COUNTY AGENT NOTES

WM. F. CYRUS  
County Agent

Apple and pear growers in the Willamette Valley should apply the first cover spray now for the control of codling moth. For two or three nights during the past week there was a considerable flight of codling moths and eggs were deposited. The eggs will hatch in from 8 to 16 days, depending on weather conditions. The next spray should be applied before these eggs hatch. The spray is powdered lead arsenate used at the rate of 3 pounds to 100 gallons of water. In orchards where codling moth is not a serious problem, 2 pounds of powdered lead arsenate to 100 gallons of water is sufficient to give commercial control.

Calcium arsenate has been used in the Willamette valley for codling moth control with only slightly less effectiveness than lead arsenate and without injury to the leaves or fruit, according to B. G. Thompson of the Oregon Experiment Station. Five years experimental results show calcium arsenate to be only slightly inferior to lead arsenate and to have carried no apparent injury to the foliage or fruit. This material was used at the rate of three pounds per 100 gallons of water plus two pounds of hydrated lime in the cover sprays. "The addition of lime or other material as a buffer to prevent damage to the foliage and fruit does not appear to be necessary in the Willamette Valley," state D. C. Mote and Mr. Thompson in a recent experiment station circular.

Thoroughness of application is essential in codling moth control. The foliage, as well as the entire surface of every apple and pear should be thoroughly covered with the spray solution if worm injury is to be prevented. Due to the earliness of the codling moth this year, the first cover spray might be combined with the 15-day scab spray.

No Difficulty

Visitor—You take life pretty easily here, dont you?  
Kentucky Mountaineer—Ya'as, about one fair shot usually does the business.

Zitt—Mitzie takes plenty of setting up exercises.  
Zipp—Yes, she sits up with a different boy every night.

Proof

Coach, running up to injured player—Migosh, man! Are you double-jointed?  
Player—No.  
Coach—Well, then, you have a broken leg.

ROSE CITY LABEL CO.

In Portland, East 25th and Division, Telephone Lancaster 1388. One of the prominent firms of this part of the state, which materially aids in the growth and progress of Portland and Multnomah and Washington Counties by rendering a necessary product and a most metropolitan service to manufacturers, merchants and general public

Much is being done to aid in giving this community a commercial prestige by the activities of the Rose City Label Company. The volume of business which they transact, the quality of the labels which they make and the business methods of the company are responsible for the reputation they have won. Here the public has at its disposal the services of men who possess the know how and who obtained their very modern business education in the school of practical experience. From the inception of the enterprise, quality has been the aim and the standard has been maintained from the beginning. The plant of the company is very

extensive and is equipped with the latest scientific machinery for the production of quality products. The name stands for quality, reliability and progress in this industry and as the advances of the times have marked improvements in the trade they have kept thoroughly abreast of the times. While their activities cover a wide scope of territory, their special field is that of the Pacific Northwest. To keep their organization complete, it is necessary that they employ a number of people at all times, and being a local enterprise, thousands of dollars are placed in local circulation that would never find its way here if it were not for their efforts.

Located as they are, and determined to furnish labels of quality, upon a reasonable margin of profit, has caused their business to flourish and expand. Keeping their name constantly before the people and the fact that they are a local industry has so firmly established them that their products will be found all over this territory.

Every department of this house is in charge of an expert, the management is in charge of a man who has had experience in label manufacturing and thoroughly understands trade conditions, and we predict that if the present policies of the concern are continued, the future will hold greater advantages than they have enjoyed in the past.

Lyon Van & Storage Co.

This Portland Establishment Located at 521 Kearney St., Features Excellent Crating and Packing Service Besides Operating a Lift Van Service Wherein No Packing or Crating is Necessary. Their Local and Long Distance Hauling in Addition to Their Storage is Well Known in the Locality of Portland. Telephone BRoadway 3541

When it comes to conducting a transportation business this firm knows it and the assurance of satisfactory service rendered by them is evidenced by the increasing patronage they are receiving year by year. This large concern is equipped for the transportation of commercial goods, either long or short hauls. Their facilities for handling large and heavy articles are the best in the city. As they operate a fleet of trucks they are able to handle your transportation needs rapidly and in any emergency. Their prices are extremely reasonable and with the service they render you are certain to get the best results.

They have ample space in their storage that eliminates crowding. This is a guarantee that the articles stored will be safe as there is no possible chance to scratch or mar them. In fact their storage has been arranged to give you at very attractive rates, the safe, clean and superior storage that present day people demand. Their men are experts in the business. They have had long experience in handling goods and in baggage service. All you need to do is to let them know what you want and then dismiss the matter from your mind with the knowledge that it will be

properly, safely and satisfactorily taken care of.

The lift van service rendered by the Lyon Van & Storage Co. plays an effective part in the shipping of merchandise. This service eliminated packing, crating and unnecessary handling of the shipped goods because once the van is loaded the truck is driven to the ship and the van is lifted aboard, then at the destination port the procedure is reversed, the van is lifted off and placed on another truck and delivery of merchandise is made. Our readers should avail themselves of this modern, rapid and safe method of shipping.
