FAIRVALE COUNTRY CLUB

OPEN FOR DANCES, PARTIES

One of the most difficult problems to meet when holding public dances, is the elimination of the so-called rowdy element which always seems to find its way to these functions.

The Saturday and Sunday night dances which are now being held at the Fairvale Community Club House seem to be singularly free of this element.

The music for the Saturday night dances is being furnished by the Antlers Dance Band, a section of Portland's wonderful Junior Elk Band, which should be guarantee enough as to quality. Straight up to date music and plenty of it.

On Sunday nights, Al De Christoforo and his entertainers occupy the platform. Every member of this organization is an artist and it would be hard to find a better balanced and more genuinely pleasing orchestra.

The Fairvale Club House is noted for its extremely fine dance floor, a floor so smooth and easy that dancing becomes one of the effortless pleasures that it should be.

Get up a party of your friends and pay the Fairvale Country Club a visit You'll like it.

Arrangements for private dances and parties can be made by calling George C. Lederer, Walnut 4418.

BOY SCOUT NEWS

Monday evening the local troop gave a demonstration at the Parent-Teacher's meeting in the High School. Eleven scouts and leaders were there.

At the last meeting it was found that the troop charter renewal is due next month. This means that each scout wishing to continue his membership must pay his annual registration fee (fifty cents.)

The "slippery eel" title of last week was transferred to scout Gene Brown, who gave the troop a delightful story, obviously very preposterous. There was also an interesting game called "The Biggs-Pooper Letter." The team of Bob Engleke and Bill Siddens placed first.

Next Saturday at 4 p. m. scouts will meet at the assistant scoutmaster's place for another "blind hike." They will return early Sunday.

ARE YOU PROTECTED?

One of the most important factors in the upbuilding of a community is the proper protection of property. The firm who handles insurance is one of the important assets that a community can have. It is through the efforts of insurance experts that the property is kept properly insured and the community is protected against home and industrial losses.

It is a well known fact that Insurance the same as Groceries and clothing is a necessity.

The writer of this article has read in the past of so many disastrous fires with the notation "no insurance" or so many heads of families who were sick, with dependants that had to go without food and clothing because they had no insurance protection.

Through automobile accidents many have been sued for everything they had because they had no insurance protection.

After talking with Mr. Cartwright of LEWIS & CARTWRIGHT INC., GENERAL INSURANCE CO., at 232 S. W. Fourth Ave., Portland, I find there is no excuse for anyone not having insurance on his car or protection against fire, theft or sickness. WHY?—Because they have a unique system of selling insurance on the installment plan, or by the month. Why not buy insurance the same as you do food and clothing and have that protection as you pay for it. Some of our readers will think the interest will be high but it is only 1/4 of 1% a month.

METHODIST CHURCH

Sermon subject for Sunday morning, nine o'clock will be "Approved Unto God." Every man is the architect of his own destiny. It is important for each to establish a philosophy of life deep enough to ground himself to fundamental truths, broad enough to see the whole of life, and human enough to feel and sense the whole of life, and human enough to feel and sense the need of society. The Gospel for this day puts a premium upon intelligence and disparages ignorance. Religion is immeasurably significant just because it is dealing with the things that are infinite.

When we consider the fact that we have a crime bill of ten billion dollars a year, and the unenviable reputation of being the most lawless nation on earth, and while we have multiplied organizations whose sole purpose it is to destroy faith in the highest and holiest things of life, we readily conclude that our outlook on life and our philosophy of life does mean a great deal. A broader outlook and comprehension of our social responsibility should awaken in us a desire to influence spiritual values.

IS IT POSSIBLE TO REDUCE WITHOUT INJURY TO HEALTH

The question has often been raised is it possible to follow a method where one may reduce without in any way doing injury to their health. Many ill advised methods have been advanced as to reducing that has met difficulty to, but there is a way to reduce to the weight that you naturally should have. In other words it is the belief that you must work with nature to bring ones self back to normal.
