**P. SHARKEY & SON**

Successful Businesses are Not Established over Night. It takes Years of Untiring, Conscientious Service, to Make a Few Customers Grow into a Large Clientele—Since 1886, almost a half Century, P. Sharkey & Son has Established itself as the Foremost Harness Manufacturing Concern of Portland and the Surrounding Country. Under the Personal Management of the Owner, Mr. George Sharkey, Located at 605 N. E. 21st Ave., Telephone EAst 7413

This section of the country, as a whole, has an added business advantage by having in its midst such a very well known concern whose commendable policies and inherent honest dealings have gained them an ever increasing business.

First they insist that their service is dependable. You know that you are going to get value received and courteous treatment when you trade here because past experience has taught you that they are personally interested in you and your trade. Next, they leave nothing undone in their effort to provide for you the very best that can be had for the money.

To be merely rendering an average service in an average establishment

is all well and good. But to be able to give a service that is just a little in advance of others in an establishment that has become a feature of the commercial life of the community; that is indeed something well worth while.

Through the extended services of this very active firm, many dollars are brought yearly into circulation.

Good values and reasonable prices have placed their products everywhere.

P. Sharkey & Son started its business career upon a solid foundation, knowing that success in this advancing business could only be gained by offering quality service upon a fair margin of profit.

fit. Fair and honest business methods at all times, excellent service to every patron has established for them a trade that has extended in every direction from town. All of these business assets have been the reason for their success, and with these methods in mind we realize that their success has been deserved. These are but a few of the reasons that we wish in this review to direct the special attention of our readers to this place as one of the essential factors in the life of the community. But what we particularly call our readers attention to is the fact that in trading here you deal with people who are here every day and who are interested in you and your welfare.

**Milwaukie Lumber & Shingle Co.**

The Farmer for many Years has Considered the Milwaukie Lumber & Shingle Co. the Best Source of Lumber Supplies and Shingles and Today Continues to Extend His Patronage to this Reputable Firm, Located at Milwaukie, Telephone Sellwood 3625. Under management of Mr. S. C. Tevis.

A twentieth century industry under the direction of men who have always had at heart the best interest of the community in which their valued enterprise is located and one of the firms that keeps the wheels of progress turning in this section.

This firm is known throughout this section as one of the leaders in lumber and shingles and because of their knowledge of every branch of the trade, this establishment has continued to witness the increase in the number of their patrons.

It may be of interest to know that

the idea of this enterprise originated in the resourceful minds of energetic people. With a restless ambition, a broad vision of the future of the industry in this country, they turned their trained and creative minds to the production of high grade products.

Today it is one of the most substantial concerns engaged in the manufacture in the country and its phenomenal growth is the result of hard work on the part of its officers.

We could write many columns and then not tell you all of the good that this modern industrial concern has done for this section. It has become so much a part of the everyday life of

the people of the community that many have come to regard it as a "matter of course." It is well to pause occasionally and consider what they mean to us.

To maintain it means continuous encouragement of all in the community, the assured expansion of this entire section, the onward progress of industrial, commercial and social development.

They are courteous and efficient to a marked degree and have surrounded themselves with employees conversant with every feature of the business, and as a result work moves along in a most satisfactory manner.
