to remove French objections, either through some consultative pact, or some form of security agreement which might take the form of an embargo on an enemy of France.

The MacDonald consultative pact draft enunciated on March 16th, sets forth that in the event of a threatened war involving the signatories of the Kellogg-Briand pact that the question may be brought to a conference at the request of five powers. This conference would set in motion the machinery of the League of Nations but the MacDonald plan was not so satisfactory to France at the time. There are evidences, however, that the French now realize that they cannot separate themselves from world affairs. Faced now with the same problems that have beset other nations, France finds that the economic pressure is tending to throw French opinion toward more reasonable cooperation with the other nations of the world.

Definitely embarking upon a program of controlled inflation, President Roosevelt ordered an embargo on the export of gold, thus taking the United States off the gold standard in so far as international commerce is concerned. However, domestically, the gold standard continues in this country although it is apparent that the Administration is determined to secure an advance in commodity prices and in view of the legislation requested of Congress, the President must intend to do all things that may prove necessary to secure some positive inflation.

While it is not necessary to set forth the various features of the Administration's currency control program.

Oregon State Board of Health Analysis Shows Well Water A-1

The following is a report sent to the Town of Beaverton new water well supply by Hygienic Laboratory Oregon State Board of Health, Portland, which was received April 27, 1933.

The bacteriological analysis shows water to be in A condition. Bacterial Count 0 per cc. A—safe for drinking purposes F. D. STRICKER, State Health Officer

Well Water vs Surface Water

Well water may briefly be defined as surface water which has been filtered and purified of organic material by its passage through various layers of earth and rock formation, and which has been rendered more or less hard by taking up mineral from the rocks through which it has passed.

The virtue of a good well water for household purposes will depend upon:

- First: A minimum amount of organic matter.
 - Second: A moderate amount of various minerals, yet not so hard as to be unsuitable for washing purposes.
- Analysis of the new Beaverton water measures up to the above requirements, i. e. it contains a minimum of organic material, a small percentage of desirable minerals, and when tested for washing purposes forms only a slight precipitate and a good quality of suds.

The housewife who is accustomed to using soft or surface water for washing purposes is apt to be disappointed when she tries a water that is slightly mineral—one which forms a light curd. But let us consider the question of health as compared to the little inconvenience caused in washing with a mineral water.

The human body requires a small but constant supply of minerals for its well being. This mineral supply must come from the water we drink or the food we eat.

But if our water supply is surface or snow water (which is usual in valley and mountainous regions) the water is soft or mineral free.

As before stated the body only requires a small amount of mineral but if compelled to subsist on food and liquid-mineral free—will in time show symptoms of mineral starvation.

- A few symptoms of mineral starvation will suffice:
- 1. Goitre.
- 2. Dental Caries.
- 3. Physical and Mental Lassitude.

Goitre is most prevalent in valleys and mountainous regions, the cause being largely attributed to the water supply which being surface or snow is consequently lacking in mineral but often high in organic material. Dental Caries or decay of the teeth more readily occurs when the body becomes deficient in minerals.

Mental and physical lassitude occurs when the mineral content of the body necessary to health falls below normal.

How often the mentally and physically weary patient takes a trip to the mineral springs and comes back rejuvenated not so much by the change as by the opportunity to absorb the minerals for which his body had been starving.

In conclusion—Health being above all else—a suitable well water with a moderate mineral content is to be greatly preferred to any surface stream or lake water.

Mother's Silver Tea Planned for Monday

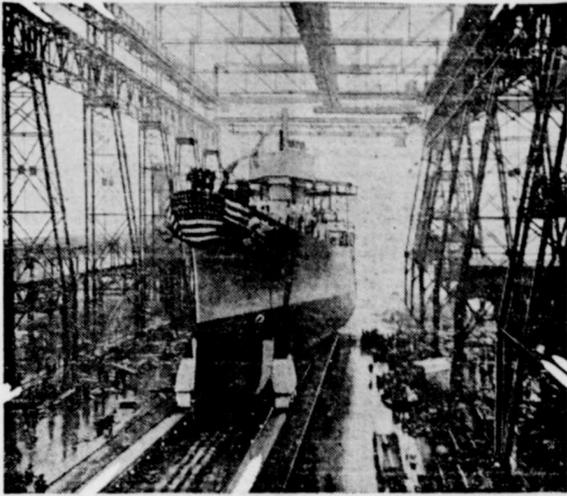

A Mother's Silver Tea was held in the auditorium of the Raleigh school Monday afternoon at 2 o'clock. The program opened with two piano selections by Mrs. Hans Englemann. The speakers of the afternoon were Ann Shannon Monroe, novelist and Mary Jane Carr, children's poet, both Oregon writers. A Gypsy dance was interpreted by Miss Perry, of Portland, and Dorothy Fuhrer, age six, played a violin solo. Mrs. John Junior and Mrs. Saltness poured. The visitors were Miss Maude Moore, Mrs. E. C. Moore, Mrs. Hans Englemann, Mrs. J. R. Talbert, Mrs. Harry Barnes, Mrs. W. C. McKell, Miss Juliet Carter, Mrs. Talman and Mrs. Metcalf.

A May Day program was sponsored by the primary room of the Raleigh school at 1:15 Monday afternoon. A May pole dance, the crowning of the queen Dorothy Fuhrer attended by Margaret Stark, a balloon parade and music were the main features of the program.

JAMES SIMONTON CELEBRATES 21st BIRTHDAY ANNIVERSARY

James Simonton celebrated his 21st birthday anniversary Saturday with a party at the Aloha gymnasium. Paul Langer acted as toastmaster at dinner, after which the boys indulged in a volley ball game.

Launching of a New Treaty Cruiser

The new 10,000-ton navy cruiser, U. S. S. New Orleans, sliding down the runway at the Brooklyn navy yard in colorful launching ceremonies. The ship, constructed in accordance with the London naval treaty, is 588 feet over all, with a beam of 61 feet. It carries 17 guns, 6 torpedo tubes, and 4 airplanes.

Pomona Approve Plan To Exchange Money

A proposal to call in all old money each year in exchange for new issue was approved by the Washington county Pomona grange under sponsorship of Aloha grange No. 773. The plan, devised by a member of Aloha grange, Mr. Haid, calls for a national law to take the place of state laws providing for the taxation of money and in addition a law providing for the re-issuance of money once a year, making the old issue subject to tax and penalty until exchanged for the new issue.

The Pomona will submit this plan to the state grange.

Mr. and Mrs. C. N. Johnson of Cedar Mills were elected delegates to the state grange convention, with Mr. and Mrs. J. L. Schmid of Aloha, alternates. The next Pomona grange will be in Kinton July 26.

Four Washington County Endeavors Appointed as Department Heads

Four Christian Endeavors from Washington county were selected by the nominating committee of the state Christian Endeavor union to head various departments in the state work. Miss Leah Turner of Hillsboro, will be regional vice-president in her vicinity, and will have charge of the entire state analysis plan program. Miss Rosa Bates of Gaston was selected Young People's superintendent, and Miss Esther Strom of Tigard and Miss Inez Porter of Gaston will have charge of the state publicity work, and will direct publicity workers in the various unions of the state.

Veldon Diment of Newberg placed first in the young people's oratorical contest with his address "Christianity and the New Deal" for which he received a scholarship to the summer conference at Turner.

Lane union won first place in the analysis plan contest for the Paul Brown cup, with 7022 points; Williamette union took second place with 6654 and Clackamas union third place in number of achievement points for the year's work with 4940.

Over 1300 young people registered for the state convention this year, a record exceeded only in 1929 at Salem and last year in Portland. Well over a thousand who were registered attended the convention, and from 1200 to 1700 persons filled the auditorium and side-rooms of the First Christian church in Eugene at each of the sessions.

Washington county was represented by a good delegation, and received seventh place in the registration flag race, which entitled the delegates to a place close to the front in the parade.

Social Club Sponsor Successful Card Party

The Beaver Social club held a very successful card party in the Masonic hall last Thursday evening. There were nine tables in play. Both 500 and bridge were played. Prizes awarded in 500 were first ladies, Mrs. V. Williams, second Mrs. Sam Lawrence; first mens V. Williams, second V. A. Wood.

Those winning in bridge were, first Mrs. W. C. McKell, second Mrs. Garlick; first mens W. C. McKell, second H. Nielsen. A lunch of home made cake and coffee was served following the card games.

H. Haid Home at Tobias Destroyed by Blaze

The Haid home at Tobias was gutted by fire Sunday morning. Mrs. Haid, who was at home alone, had gone into the yard when she discovered smoke streaming from the attic. She summoned her husband from a nearby service station and called the Hillsboro and Beaverton fire departments.

Practically all furnishings on the main floor were saved, but the entire second story went up in flames. The Haid's were fortunate in that their garage was not destroyed and they have moved in there until able to rebuild. The house was covered with insurance. Both fire departments responded rapidly and rendered splendid work in quenching the flames.

Motion Pictures to be Shown at P. T. A. Meeting

Two full reels of motion pictures will be shown at the Beaverton Parent-Teachers association meeting 8 p. m. next Monday eve at the High school building as a feature of the county wide early diagnosis campaign being sponsored by the Washington County Public Health association. Dr. J. B. Dunsmoor county health officer is chairman of the committee in charge of this campaign. Dr. C. E. Mason was instrumental in getting the films which have been widely used to interpret recent medical progress in control and discovery of the childhood types of tuberculosis. They will be introduced and shown by Homer A. Chamberlain.

Beaverton Folks Guests at Chehalis Mt. Party

The beautiful home of Mr. and Mrs. Frank Beal, of Chehalis Mt., was the scene of a double birthday celebration Sunday, honoring Mrs. Beal and Miss Laura Gosgin. Included in the seventeen guests to enjoy a day of outdoor sports on the spacious grounds were Mr. and Mrs. L. Richey and Gene and Mr. and Mrs. Frank Anderson.

CHRISTIAN SCIENCE LECTURE TO BE BROADCAST SATURDAY

Radio listeners in Multnomah and vicinity will have the opportunity next Saturday evening at 8 o'clock to hear an authorized Christian Science lecture on the timely subject "Christian Science Meets Humanity's Needs" by Gavin W. Allan, C. S. B., of Toronto, Canada, a member of the Board of Lectureship of The Mother Church The First Church of Christ, Scientist, in Boston, Mass.

This lecture, to be delivered under the auspices of Fourth Church of Christ, Scientist, in the City Auditorium at Portland, will be broadcast over station KEX 1180 kilocycles.

Entertains Group of Friends

Miss Ruth Ashbury entertained at her home Thursday, for a group of friends. Jig-saw puzzles and games were the diversion of the evening. Among the guests were Porter Underwood, Glenn Shellenberger, Isabelle Wallace, Marilyn Brown, Ruth Filly, Donald Walker, Hayes Boyce, Lillian Boyce, Margaret West, Alne Boswell, Catherine Denny, Carl Beach and Rhoda Thyng.

Mothers Day Cards, Candies, Gifts, at Browns Beaverton Pharmacy.

Correspondence

To the Editor:

Having a sincere desire to get to the bottom of this water controversy, I took it upon myself to interview some of the water users so I would have the low down on the situation.

Before I begin, I want to assure you that I do not belong to the Ananias club and my veracity has never been questioned. I have settled the question in my own mind and will endeavor to state the findings so succinctly that it will be clear in the mind of the reader.

I had read a recent report on the condition of this water and will state frankly that I did not wholly believe it or that the reporter might be prejudiced. I reasoned that the only way to settle the question once and for all was to do my own investigating. I will give these reports just as they were given to me without comment or alteration.

My first stop was at the residence of Mr. A. Faucet, whose reply was: "Too hard."

I called next on Mr. B. Tubb who said "Too warm."

The next place was the home of Mr. U. Tellum. He was more emphatic. He said: "When you get it into the bath tub it ossifies."

My next interview was at Rich Scandal's home. Mr. Scandal had just left for Portland but the lady of the house did not hesitate to tell me that "It was so hard that Mr. Scandal took some of it to mend the cement driveway."

As I approached the next home I thought if this water gets much harder it won't run through the pipes.

Mrs. J. Bird reports: "There is bacteria in it."

Mr. A. Buchett "It has germs."

Mrs. Lottie Moore says: "It has wiggle tails in it."

Mrs. Still Moore, who is a sister-in-law of Lottie Moore, says: "There are real wiggle snakes with fiery eyes and sparry tongues in it."

Now Mr. Editor, I do not wish to cast any aspersions on this water but I am beside myself after the preponderance of evidence that I have collected. Just now of all times when we need a really good quality of water in order to hold our own with the new 3.2 beer, here are all these disheartening reports.

If this water is really as hard as they say it is, I can see a ray of hope for us but I do not believe it would be well to let the public in on it at present. It will not be long before they will be making hard liquor. A word to the wise is sufficient.

AQUA PURA

Dear Sir: Beaverton Enterprise

A sample of the new Beaverton water has been submitted to me for analysis. For drinking purposes and all household uses I consider it highly satisfactory.

R. S. WELSH, M. D.

For Sale—Black gelding horse 1500 pounds, single or double, A. Buecher, R5, Sherwood, Oregon.

Four of County Accepted For C. M. T. C. Post

Enrollment for the 1933 citizens Military training camp Vancouver, Wn., has been completed in Washington county, it was announced today by camp authorities under direction of Brigadier-General Stanley H. Ford. Four youths have been notified of their acceptance.

The acceptances are contingent upon compliance with the entrance qualifications, which included the necessary vaccinations and inoculations, but in most cases these already have been met. Those for whom four weeks of active outdoor work and recreation are ahead, beginning June 23, are: Adrain Hughes, Hillsboro; Albert R. Kenney, Metzger; George E. Wolfe, Hillsboro; and Jimmy Wray, Beaverton.

ATTEND GOLDEN WEDDING ANNIVERSARY CELEBRATION

Mr. and Mrs. John Kirby, of Beaverton, motored to Sheridan Wednesday, to attend the golden wedding anniversary celebration of her aunt, Mrs. Joseph Hintzen. Places were laid for fifty guests at the bountiful dinner. More than one hundred and fifty were present at the reception in the evening in honor of Mr. and Mrs. Hintzen held at the Good Shepherd church of Sheridan.

Groundhogs Unusually Numerous

ONTARIO—Farmers of the Ironside district in Malheur county have organized a poisoning campaign to control the groundhogs which have appeared in unusual numbers this spring. Ordinary poisoned oats used for squirrels have proved to be most efficient weapon for this purpose.

ENTERPRISE NAMED OFFICIAL NEWSPAPER

County Scrip Not to be Accepted by Council

Regular meeting of the Town council was held Monday night, roll call, present Councilmen Bishop, Boswell, Fordney, Koshland, Mayor Fisher, recorder Smith, attorney Reimer, police chief Peets, fire chief Beach and water supt. Goyt.

Meeting opened with prayer by Rev. Willard P. Anderson, pastor First Church of the Nazarene.

Councilman Koshland introduced Council resolution No. 4, designating the Beaverton Enterprise as the official paper of the Town of Beaverton said resolution was adopted.

The proposition of county scrip was brought before the meeting. Councilman Bishop moved that we do not accept "Scrip"—only the big American dollar for Beaverton "Coin of the Realm."

Official report Chief of Police Peets was read and placed on file—police department commended for rendering good service.

Mr. Short of the Telephone company was present and spoke regarding red light signal.

Chief Fire Dept. Beach recommended new quarters for fire truck—a committee of two were appointed consisting of Councilmen Koshland and Chief Beach to obtain better quarters for fire apparatus, and club room for firemen.

Fire engine was ordered repaired upon recommendation of Fire Chief Beach.

Claim against Town were read and referred to finance committee. The Mayor appointed Councilmen Bishop and Boswell on finance committee.

Attorney Reimer recommended that surety bond of Bingham Pump Co be accepted—his recommendations was adopted.

Resolution No. 3 relating to police department was amended.

\$915 general funds was ordered transferred to coupon account.

Attorney Reimer reported good progress being made on new town charter. Councilmen Fordney and Koshland recommended that streets in business section be flushed—when new water arrives from Town well.

Motion by Boswell seconded by Bishop—all claims be allowed, except P. G. E. which will be rechecked. Motion prevailed.

Superintendent Goyt of the Water department presented good report work done on pipe line under construction.

Latest report from State Board of Health—best of all to date—shows well water in class "A"—bacterial count zero.

The following claims were allowed: W. W. Peets \$45; F. A. Mowers \$8; F. A. Mowers \$7.40; J. Davis \$15.40; F. H. Wilson \$11.20; H. Shunk \$11.20; Pete Van DeHey \$14.10; Pete Van De Hey \$6.90; E. B. Neese \$22.75; Oscar Dallman \$7.60; Oscar Dallman \$7.60; Oscar Dallman \$10; N. A. Fuller \$14; A. J. Galloway \$15.40; C. J. Beach \$19.85; C. J. Beach \$23.55; Carl Wolf \$15.40; W. F. Burri \$18.90; C. D. Mapes \$7; C. Zehr \$4.20; F. R. Harrison \$28.40; F. R. Harrison \$25.15; F. R. Zastrow \$19.60; O. E. Lierman \$4.55; O. E. Lierman \$13.65; R. M. Wolf \$59.50; W. W. Peets, Jr. \$4.20; Alex Cochran \$4; Alex Cochran \$19.63; R. V. Harris \$14.10; V. Domogalla \$12.60; V. Domogalla \$12.60; Roy Selby \$5.60; Chas. Essig \$4; Chas. Essig \$38; E. R. West \$6.35; E. R. West \$15.35; Homer Wilson \$8.90; Homer Wilson \$13.15; Lewis Smith water clerk and recorder \$75; Valley Water Co. \$368.85; L. F. Humburg \$35; Guy Carr \$1; Town of Beaverton coupon account \$915; F. H. Goyt \$2.50; F. H. Goyt \$70; Honeyman Hdwr Co. \$5.84; L. D. Shellenberger \$75.60; W. B. Adams \$20; Deans Drug store \$0; Lewis Smith \$3.70; C. R. Hadley Co. \$1.72; Dewey the Plumber \$3.14; N. J. Skee \$10; Chas. Berthold \$0; C. R. Buzzard \$19.25; C. D. Mapes \$1; Beaver Wood Co. \$5; Nat. Tank & Pipe Co. \$14.40; F. W. Bishop \$10.40; F. W. Bishop \$18.50; Blumauer-Frank Drug Co. \$7.50; V. P. Reimer \$22.50; F. H. Goyt \$6.80; Jacob Kemmer \$4.50; Beachs Market \$0; Letizia Rossi \$6; Beaverton Enterprise \$45.05; Beaverton Sand & Gravel Co. \$1; Beaverton Sand & Gravel Co. \$22.10; Motion to adjourn on call carried.

MODERN DANCE MAY 13
