The work of the architect is held in highest regard in its relation to every phase of building endeavor, as it is to his creative ability and oft times his artistic skill that the realization of a beautiful and useful structure is accomplished. Before a spadeful of earth is turned or a brick laid, every detail of the structure has been planned by the architect, who, in his sketches, gives the public the idea of the composite effect embodied in the new building as well as its features of construction.

BEAVERTON CHRISTIAN CHURCH
Rev. G. W. Springer

Our Church has not known a "summer slump" this year but thus far attendance has held well above the average for the entire year. There were 103 in Sunday School last Sunday, the young people's society was large and the attendance at the evening service was good. Prayer meeting attendance has averaged between 25 and 30 all during the summer. We are looking forward expectantly to the fall months.

The young peoples society enjoyed a weiner roast at Lost park last Tuesday evening. Monday evening they held their regular monthly business meeting at the home of the pastor, and decided to adopt the analysis plan presented by the county union. The remaining part of the evening was spent playing games and eating watermelon. Two young men accepted Christ as their personal Savior last Sunday

morning and were obedient to Him in Christian baptism at the evening service. The topic of the morning sermon next Sunday will be Prophecy, a Testimony of Christ. In the evening the young people have charge of the evening service with the exception of the preaching. In the evening Mr. Springer will speak on the subject Confidence in the Lord.
