

Willamina Clay Products Co.

Many Architects of this Section Specify Their Products

In Portland at 0132 S. W. Mill St., is a Prominent Concern of this Part of the Northwest Whose Superior Products are Known Throughout this Territory, and whose Progressive Activities are Indispensable in the Upbuilding of the Community. Established over a Quarter of a Century Ago the Company has Always Served the People Faithfully.

The tendency to build better homes and buildings than in the olden days is very marked, as we are now building for the future. The beauty of brick construction as well as the lasting qualities is constantly increasing the demand and this industry has prospered beyond expectations.

The advantage of building with brick is self evident as it reduces the cost of insurance, the structure lasts forever and the first cost is the last cost, as it requires no painting or upkeep and in time is the most economical.

The Willamina Clay Products Co. are manufacturers of high grade bricks and have for years supplied contractors, builders and the farmer with their quality products. The careful investor should get brick facts from men who know before building or buying. Mr. O. K. Edwards, the owner-manager, is one of the foremost authorities on brick manufacture and just what kind of bricks should be used in the construction of any building whether it be a new home, garage, barn, silo or an addition to a structure already erected.

It can readily be seen that thousands of dollars are placed into local circulation by this company. The large scale of their activities, the industrial wisdom of the management and the straightforwardness of their dealings have won for them a warm place in the hearts of the people of the community. They are prominent citizens of the community, identified for years with their progress and always boosting for the continued development of the community.

FULTON PARK DAIRY

W. F. WARDIN & SON

An Old Proverb is "A Healthy Body Breeds a Healthy Mind." The Fulton Park Dairy By Providing Wholesome "Grade A" milk and Dairy Products High in Nutritive Contents Contributes Probably More than any Other Institution in the Community to the Health of the Baby and Growing Child Located in Hillsdale, Telephone ATwater 5515.

Perhaps no part of agriculture has made such forward strides in the past few years as dairying. When we speak of dairying today, we must first consider the fact that it is one of the greatest assets to any community—it is one of our Government's greatest sources of income—it is national in its scope, and is practically the only division of our agricultural enterprises which affords the producer—the man who milks the cows—a year round income.

The firm was organized for the purpose of giving the best dairy products possible and has succeeded admirably and there is no question but that their popular products are very much superior to any obtainable on the market today.

A visit to the plant is very interesting to the uninitiated. Their business has increased so rapidly that improvements have been made from time to time until today they have a model industry.

Everything in the plant is kept scrupulously clean as it is the policy of the institution not only to produce milk and cream that will pass inspection, but to turn out products that are as near an approach to the acme of perfection as modern machinery and up-to-date methods will permit. Many mothers of so-called bottle-fed babies highly praise the energizing contents of this dairy's milk.

Milk undoubtedly is nature's safest health and happiness insurance.

A bottle of milk is a bottle of

health" is an expression of today that is quite in order. A glass of milk at ten in the morning and three in the afternoon wards off that tired feeling. It beautifies the skin and clears the complexion. Everywhere, school and health authorities are insisting that milk be served to school children. Serve milk at meal time and between meals, too, to the whole family, milk consistently used builds health and vigor in the frailest body, colors pale cheeks, revitalizes wasted nerves. In this editorial review we take great pleasure in complimenting the management of this dairy upon their modern business methods. The people of this community are indeed fortunate to have them here.

Order your milk today from the Fulton Park Dairy.

CHRISTIAN CHURCH

G. W. Springer, Pastor

Last Sunday the Churches of Christ from Hillsboro, Farmington and Beaverton enjoyed a picnic lunch and union service under the trees at Farmington. Details of an attendance contest between Hillsboro and Beaverton were arranged, having begun with the first Sunday in June. The basis for the percentage increase is the average attendance for the month of May, which was 93 for the Beaverton Bible School. If we are to retain the banner won from Hillsboro last year, it will require the faithful efforts of every member to not only hold the

line of 93 but to increase this average during the summer months.

The Christian Endeavor society paid a visit to the society at Aloha last Sunday evening. They are to be commended on their 100% return to the Church services. At the recent election of officers of the society the same president, Roy Shipman, and the same vice-president, Donnell Smith, were retained for another term.

Friday evening the members of the Church are planning a house warming for their pastor at his home on Watson street. This is to be a pound social. Ladies are requested to bring either sandwiches or cake.

A continuation of the Book of Hebrews will be the topic of discussion in the morning service. "Our God," is the title of the evening sermon.

Auto or fire insurance of all kinds Leonard Adams, Beaverton.

GEO. B. WALLACE, Inc.

Mr. George B. Wallace, has for the Past Fifteen Years been Identified with the Automobile Business, Having Successfully Sold Cars in the Pacific Northwest during those Years. His Comprehensive Knowledge of and Experience in the Automobile Business, Coupled with Studebaker Qualities of Superiority, Assures the Purchaser of a Studebaker or Rockne that All Contacts will Be Pleasant, and Satisfaction in Dealer and Car will be Attained. In Portland at 70 N. Broadway.

Characteristic of its pioneering and pace making spirit, Studebaker has long played a leading part in Motor- ing safety. Two years ago Studebaker corporation decided to enter the low priced field and brought out the Rockne Model. This Model is just above the extremely lower priced field and has all quality and comfort of the large car.

For three-quarters of a century the name "Studebaker" has stood for quality and reliability and it is quite appropriate that the famous Studebaker and Rockne automobiles should be represented by this firm with such an enviable reputation for satisfactory service.

Truly these cars are of true Studebaker workmanship and superiority. And truly George B. Wallace, distributor, specializes in real service to Studebaker owners. Just as The Studebaker Corporation is a world known concern with an enviable repu-

tation for backing up their products with a comprehensive service, so is this up-to-date establishment known for individual service to Studebaker owners. This means that when you buy a Studebaker motor car, the word "service" actually "Means Something." The advantage of such individual service, such "standing behind the car," both by manufacturer and dealer—can not be overestimated.

Studebaker's \$10,000,000.00 closed body plant, which is one of the most modern plants in the industry, makes it possible for them to turn out the highest grade closed car bodies of all automobile history.

Every body is framed in selected steel. Incidentally, the fine coach work has improved upon itself so that the new car comes to you not only with a greater charm of general design but is far more impressive and beautiful finish.

The new Studebaker and Rockne

automobiles are a delight to the eye not merely at the first admiring glance, but in the wealth of attractive details which a closer inspection reveals.

No matter how sweeping your ideas are of what a car should be a Studebaker with its newness and beautiful lines will satisfy you. On duty at all times, are salesmen who are courteous and will be pleased to explain the advantages of owning a Studebaker or Rockne automobile.

They have some mighty fine used cars for sale which have been put in first class shape and can be purchased at a low figure on liberal terms.

It is such popular establishments as the George B. Wallace Co. and such service as they render in a modern manner that distinguishes the twentieth century automotive institution from the average automobile dealer.

For a demonstration of the Rockne or Studebaker call BR. 5566.

CONGREGATIONAL CHURCH

Rev. Charles F. Clarke, Pastor
Well Friends: When we pray we want our prayers to be answered, is there a method of prayer that will make the answer sure to come? This question will be discussed at the morning service next Sunday. It is an ex-

tremely important matter, we hope many will come to this service of worship and preaching.
The Bible School meets as always at 9:45 and the evening service of worship at 8 o'clock. The sermon subject will be "Speaking for Ourselves."

Since You Have an Advantage Why Not Take It?

Beaverton, Aloha, Multnomah and Tigard residents are entitled to Automobile Insurance at FARM RATES with Farmers Automobile Inter-Insurance Exchange. Most other companies charge City Rates.

Example: For Public Liability (10,000-20,000 limits) and Property Damage up to \$5000 on Fords, Chevrolets, et., your cost is only \$14.00 for the first six months and \$5.55 each six months thereafter.

If you have a good accident record you can make tremendous saving and still have excellent protection.

Certainly it's worth investigating this plan. For full details call or write—

We Oppose the Sales Tax

and give these reasons why the proposed tax should be killed

§ A sales tax increases the consumer's cost of living.

§ This proposed Sales Tax does not rest fairly upon consumers in proportion their ability to pay. It bears heaviest upon those who have little to spend, and their pittance is cut down by the increased cost of the things they are compelled to buy.

§ A Sales Tax increases the retailer's cost of doing business—and makes him a tax collector for the state.

§ A Sales Tax will penalize the honest merchant, because the creation of a highly expensive organization to check the accounts of retailers throughout the state is impossible, thus influencing irresponsible retailers to falsify reports and evade the tax.

§ A Sales Tax will influence the consumer to buy outside of the state. The Sales Tax is based on sales, regardless of profit. A merchant operating at a loss would be taxed on gross sales, and just as heavily as if he were making big profits.

§ This proposed Sales Tax does not distinguish between necessities and luxuries. Foods are taxed the same as other merchandise.

§ The Sales Tax would force higher retail prices, curtail buying and reduce employment.

§ Present real estate taxes could not be reduced over one-fifteenth by this plan, and the thousands of dollars now assessed on personal property would be free of taxation.

§ The Sales Tax is just another tax, and will have a tendency to promote further governmental extravagance.
